Milk is powerful—powerful as a food because it can generate energy, and the human system is an engine. Just what power a supply of milk has was strikingly demonstrated in Chicago recently, when a locomotive was run by milk. Not a human locomotive either, but an iron and steel engine, pulling a train of five cars for a dis-

MORE THAN 55,000 FARMERS

have bought their farms in Western Canada from the Canadian Pacific. A remarkable fact. Think! There is a reason. The large area of our holdings affording choice of location and of land to suit every farming need. Fair price, fair contract, and fair dealing combined with abundant fertility of soil, good climate and social conditions make farm life there desirable and attractive. Thousands more will select their farm from our virgin lands, from our improved farms, and with some capital and determination to work, can make a home and pay for it. PAINS IN LEFT SIDE AND BACK

Other Troubles Women Often Have Relieved by Lydia E. Pinkham's Vegetable Compound

Lachine, Quebec.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pains in my left side and back, and with weakness and other troubles women so often have. I was this way about six months. I saw the Vegetable Compound advertised in the 'Montreal Standard' and I have taken four bottles of it. I was a very sick woman and I feel so much better I would not be without it. I also use Lydia E. Pinkham's Sanative Wash. I recommend the medicines to my friends and I am willing for you to use my letter as a testimonial."—Mrs. M. W. ROSE, 530 Notre Dame Street, Lachine, Quebec.

Doctor Said an Operation

Provost, Alberta.—"Perhaps you will remember sending me one of your books a year ago. I was in a bad condition and would suffer awful pains at times and could not do anything. The doctor said I could not have children unless I went under an operation. I read testimonials of Lydia E. Pinkham's Vegetable Compound in the papers and a friend recommended me to take it. After taking three bottles I became much better and now have a bonny baby girl four months old. I do my housework and help a little with the chores. I recommend the Vegetable Compound to my friends and am willing for you to use this testimonial letter."—Mrs. A. A. ADAMS, Box 54, Provost, Alberta.

which requires the right kind of fuel as much, if not more than the iron and steel locomotive that pulls a train of cars on the tracks. If all these, young and old, who now use tea and coffee, would stop using these beverages and take pure milk instead, they would soon find an improvement in their general health and would not regret adding the right kind of fuel for the delicate engines of which our bodies are composed.

Did Solomon Have Airship Fleet?

There is some reason to believe that someone fabricated an airship which Solomon gave to the son of the Queen of Sheba. Of course there was no motor—possibly it was a glider.

The secretary of the Royal Aeronautical Society in the preface to "Bibliotheca Aeronautica," states that Solomon gave to the Queen of Sheba "a vessel wherein one could traverse the air for wind, which Solomon had made by the wisdom that God had given unto him." There are other references to flight in Abyssinian sacred writing, and there is a long description of the miraculous way in which the Queen of Sheba's son Menyelek left Solomon, journeying to his mother's country. "No man hauled his wagon, and whether it was men, or horses, or mules, or loaded camels, each was raised above the ground to the height of a cubit." A cubit, according to the ancient Egyptians, measured about 20 inches, but elsewhere it is recorded that over the Red Sea they were lifted up three cubits, "and every one traveled in the wagons like an eagle when his body glideth above the wind."

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the new-born babe with perfect safety. You can obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from The Dr. Williams' Medicine Co., Brockville, Ont.

Ocean Derelicts Last a Long Time.

Much interest has been aroused in the question of ocean derelicts by the adventures of the abandoned Nova Scotia schooner, Governor Parr.

This vessel left Ingramsport, Nova Scotia, on September 25th, 1823, with a cargo for Buenos Ayres, but was dismantled in a gale and abandoned on October 3rd. Later, the Elder Dempster liner, Zaria, encountered her in mid-Atlantic. A party was sent off to her, and she was set on fire.

The fire seems to have burned itself out, however, for on July 29th of this year she was seen, still afloat, between the Azores and Portugal, and she has been reported by other ships since that date.

Derelicts, like the Governor Parr, are a menace to shipping, as was shown when the Allan liner Ionian struck one in 1900. She came into port with a forty-foot gash in her side.

Sometimes a derelict will remain afloat for a very long period, the record being probably held by one which drifted about the North Atlantic for thirty-one months. The American schooner W. L. White affords another classic instance of the derelict's powers of endurance. It was abandoned in March, 1888, off the coast of the United States, and ran ashore on one of the Hebridean islands in January, 1889, having covered a distance of 6,000 miles.

Give and it Shall be Given You.

There is in Austria a monastery which, in former times, was very rich, and remained rich so long as it was charitable to the poor; but when it ceased to give, then it became indigent and is so to this day. Not long since a poor man went there and solicited alms, which was denied him. He demanded the reason why they refused to give for God's sake. The porter of the monastery answered: "We are become poor;" whereupon the mendicant said, "The cause of your poverty is this: Ye had formerly in the monastery two brothers, the one named Date (give) and the other Dabltur (it shall be given you). The former ye thrust out; the other went away of himself."
