

EUGENE LEPAGE GIVES TANLAC FULL CREDIT

Stomach Trouble Vanishes and Montreal Man Gains 14 Lbs. On Four Bottles.

"Since I began taking this wonderful Tanlac I seem to be getting younger every day. I have gained 14 pounds on four bottles, and everybody speaks about how well I look."

The above statement was made, recently, by Eugene Lepage, proprietor Prince of Wales Hotel barber shop, Montreal, Canada, one of the most exclusive tonsorial parlors in this city. Mr. Lepage further said:

"Stomach trouble had almost completely wrecked my health. I was a mere shadow of my former self and so run-down and nervous I thought I would have to give up my work."

"Tanlac soon had me eating everything, sleeping like a log at night and feeling as fine as one could ask to feel. My only regret is that I did not learn about Tanlac long before I did."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold.

EASY TRICKS A Card Mystery

Hand a pack of cards to a spectator and turn your back. Ask her to shuffle the cards and then to select one of the last ten cards in the pack, remembering its number from the bottom of the pack but not disturbing the order of the cards. Ask her to hand you the cards. Face her and put the cards behind your back. Ask the spectator to mention any number between ten and twenty. Whatever number he mentions, count one less than that number from the bottom of the pack and put them on the top without disturbing their order. Bring the cards into view again and call to the spectator's attention the fact that no one excepting herself knows just where his card was. Ask him to observe that you do not manipulate the cards in any way and then ask her to tell you the number from the bottom the selected card was.

Starting with the number following the number she gives you, count to the first number she gave you, dealing off a card for each count. The last card dealt will be the selected card. If you follow the instructions, the trick will work itself.

A REAL NERVE TONIC

Is a Bountiful Supply of Rich Health-Giving Blood.

Sufferers from what medical men speak of as nervous debility find themselves tired, morose, low-spirited and unable to keep their minds on anything. Any sudden noise hurts like a blow. They are full of groundless fears and cannot sleep at night. Their hands tremble, the legs feel as if they will give away following a walk or any exertion, and the mind is greatly disturbed by the most trivial incidents.

Doctoring the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich, red blood. To secure this new, rich blood use Dr. Williams' Pink Pills which have a direct action on the blood and through it stimulate every nerve and organ in the body. Mrs. Alpheus Merritt, Fenwick, Ont., gives her experience with this medicine as follows:—"I had a nervous breakdown and was in the Welland County Hospital for some time. As I was not improving my husband took me out and took me up to my mother's. I doctor-ed there but it did not help me. Then I returned home, and was again under a doctor's care, but with no better results. I would tremble and get numb all over, and the least noise would affect me. I was quite unable to do my housework, and was in a terrible condition. Finally I was advised to try Dr. Williams' Pink Pills, and am thankful that I did so, as after taking about a dozen boxes I was again a healthy woman. I have used the pills since while nursing my baby, with equally good results, and I strongly advise other ailing women to try them."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

He Forgot.

Mike and Pat were "gentlemen of the road." It was not often they were lucky enough to secure such satisfactory quarters as they had on this particular night, but a kind-hearted gentleman had given them a very cosy bedroom over the stables.

When the pair were comfortably lying in bed with the light out Pat suddenly got up and struck a match. He had a good look around, then blew out the match and lay down again.

"Why did you do that?" asked Mike. "Oh," replied Pat, "you see, I forgot whether I blew the candle out or not, so I just looked to see."

Hidden treasure has always acted as a lure to the adventurers of the world, but, though treasure hunts are many, treasure findings are few.

Trinidad is believed to be a "mine of treasures." Much of the wealth of the richest of the South American cities was conveyed to that island by the sea rovers who plundered the mainland.

In a great cavern in the cliffs on the Auckland Islands lies the General Grant, which was wrecked in 1866, with 50,000 ounces of gold on board. It is known that the hulk is still within the cave, but expeditions from Australia and New Zealand have been baffled by the undertow and the great combers.

Somewhere in the East River, U.S.A., is \$2,500,000 in gold. It has lain there since 1780, when the British frigate Huzzar, carrying money for the Royal forces engaged in the American War, struck a rock opposite the upper end of Randall Island and sank only a hundred yards from shore.

Lovers of romance, too, will find food for dreams in the thought that on the mainland of Panama is a great store of gold hidden by Sir Francis Drake after he had sacked the city of the same name. The treasure was never retrieved, and no one knows where to look for it.

About the Busy Bee.

The busy bee may not be so busy as she is supposed to be. Entomologists who have been checking the flights of a number of marked bees have found that each insect makes on an average only five or six trips a day for honey, and that each trip lasts only about fifteen minutes. Between trips a bee spends half an hour or more in the hive and gives at least half a day to uninterrupted rest. Moreover, it appears that the hardest workers live about three weeks, whereas some of the lazier ones survive for five months. The discovery will be a great comfort to members of the Sons of Rest everywhere.

The flamingo is the only member of the stork tribe that builds a nest of mud. These birds, which live in large flocks, sleep standing on one leg.

BEFORE MY BABY CAME

I Was Greatly Benefited by Taking Lydia E. Pinkham's Vegetable Compound

Sydenham, Ont.—"I took your medicine before my baby was born, and it was a great help to me as I was very poorly until I had started to take it. I just felt as though I was tired out all the time and would have weak, faint spells. My nerves would bother me until I could get little rest, night or day. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to recommend this good medicine. I will lend that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will help others take it."—Mrs. HARVEY MILLIGAN, Sydenham, Ont.

It is remarkable how many cases have been reported similar to this one. Many women are poorly at such times and get into a weakened, run-down condition, when it is essential to the mother, as well as the child, that her strength be kept up.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother at this time. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It may be taken in safety by the nursing mother.

GREEN TEA IMPORTS LARGER.

Statistics from Ottawa show that in 1923, 553,977 pounds more Green Tea were brought into Canada than in 1921, and 906,728 pounds more than in 1922. The reason given is that the fine quality Green Teas of India and Ceylon have displaced the inferior Japan and China Greens which, due to their low price, were imported heavily some years ago. Salada Tea Company is the largest importer of India and Ceylon Green Teas.

Courage.

The wise and active conquer difficulties by daring to attempt them; sloth and folly shiver and sink at sight of toil and hazard, and make the impossibility they fear.

—Herrick.

Pride.

Why do I rise at the dawn's early light, To clean the car after a rain? When I'm perfectly sure it will be, before night, Quite dirty and dusty again. Why do I hasten to give it a bath, To polish it after a ride? I'd much rather follow the easier path, But I can't—it's a matter of pride.

Why do I hunt for a rattle or squeak, In a most inaccessible spot? Why am I willing to work for a week, When the weather is terribly hot? It's not that I love all the grease and the grime; That's something I cannot abide; Moreover, the job takes a lot of my time. It's merely a matter of pride.

A man may be known by the car he will keep— The way that he keeps it, I mean; Perhaps it is one so remarkably cheap, Or else an expensive machine. It isn't the money expended that counts, It isn't the price that's the guide; It's really the care that he gives—that amounts To the strength of his personal pride.

—Harold S. Osborne.

High Living.

Early mountaineers, says the leader of the third attempt to climb Mount Everest, feared lest they should collapse at an altitude much less than that which warranted any such fear. He believes that almost anyone can remain for long periods at heights of twenty-one thousand feet or more if he is not afraid. When European men were supportable at the top of Mont of science were debating whether life Blanc—at an altitude of less than sixteen thousand feet—there was a road over a pass in India nineteen thousand feet high that had been in constant use for centuries.
