Look over your machinery and let us know before the rush starts what your requirements will be.

C. M. PALMER  
43-tf COR. ARNOLD & YONGE STS.

An Evening paper intimates that in the new re distribution bill at Ottawa, Toronto will get nine seats, instead of six as at present. Also that York will have three ridings instead of four, South York to disappear. It is understood that, as far as possible, County boundaries are to be respected.

Tuesday's papers announced the sudden death of J. Walter Curry, K. C., from pneumonia, after one week's illness. Mr. Curry had made for himself an enviable reputation. He was Crown Attorney for Toronto for several years, and his fearless attack on the poolroom bucketshops will not soon be forgotten. The late Mr. Curry represented South East Toronto in the Ontario Legislature, and less than a year ago he was made registrar of deeds.

The Canadian Magazine, beginning with the May number will be changed to approximately the same as Red Book, etc. Each page will contain 420 lines or two columns, 210 lines deep. This will make the page 9 x 12. The new size will be more adaptable for handling and display. This Magazine, being Purely Canadian, should be in many Canadian homes in preference to some other magazines that are published in another country.

When Miss Agnes McPhail, the only lady M. P. at Ottawa, gets up before an Ontario audience and points to what she may think would be improvements in our school system, she is quite within her rights as an interested citizen. But does it not seem a little out of place to go to the United States and belittle our laws. A Canadian Press Despatch, dated May 2, says that Miss McPhail in a public address at Washington stated that "the school text books of Canada require disarmament" "History and Literature as taught to Canadian youth, teemed with war sentiment, and idolized the warrior." We all know that the Ontario school system is by no means perfect, but a fair criticism in our own Province might produce better results.

**THE SAME OLD TROUBLE**

It will be seen by minutes of Village Council that at the meeting Monday evening a petition of our citizens was presented asking the Council to proclaim daylight saving to coincide with Toronto dates.

No doubt many who signed the petition would prefer to jog along by standard time, but when they consider that scores of our citizens live in Richmond Hill, but hold positions in the city, they feel inclined to sacrifice their own personal feelings, and turn their time-pieces on one hour the summer months. People living, say in Bradford, Barrie or other towns at a distance may feel quite independent of Toronto. Not so in Richmond Hill. We are governed to a certain extent by Toronto and the Radial Railway in spite of ourselves. By falling in line scores of mothers will be required to get ready on only three meals a day where they now get five or six.

