"The Still Alarm"

Crop Prospects Are Encouraging

Will Probably Be Record Yield Throughout The Province

What of the crop situation throughout the province of Ontario, now that it is generally recognized that the harvest will be from three to four weeks behind any normal season? The Ontario Department of Agriculture, with its finger, so to speak, on the pulse of the country, from the farmer's standpoint, is optimistic in the extreme, and Assistant Superintendent O'Neil, of the Live Stock branch stated that judged by every reasonable sign, the outlook in this province had not in his opinion been surpassed in years.

"With Eastern Ontario I am not so closely in touch," said Mr. O'Neil, "though I have a pretty good grasp on the situation even there, and it looks splendid. They have had refreshing rains, the fall wheat has come through and ripened up well though unevenly, and is now well cut, and corn is growing like wildfire.

"Through Western Ontario I have made several trips, and here I can speak with knowledge, and the showing is splendid, and I doubt whether I have seen it much better. The late rains have proved a godsend, and whether there has been good cultivation and tillage there will be outstanding crops. Harvest will be late, but there is no reason why it should not be bounteous. In short, with the corn coming on like it is, there is nothing in the world for the farmers to worry about, and I don't believe they are," said Mr. O'Neil.

Heise Family Held Re-Union

A very pleasant afternoon was spent at the home of Orla L. Heise of Victoria Square on Sunday in the shade of a large apple tree when about seventy-five descendants of the late Christopher Heise gathered on the old homestead for a social time. Rev. Alvin Winger led in devotional exercises after which several speakers took part in the program.

L. B. Heise son of the late Christopher Heise gave a short history of the early Heises, he being a great grand son of one of the first Heises that came to this country from Pennsylvania in 1805 settling on Lot 26 in the 3rd Concession of the Township of Markham. The two hundred acres were bought for \$1000.00. The east half is still in the Heise name but the west half is now owned by Mr. Harry Bennet; who last year took down the old barn which stood there over one hundred years. Other speakers were Miss Anna Steckley returned missionary from India, Jesse O. Lehman of Carlisle, Pennsylvania, Alvin Winger, Gormley, Ontario Milton Byer of Hamilton Kansas and Asa Steckley of Saskatoon, Sask. Several beautiful and impressive selections were rendered by two quartettes consisting of grand-children of the late Christopher Heise. One outstanding feature that was brought out was the unity and love that prevails among the Heise descendants and also the fact that nearly all have kept the faith of their fathers and have embraced the religion of Jesus Christ.

The Heise family in Canada had a small beginning but now the descendants are scattered from coast to coast and several have gone across the deep to carry the gospel to heathen lands. Many tears were shed when memories of childhood days were recalled. After singing "Some Sweet Day" the gathering was dismissed all having enjoyed a pleasant afternoon.

The District Record

That this district can grow hollyhocks which for size and beauty will take second place to none others has been plainly demonstrated by the large number of letters received at this office during the week telling of the remarkable growth and beauty of this flower in various sections of the county. Last week we reported that the garden of Mrs. Campbell at Elgin Mills was adorned with a hollyhock 8 feet 3 inches high. Maple refused to take second place to Elgin Mills even in the matter of growing flowers and Dr. Routley has reported a single pink specimen in his garden which is 11 feet 6 inches high. To date this is the record and one which we think will stand for this season. If you can beat it let us know about it. S.B. Elson, Thornhill, reported one of the single pink variety measuring 11 feet and to date must be accorded second place. Others worthy of mention were:—Thos. Riley's garden in Richmond Hill contains four which measure 9 feet 6 inches, and one which measures exactly 10 feet; Mrs. Milton Savage reports many of the double variety which measure 8 feet 8 inches.

SCHOOL WILL OPEN TUESDAY, SEPT. 7th

The regular August meeting of the Board of Education was held on Monday night with Chairman Duncan presiding and the following members present:—Harry Edean, Geo. Gee, Frank Atkinson and Secretary Cooper. It was announced that word had been received from all the members of the High School staff advising that they are willing to accept the board's salary schedule which provided for an increase of \$50.00 per year although they were disappointed that the board could not see fit to grant the \$100.00 increase asked for. The members accepted with regret the resignation of Miss Martin, who for personal reasons could not see her way clear to continue on the staff although she appreciated the increase of \$50.00 a year offered her. Several applications had been received during the year and some of these will be communicated with before an advertisement is inserted.

Considerable discussion took place in regards to the condition of the various school grounds and the members were unanimous in paying tribute to Mr. Wade for the splendid condition of the grounds around the two public schools.

It was decided to have a cement walk constructed at the old High School and the work will be done by the town.

The public and High Schools will open on Tuesday, September 7, which it is understood is the date adopted generally throughout the province.

It was decided to call for tenders for supplying coal for the school buildings and it was felt that it could be bought now at a reasonable price and could be put in before school commenced and thus avoid any inconvenience during school hours.

Some discussion took place regarding the procedure required when members of the teaching staff were absent. The opinion was expressed by the members that the Chairman or Secretary of the board should immediately be notified of the absence of any teacher.

Several members voiced their satisfaction concerning the results obtained this year in the public school where a high percentage of passes was secured in every room.

