Advertising

It is a tremendous help to a firm if it can give the impression that it is pushing for business every day and every week in the year. The firm that advertises constantly gives that impression. It makes the public feel that it is alert all the time to pick up goods at a bargain and pass its good values on to the general public. Progressive and enterprising merchants of the district use the advertising columns of the Liberal the home paper of this district for nearly fifty years.

Keeping Track of the Farm Income.

In every other line business worthy of a fame, record is kept of the receipts and expenditures. A study is made of these business records. Knowledge is accumulated and improvement made. The farm business cannot make much progress toward providing an increased income until the farmer adopts a system of record keeping, and studies his balance sheet, every week, every month and every year. Such study reveals the reasons for profit and the cause or causes of loss on operations. It is only once in a great while that we meet a farmer making much progress without keeping records of his farm operations. The great majority need to do it for their own and the farm's sake.—L. Stevenson, O. A. College.

A Poultry Loss.

The egg-eating habit once acquired by members of the poultry flock is difficult to stop. Prevention is easier than breaking the birds of the habit. Birds that have an abundant supply of oyster shell or lime before them at all times and are fed a liberal balanced ration, with abundant green feed seldom develop the egg-eating habit. Arrange the nests at least eighteen inches above the floor and have plenty of them so that if a hen wants to lay there will be a nest for her. This prevents them crowding two or three into a nest box and there breaking the eggs. Keep the nests dark and well supplied with straw. Any birds caught in the act of breaking or eating eggs should be consigned to the feeding crates.

At The Theatre

A gap of eighteen years was bridged in a week at Universal City during the making of the "Still Alarm," the Universal-Jewel which comes to the Capitol Theatre this week.

Overnight, Edna Marian, the ingenue of the cast, changed from a child in arms to a winsome miss of eighteen. William Russell, the valiant fireman of the piece, became a whit-haired, middle-aged man instead of his youthful self, and Helene Chadwick shifted from a pretty young bride to a beautiful sophisticated woman of the world.

The necessity for these minor miracles was due to the sequence in which scenes for "The Still Alarm" were made. Edward Laemmle and the production manager decreed that a series of scenes in the opening of the picture should be filmed, and then decided to leap through a lapse of eighteen years.
