Sporting Notes

Richmond Hill Juniors won from Thornhill last night by a score of 11 to 8. Yours Truly has been too busy this week to look after this department in a right and proper manner. Sorry.

Richmond Hill Seniors played a splendid nine-innings game with Willowdale last Saturday afternoon. Willowdale won 7 to 6.

GET READY, GIRLS

Home-and-home games have been arranged with Maple girls for next week. The first game will be played at Maple on Tuesday evening, and the return game at Richmond Hill on Thursday evening.

Senior Baseball Schedule

SECOND ROUND

Richmond Hill at Willowdale, July 19.
Richmond Hill at Newmarket, July 26.
Richmond Hill at Stouffville, July 29.
Aurora at Richmond Hill, August 1.

Hill's-Square League Schedule

SECOND HALF

July 16—Thornhill at Victoria Square
July 23—Thornhill at Richmond Hill.
July 30—Victoria Square at Thornhill
Aug. 4—Richmond Hill at Victoria Square.
Games to start at 6 p. m. (Standard Time.) sharp.

Death of Rolph Brown

After a short illness, Rolph H. Brown passed away in Toronto on July 4th. He was the youngest son of Oscar J. Brown, formerly of Richmond Hill.

The late Mr. Brown was in the service of the Canadian Pacific Telegraph Company for several years before his death, and formerly he was with the Great Northwestern. For several years he had been a member of the C.P.R. staff of operators in the Globe Office.

He was known far and wide as a genius in the construction of electrical instruments. Devices from his workshop went to all parts of Canada.

Besides his widow he is survived by two young daughters, his father and two brothers, Charles and Frank.

The funeral service was conducted by Rev. Canon Skey, of St. Ann's Church, Toronto. The many floral tributes testified to the high esteem in which he was held.

QUICK ACTION BRAKES EXTRA LARGE AND EXTRA SAFE

In the construction of Dodge Brothers Motor Car, every consideration has been given to the owner's safety.

This is particularly evident in the brakes, which, with their 14-inch drums and 2 1/4 inch lining, are appreciably larger than the average. The extra surface thus provided develops greater friction when the brake bands contract over the drums—and it is this friction which stops the car.

Connecting levers are designed to transmit the maximum of power with the minimum of effort. The slightest pressure on the brake pedal has an immediate effect. This pressure is distributed evenly between the two rear wheels by a highly efficient equalizer, which prevents skidding because it retards both wheels simultaneously.

And the brake bands grip evenly all around the drums. This protects the lining against irregular wear and enables the driver to stop quickly, quietly and safely.