Village Streets to be Repaired

Councillor Baldock Wants Less Leaning On The Wagon Wheels By Workmen This Year

The regular meeting of the village council was held in the clerk's office on Tuesday evening with Reeve Lunau in the chair and all the members present. The Clerk reported that the petition for a sidewalk on Church St. which was presented at the last meeting was not sufficiently signed and therefore no action could be taken. Councillor Baldock presented a petition for a sidewalk on the east side of Yonge Street from the Standard Bank southwards signed by T. H. Trench, Lou Stong, H. A. Nicholls, and W. G. Baldock. The council will consider the petition at a special meeting on Friday night and the general feeling of the members indicates that if sufficiently signed the petition would be granted. Some discussion took place relative to the complaints of some citizens concerning the step necessitated by the erection of the new sidewalk on the west side of Yonge in front of the Richmond Hill Motors. It was generally agreed that a step was more preferable and less dangerous than a slanting approach.

The condition of the road on Yonge Street as well as Centre, Richmond and Mill Streets was discussed at some length. The members were unanimous in deploring the present conditions but did not feel that any great expenditure should be made this year. It was agreed on motion of Councillors Sloan and Herrington that Yonge Street, Centre Street and Richmond Street should be patched and that at least a few loads of gravel should be put on Mill Street. Councillor Greene criticized the use of the small grader on streets at this time of year as he said it was without effect and a waste of money. Councillor Baldock suggested that in patching the roads the gravel be mixed with tar and pounded into the holes after they had been well dug out. He also intimated that possibly a few less men on the job who would do more work and less leaning against the wagon wheels than in former years would result in benefit to the public.

Councillor Greene wanted to know when the unsightly weeds around the town were going to be cut, and was told that the matter would be attended to about the end of the month. Councillor Greene also wanted the shrubs and bushes on the west side of Yonge Street near the southern limits cut down. The other members however, did not think the bushes were so unsightly and no action was taken. In support of his argument Councillor Greene quoted a commercial traveller as saying, that Richmond Hill was a village of ideal location and wonderful possibilities but having the dirtiest streets he ever saw anywhere. Councillor Sloan, however, depreciated the opinions of commercial travellers and the matter was again up for discussion and the Reeve felt that the new time should be called off on September the first as it was the date voted on by the electors. None of the members however, concurred and were of the opinion that the clock should not be moved back an hour until September 11, the date adopted by the City of Toronto.

Building permits to the amount of \$10,850.00 were reported since the first of the year.

Some discussion took place regarding the installation of the new sanitary system of the public school and Chairman G. H. Duncan of the Board of Education was present and explained the system but no action was taken as it was felt that it was a matter for the Board of Health. Councillor Herrington suggested that the grass on the Park be cut as the shrubs put out by the horticulturist.

Sad Fatality Near Maple

Son of Mr. and Mrs. W. H. Watson Smothered in Grain Chute

Falling into the chute of a grain bin on Wednesday, 2½-year-old son of Mr. and Mrs. W.H. Watson, whose farm is about seven miles from Maple was smothered to death. According to Mr. Watson, the boy had been playing in the full chop bin early in the afternoon, but had tired of it and gone away. After the father took a load from the bin, leaving the entrance to the chute uncovered. Apparently John, returning to play, had climbed over the edge and dropped into the chute, at the same time disturbing some of the chop, which poured in after him and smothered him.

His disappearance was not noticed by his family until about 6 o'clock, when the milking had been completed. A search was started immediately, and he was found shortly afterward in the grain. Mr. Watson estimated that the boy had been in the chute, which is about 15 inches square, for one hour and a half.

THE POLITICAL POT STARTING TO SIMMER

With election day only about a month away the local situation is comparatively quiet although it is beginning to show signs of warming up. Harry Sifton the Liberal candidate held an organization meeting in Lorne Hall on Wednesday night and was given an enthusiastic reception by local stalwarts. The candidate stated that he was well pleased with the reception he was receiving in all parts of the riding and was confident of the result.

Preparations are complete for the Conservative convention to be held in the town hall at Newmarket, Saturday, August 14. It will take the form of a mass meeting, with C. W. Bell, former M. P. of Hamilton, as the special speaker. It is probable that Col. T. H. Lennox will be nominated as standard bearer.

UNIONVILLE

The August meeting of the Unionville branch of the Women's Institute at the home of Col. F. H. and Mrs. Deacon Thursday last was marked by an exceptionally large attendance of the members. A feature of the afternoon was the address by Dr. Margaret Patterson, of Toronto, in which she outlined some of the work done in her department for the uplift of society. At the close of the lecture luncheon was served by Mrs. Deacon, and the thanks of the meeting tendered to the hostess for her unflinching courtesy and thoughtfulness in providing transportation to all desirous of attending.

Smart Chicken
Keen interest was shown in the wheat cutting and hollyhock competition engaged in by readers of this paper so next we would like to know who is the proud owner of the smartest spring chickens in the district. An Ancona Pullet owned by John Hickson, Richmond Hill, and hatched on April 19, laid her first egg on Monday August 9, at the age of three months and twenty-two days. If you have a smarter pullet than this we would be glad to hear of it.

The various accounts were ordered to be paid and the council adjourned to meet in special session on Friday evening.

Eloquent White Space

is the ADVERTISING space enterprising merchants use in The Liberal to tell the good folks of this district about their stores and their goods.
Good ADVERTISING is moving eloquence, too. It brings new customers to your store. It builds good will. It creates new business, moves goods and makes bigger profits possible.

ADVERTISING is a hardworking ally that should be co-operating with every merchant. Why not investigate its merits. Ask us about it.

AN ADVERTISEMENT IS AN INVITATION

FROM TORONTO

DON'T BUY until you see the
Greater Oakland Six
with 77 important refinements including THE RUBBER SILENCED CHASSIS

SO impressively long is the list of individual refinements that it is impossible for us to devote space to them here, but we hope to have one of the new models on show in the course of a week or so, when we shall be pleased to explain them to you, until then, we say Don't Buy, until you see the NEW OAKLAND.
