SIFTON WILL REDEEM THE HISTORIC RIDING OF NORTH YORK

Success Due to Splendid Record of Liberal Administration
and to Ability and Sincerity of Candidate.

Liberal Leader Paid Tribute to Ability of Harry Sifton

The candidates in the present Dominion Election campaign were officially nominated on Tuesday last. In the entire Dominion 528 candidates will seek election in 244 constituencies. No surprises were forthcoming on the official nomination day and most of the candidates had been in the field for some weeks.

In North York the day was featured by a monster Liberal Rally in the Arena at Newmarket at which Harry Sifton, the Liberal candidate, Rt. Hon. W. L. Mackenzie King and William Mulock, K. C. were the speakers. The candidate was accorded an enthusiastic reception and was loudly cheered as he made his appeal to the electors. The Liberal leader in the opinion of many present delivered one of the most masterly addresses of his career. In a clear and concise manner he placed before the vast audience the issue of the present campaign. He dealt at considerable length with the administration of the customs department, the constitutional issue, the Robb budget, and the splendid record of the Liberal administration which had succeeded in reducing the expenditure, in reducing the public debt, and in reducing taxation. He paid glowing tribute to Harry Sifton the Liberal Candidate for North York and declared that it would not be long before he would be called to enter the Dominion Cabinet.

It is difficult to prophesy the result of an election but reports from all parts of the riding of North York indicate that there is a decided trend of public opinion in favor of Harry Sifton and the Liberal Party. Several electors interviewed feel that Canada has gone forward under Liberal rule and that it would be a mistake to place the reins of the government in the hands of the Conser-

vative party at this time. The Robb budget has made an effective appeal to every elector and the reductions in taxation accomplished along with a reduction in the public debt are to the credit of the Liberal administration. A good many people feel that the Canadian National Railways are safe only in the hands of a Liberal government and look with suspicion upon the entry into Mr. Meighens cabinet of Mr. Patenaude and Mr. Black who are regarded as enemies of the national road. To the independent elector who is inclined to vote "man" rather than "party" Mr. Sifton has made a favorable impression. He is a young man of many admirable qualities and promises to go far, and to play an important part in the public life of this country. It is felt that this is the only type of representative worthy of the great riding of North York. The Liberal candidate has made no rash promises, he has indulged in no unfair tactics and although he has been subject to bitter opposition even his opponents admit he is a young man of sterling character with a record which is above reproach. Mr. Sifton appeals to every elector in North York for their vote and influence and promises in return that he will give the very best of his ability to the task of representing North York in the House of Commons.

Meetings have been held in all parts of the riding and everywhere he has spoken he has won not only the affection and admiration but the support of many electors who formerly voted Conservative. "The time has come," said a prominent resident of the county, "when we must pay less attention to the old style campaigner with the glad hand at election time and place a premium on ability sincerity and character in choosing our members of parliament
