MORE SAFETY

More safety and fewer accidents is a great need of this country. There are too many preventable accidents on the streets, in the homes and in industry. In this Province alone industry pays, through the Compensation Board, an annual tax of about six million dollars for accidents and this is only part of the loss, for the employer and employee alike suffer every time there is an accident involving loss of time. Safety is largely a habit of mind and like other habits can be acquired. "Thinking safety" will, therefore, produce safety, so that both management and workers should give thought to accident prevention to the end, that the awful toll in human suffering and the very considerable sums of money lost may be reduced to a minimum.

More safety is a reasonable demand of industry in this country and is a demand which both workers and executives will support.

Invited for the  
week-end

—by Long Distance

It was Thursday afternoon in the country. Hospitable Mrs. Martin seemed disappointed. The week had slipped away before she knew it. No one had been invited up for the week-end and there wasn't time in which to write.

And then she thought of the telephone — Long Distance! What an inspiration! In twenty minutes she knew the Smarts would come — delighted to — and what train they would be on. Splendid! — and she had ordered some extra supplies from her grocer in town to be shipped by express that night!

What a pleasant week-end she will have — thanks to Long Distance!

Why Chevrolet Can Give You  
Such Extraordinary Value

Large scale production—tremendous sales volume! That's why Chevrolet can give you such extraordinary value—why you can buy a fully equipped automobile at such a surprisingly low price.

Chevrolet's wonderful growth in sales volume proves that Chevrolet cars make good in service and represent today's greatest motoring value per dollar of cost.

Lowest in purchase price, these Canadian built cars also cost less to operate than any other cars built.