**Want Ads.**

*Overland*

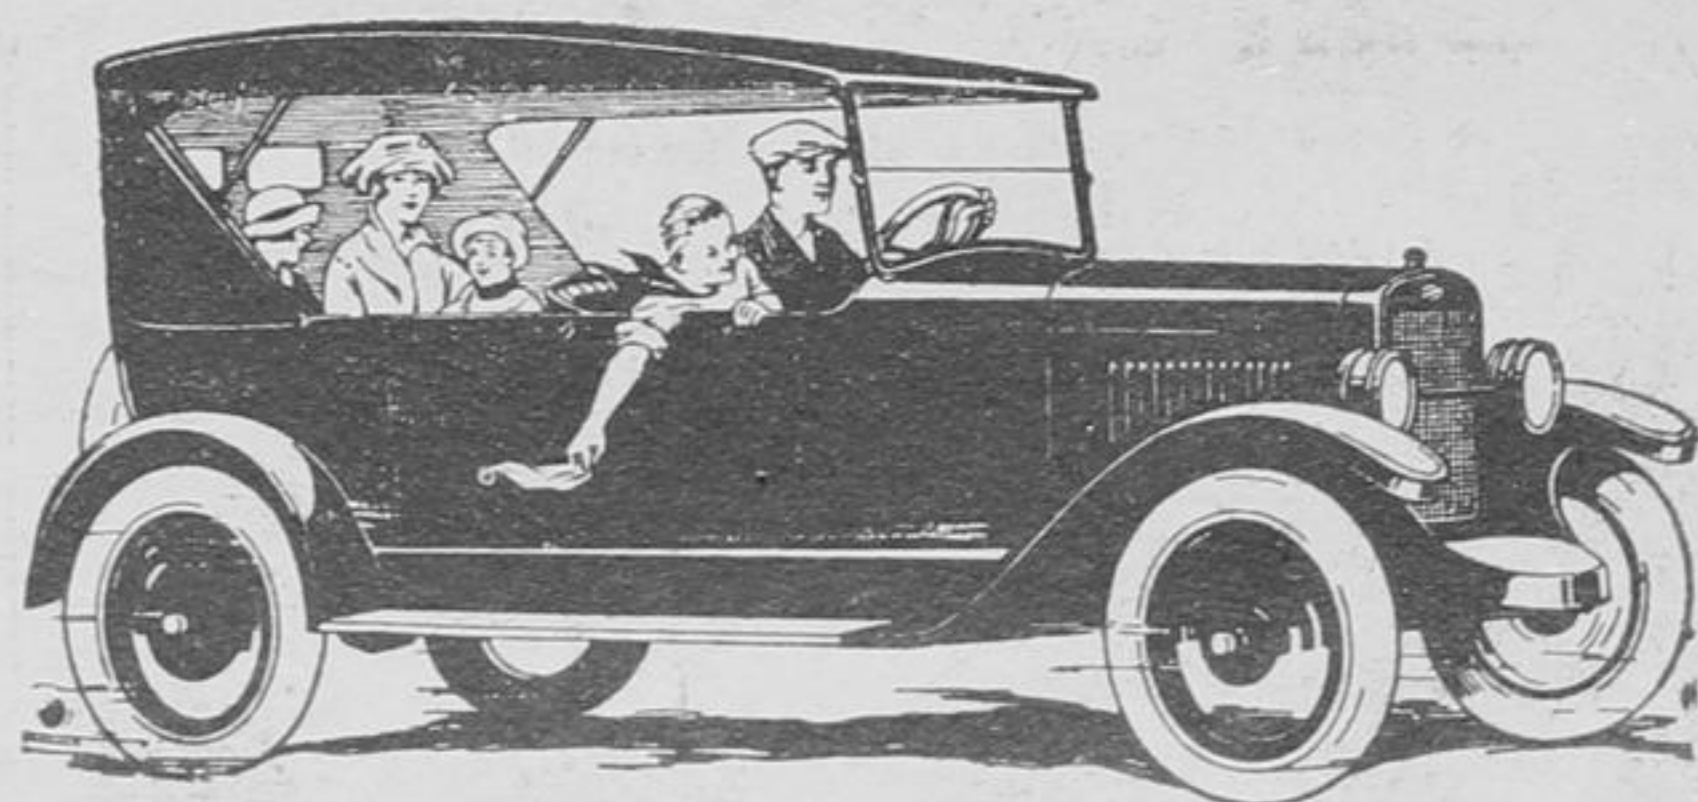

Touring  
**\$710**

You hear it everywhere that the big new Overland is the most automobile in the world for the money. A bigger engine!—bigger power—silky action—in a car you're proud to own.

In no other car near the price will you find such deep luxurious comfort as in the well upholstered seats of an Overland, nor will you find the big-car riding ease of Triplex Springs (patented), nor an all steel body with long lasting baked enamel finish.

When it comes to real pleasure, nobody gets more out of an automobile than Overland owners. Overland is at once a joy and a saving in gasoline, oil, tires and upkeep from the first day you own it, on and on through a long, long life of faithful service.

Other Overland models: Roadster \$710, Champion \$945. Sedan \$1,125. All prices f.o.b. Toronto. Taxes extra.

**C. M. PALMER & SON**

**Let This Engine Pump Your Water**

By simply attaching a Toronto Pumping Engine to your pump you can have running water for every purpose you desire. Think of the time and labor saved—the freedom from tiresome pumping.

Toronto Engines with direct connected jack are easily, but securely attached to the pump. Specially designed for pumping service. Smooth-running and almost noiseless. Easily adjusted to any height of pump. Operate economically on gasoline. An independent pulley on the crank-shaft makes power available for operating the churn, separator, washing machine, etc.

J. Lunau, Agent, Richmond Hill, PHONE 731

A Toronto Water System, with this direct connected Engine and Pump Jack will give you the advantages of city water service. See me about it or ask me for book-lets.
