Have you ordered your Ford

Spring is here and the finest motoring days of the year are but a few weeks away.

A Ford car offers a splendid means of relaxation after the hard grind of the day's work. More than that, it gives your family a means of enjoyment and opens the way to many forms of recreation in the open air. And it enables all of you to enjoy the convenience of motor transportation at all times.

If you are planning to drive a car this spring we cannot urge too strongly the advisability of placing your order for immediate delivery.

Weekly Letter

Public Accounts Committee disclosures during the past week have overshadowed anything the Legislature has done, and while the attitude of the Government might be interpreted as one of determination to put the farmers where they can never come back as an occupational political group, and that of the Progressives to be that of almost mute astonishment, the Liberals' contentions are directed toward the correction of departmental conditions under which things such as have been testified to could have happened.

Although the House has practically abandoned night sittings in order to allow the Committees to catch up in their work, the Government has introduced a last minute rush at the end of next week when the Premier hopes to have the House rise. In previous years the Conservatives have criticized the Drury Government for holding off business until the closing hours of the Session, when proper consideration of legislation is sometimes sacrificed to haste.

One of the most important things, from a rural standpoint, that the Ferguson Government has done since the Session opened is to provide for the appointment of a special committee which will delve into general agricultural conditions in their relation to transportation, industry and everything else. From the standpoint of the Liberals any move toward agricultural betterment is extremely welcome, and in this particular instance the move follows out, in a different way, perhaps, just what W. E. N. Sinclair, K. C., contended for in the Legislature last year.

During discussions last session the House debated his resolution expressing regret that the Drury Government although supported almost wholly by farmers, had done nothing particularly to assist the agricultural industry, which the present Liberal leader maintained was the most important in Canada. He urged them in the resolution to "take active steps to improve the condition of the Agricultural industry," but it was voted down and a Drury Government amendment carried.
