Also it Means Bright Eyes, Red Lips and Rosy Cheeks.

The lack of sufficient red, healthgiving blood does not end merely in pale faces and lustreless eyes. It is much more serious. Bloodless people are the tired, languid, run-down folk who have no enjoyment in life. They have heart palpitation, headaches and backaches, no appetite, sometimes fainting spells, and always nervousness. Just a little more rich, red blood and these troubles vanish. To get this new, rich, red blood Dr. Williams' Pink Pills are just the thing you need. That is why these pills have a world-wide reputation as a blood and nerve tonic. Among those who have proved the truth of these statements is Miss Annie M. Blonski, Woodbridge, Man., who says:-"I became very weak and nervous, had pains in my side and back and suffered from frequent sick headaches. I was hardly able to do anything about the house and would awake with a start at night, with my heart pounding violently. If I walked upstairs I would be breathless and my heart would flutter rapidly. I used doctor's medicine but it did not do me any permanent good. Then I was advised to take Dr. Williams' Pink Pills and decided to try them, and I can only say that they did wonders for me, I am now well and strong again and able to do all my work, and this is all due to Dr. Williams' Pink Pills. I have recommended the pills to others who have taken them with equally good results."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
