

TORONTO STABLE EQUIPMENT

Rust-Defying—Because Hot Galvanized

There's one feature in particular you'll appreciate about Toronto Stable Equipment. This is the fact that the "hot" galvanizing method we use thoroughly covers and completely coats both the inside and outside of the steel tubing with pure zinc spelter. This method makes it absolutely rust-defying and proof against strong stable acids for the maximum period—while the method or-

dinarily used simply applies a surface coating and goes only a short distance inside tubing. Toronto Stable Equipment will make work easier—keep cattle healthier—bring more profits. Let me explain the many advantages of Toronto Stalls, Bull Pens, Water Bowls and Litter Carriers—or get some of the Toronto literature.
