HARD LINES

A deputation of men interested in the operation of busses on the Provincial highways, a few days ago, waited on the Hon. G. S. Henry, Minister of Highways, opposing the restrictions put upon those operating the busses. According to a daily paper the Minister pointed out that as the law was not yet effective, the men could not speak from experience on that question, and should it not prove satisfactory after trial could be abolished.

But does it look just right on the part of the Ontario Government to drive the busses off Yonge Street and the highways, by what they call luxury taxes, and heavy insurance? There does not seem to be any more danger in riding in an omnibus than in an ordinary motor car. Then why compel one to pay insurance and not the other?

From time immemorial busses have been operated on highways for the convenience of the public. If they are driven off the roads now, it will give the travelling public an idea of one phase of Government Ownership.

GORMLEY

The farmers are still claiming the promise given to Noah. While the earth remaineth, seed time and harvest shall not fail, as we see them busy tilling the soil, and sowing the seed.

There was quite a gloom cast over Gormley, when we heard of the sudden death from heart failure of Mrs. Bert Mabley, in her 41st year, on April 18th. On April 19th the widow of the late Daniel Heise died, and on April 23rd, David Dexter died in his 91st year.

The widow of the late Peter Baker, has been prostrated with pneumonia for some time, but is again recovering.

Geo. Sheffer, of Sunnidale, who came down to spend the winter with his son-in-law, G. T. Hiltz, has again returned to his home.

Eld. H. R. Heise and wife were pleased to have four of their grandchildren from Toronto, to spend the Easter holidays with them.

The Farmer Ruler Factory is still running full capacity, turning out rulers and gas measures by the thousand.

There was quite a gloom cast over the Tunker Church, when they heard by cable of the death of H. L. Smith, one of their leaders in foreign mission work in India, at the mission, where Clarence Heise and wife, of Victoria Square, and Miss Anna Steckley, of Gormley, are laboring.

Eld. H. R. Heise was up for the service at the Industrial Home last Sunday, where the Tunkers hold services every six weeks, as the Saviour said the poor have the gospel preached to them.

Cheap Power FROM Good Windmills

TORONTO

Running Water!

When and Where You Want It

On any farm of average size at least one hour a day—36½ ten hour working days a year—are spent in the irksome, wearying task of pumping water. 36½ days which one of my Toronto Windmills will give you for profitable work, rest or recreation—besides supplying running water wherever you want it.

The one bothersome task, that of oiling the windmill in all kinds of weather, is overcome in the Toronto Self-Oiler, which requires fresh oil only "once a year." Friction and wear are practically abolished. Toronto windmills, too, can be made absolutely self-regulating in operation.

The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. Let me explain why I believe this is one of the biggest conveniences you can have.

J. Lunua, Agent, Richmond Hill
