NURSES

The Toronto Hospital for Incurables, in affiliation with Bellevue and Allisd Hospitals, New York City offers a three years' Course of Training to young women, having the required education, and desirous of becoming nurses. This Hospital has adopted the eighthour system. The pupils receive uniforms of the School, a monthly allowance and travelling expenses to and from New York. For further information apply to the Superintendent,

A Negligible Detail.

Good reporters, they say in newspaper offices, are born, not made. Certainly some men who can write cleverly never acquire the "nose for news" that a reporter needs if he is to be successful. Mr. Lincoln Springfield, on the staff of the Pall Mall Gazette and the London Opinion, tells in his book of reminiscences of one such man, whom he calls Jewell.

Down at Blackwall at the Thames Iron-works, he writes, H. M. S. Albion was to be launched one June afternoon by the Duchess of Cork (the present queen); and this occurred to me to be just the kind of story that Jewell would do prettily and gracefully.

Sure enough, Jewell wrote a brilliant description of the scene-the nearest thing to a Turner sunset that You could get in manuscript. I was on I the point of sending it up to the compositors and was glowing with pleasure over my judgment in having selected Jewell for the job when a messenger placed on my desk a report from the tape machine, announcing that thirty people had been drowned at the launching. As the ship took the water the displacement had submerged a staging where masses of spectators were assembled. Several hundred of them were thrown into the water, and more than thirty could not be rescued. the young miss to doff her heavy In Jewell's masterpiece of scenic effect there had not been a hint of any disaster, of anything at all untoward.

Jewell. Hadn't he seen anything of the cool days of summer. The dress, cine dealers or by mail at 25 cents a tue; "there's no reason why you should the catastrophe?

"I did see some people bobbing about flannel. The front is closed with a in the water as I came away, but I line of half-ball buttons. Either side didn't stay to see why they were of the vertical pocket-laps has one there."

Write your name and address plainly, giving number and size of such patterns as you want. Enclose 20c in stamps or coin (coin preferred; wrap it carefully) for each number, and address your order to Pattern Dept., Wilson Publishing Co., 73 West Adelaide St., Toronto. Patterns sent by return man.

Unforgot.

O, many years ago I thought This life was love of beauty. And that was many years ago, Before I met with duty.

And now, when work will let me turn A moment from my trying,

I take an old wish from my heart And smile at it through sighing. -Leigh Mitchell Hodges.

Stomach disturbances and constipation are responsible for much of the peevishness of babies and young children. When the baby is cross or irritable the mother should not resort to so-called soothing mixtures to correct the trouble for in the majority of cases these mixtures simply drug the child into an unnatural sleep. What is needed is a gentle laxative that will sweeten the stomach and regulate the bowels. Such a remedy is found in Baby's Own Tablets. They are easy to take and are guaranteed to be entirely free from opiates and narcotics. Concerning them, Mrs. Jos. Tousalgnant, Ste. Sophie, Que., writes:-"I The warm winds and sunshine call would like all mothers to know that I feel there is no other medicine to equal Baby's Own Tablets. I always keep a box in the house and their prompt use ensemble. It makes a charming out- never fails to restore my little ones to father, who had endured the children's I demanded an explanation from fit for wear during early spring and health." Size to place a large quantity of beef on 18 years requires 3% yards of 36- the English market at a very much lower price than Canadians. This product is very much superior in quality. Therefore, the question confronting us is, what can we do to beat this competition?

As we look over the reports of anction sales held in Great Britain during the last ten years, we find that the We supply cans and pay express big ranch owners of the Argentine have paid enormous prices for bulls to head their pure bred herds.

Men who know conditions in the Argentine say that these high priced To obtain the top price, Cream bulls are first used on the smaller herds and later turned in on the range of cattle. It is little wonder that the quality of beef animals in that country is exceptionally high. Thus, we can readily see that we must follow the example of our strongest competitors and use only high class pure bred bulls on all our grade herds.

Figures from our Canadian stock yards show that only about 2% of the stock marketed during 1919 was fit for export trade.

To those who sit down and figure out the loss sustained, the figures are startling.

The average farmer loses about \$30 to \$40 per head on steers bred from grade sires.

Facts prove that on every instance, the steers from pure bred sires, not only sell for higher prices, but make more rapid and more economical gains

than those sired by grade bulls. While we are well aware that high prices are obtainable for almost any kind of beef animal, yet it is very clear, to those who follow market reports closely, that the low grade stock are the first to suffer when the mar-

kets take a downward drop. It is, therefore, quite clear that the use of grade sires is a losing proposition viewed from any angle.

It is high time that we discard inferior bulls whether they be grade or scrub purebreds.

This is important because of the fact that the bull used on a herd influences all the years of calf crops. Discard the inferior type of bull and increase your year's income.

____ Couldn't Find Her.

"How came you to be lost?" asked a sympathetic gentleman of a little boy he found crying in the street for his mother.

"I'm not lost!" indignantly exclaimed the little three-year-old; "but m-mmy mother is, and I ca-ca-can't find

BETTER NOW

Received Much Benefit by Taking Lydia E. Pinkham's Vegetable Compound

Chatham, Ontario. - "I started to get weak after my second child was born, and kept on getting worse until I could not do my own house-

work and was so bad with my nerves that I was afraid to stay alone at any time. I had a girl working for me a whole year before I was able to domy washing again. Through a friend I learned of Lydia E. Pinkham's Vegeta-

ble Compound and took four bottles of it. I gave birth to a baby boy the 4th day of September, 1922. I am still doing my own work and washing. Of course, I don't feel well every day because I don't get my rest as the baby is so cross. But when I get my rest I feel fine. I am still taking the Vegetable Compound and am going to keep on with it until cured. My nerves are a lot better since taking it. I can stay alone day or night and not be the least frightened. You can use this letter as a testimonial and I will answer letters from women asking about the Vegetable Compound." -Mrs. Charles Carson, 27 Forsythe Street, Chatham, Ontario.

Mrs. Carson is willing to write to any girl or woman suffering from female troubles.

ISSUE No. 20-'25.
