

SELF-OILING — SELF-REGULATING
With the Strongest Tower Built
 It's the "Toronto" Self-Oiling Windmill—requiring "oil only once a year". All gears operate in a bath of special oil affected by neither heat nor cold—every bearing and working part thoroughly and automatically lubricated.
 If you have a "Toronto" Windmill now, you can obtain this self-oiling feature by interchanging the head and using your present wheel. Most Toronto Windmills, too, can be made absolutely self-regulating in operation. The "Toronto" Tower will stand for a lifetime because it is the heaviest, strongest and best-braced one built for any windmill. See this new Mill now—or get my booklet.

Sporting Notes

Richmond Hill's young ladies team of soft ball players had the best of it in the game with Maple girls at the town park on Thursday evening last, winning out by a score of 19 to 18 with an inning to spare. It is certainly a credit to any district team who can defeat that strong Maple team of soft ball players. They are exceptionally strong in different positions, but more especially at first base, the player at that position being exceptionally good. Now that the Richmond Hill girls have struck their stride some splendid games can be looked for. In future home games Yours Truly guarantees that every spectator will have a splendid view of the game and that visiting players and home girls will not be crowded or jostled along the base lines. And the guarantee stands.

Two games with Dublin girls next week (home and home). It is expected that the first game will be played at the town park next Monday night, early closing night, but watch the blackboard for announcement.

Local Juniors won their game in splendid fashion from Thornhill on Tuesday evening, the score being 12 to 4. The collection taken up (\$11.01) was a record for the league.

H. S. Entrance
