Women's Institute Will Hold Tag Day

At a special session of the village council held on Monday night the Women's Institute was granted permission to hold a tag day on Tuesday, May 24 in aid of the Public Library funds. An application was also received from the Salvation Army for the same privilege but as they had the concession last year it was given to the Women's Institute.

The reeve was authorized to call a public meeting of citizens on Wednesday evening next, May 11 at 8 o'clock for the purpose of making arrangements for a fitting celebration to mark Canada's Diamond Jubilee.

On motion of Councillors Herrington and Sloan it was decided that the town will remove ashes from any premises in the municipality if requested to do so.

Wes Middleton appeared on behalf of the baseball club and asked if the ball diamond could not be put in better shape. On motion of Councillors Herrington and Sloan, Councillor McLean was appointed a committee of one to have the necessary work done. It is understood that the diamond will be plowed up, disced and leveled and should be in first class shape for the season.

There was considerable discussion regarding the proposed fixing of Centre and Mill streets. The reeve favored putting on gravel as he was of the opinion that it would be a good serviceable road and would be the most economical. The members of the council were of the opinion that there was a danger of the gravel not staying on the road as it would be on a practically paved surface. No action was taken and the council will inspect the streets during the week and come to a decision at the regular meeting next Monday night.

It was decided to have men put to work on the bad stretch of road at the south end of the village in order to make it more passable. As the council are contemplating paving it was not thought advisable to spend any appreciable amount on it but merely make it more passable for the travelling public.

The council have been considering the paving of Yonge Street but no action has been taken pending negotiations with the T. T. C. regarding the placing of the tracks in the centre of the road.

Daylight Saving

Daylight saving came into force in Richmond Hill on Sunday night with more or less confusion on account of the fact that Torontonians had the fast time on Sunday morning. The village grouch says that from now on we will get up an hour earlier and most of us will go to bed on the same old time. We'll really be saving on sleep not on daylight. There'll be as much daylight as ever but less sleep. However, he says it's like hanging; all right if you could just get "used to it."

Will Speak on "Benefits" of a Public Library

Public Meeting Arranged By Home And School Club and Women's Institute.

A joint meeting of the Home and School Club and the Women's Institute will be held in the gymnasium of the High School, Thursday evening, May 12 at 8 o'clock. An address—"The Benefit of a Public Library to a Community," will be given by Miss Lillian Smith, Toronto.

Miss Smith is the chief librarian of the Children's department and assistant to Dr. Locke. This is a subject in which all should be interested, since it deals with the benefits which our children derive from having a good public library. The opportunities are few to hear a speaker of such note, and it is very much desired by the organization arranging the meeting that the public avail themselves of the opportunity of hearing her. Show your interest in the Public Library by attending this lecture.
