Prepare For Celebration.

A largely attended meeting of the Lake Marie and King Athletic Association was held in the Log Cabin on Monday evening May 2nd the topic under discussion being the Dominion Day celebration to be held at Lake Marie. It was unanimously decided to make the celebration measure up to the occasion. This being Diamond Jubilee year it will be largely of a patriotic nature and so that all may have an opportunity to enjoy the event it was decided that no charge whatever would be made by the association. Admission to the grounds, Dance, entries to events and all other amusements will be absolutely free.

Mr. Mervin Wilson and family moved this week to Lindsay where Mr. Wilson will make his headquarters as district agent for the International Harvester Machinery Co.

Mr. D. R. Piette and pupils gave a very successful recital in the Masonic Hall Friday evening, April 29th. The hall was crowded to the doors by a very appreciative audience who to judge by the applause thoroughly enjoyed each number. It was a revelation to many of us to know that so much talent had been lying dormant in our community. One hardly knew which to appreciate the most, the skill of the performers or the costumes worn for the occasion.

Mrs. (Rev.) D. R. Gray of Stayner spent the week-end in King renewing old friendships.

Markham Twp. Council

The regular May meeting of the Markham township Council was held in the township hall Unionville on Monday with all the members present. There was considerable discussion re the appointment of a constable and an apparent difference of opinion in regards to the question. Reeve Gohn said that he had not definitely made up his mind that the township needed a constable the year round when there were County Constables always available. Deputy-reeve Campbell felt that in the interests of law and order a constable should be appointed and he was inclined to think it should be a full-time job for a man.

Councillor Honey stated that the township had a constable last year and he took it for granted that the appointment would be made again as county constables were not always available when wanted. He moved, seconded by Councillor Coakwell that Jas. Clayton and Percival Patch of Milliken be appointed at a salary of \$250 each and 10 cents per mile mileage. Councillor Stiver thought a part time man would meet the needs of the township at the present time. The question was laid over until the meeting next Monday when it will be definitely decided.

It was pointed out that in past years that there had been considerable waste time in stone crushing operations and the road superintendent was instructed to supervise crushing work and see that the township gets value for money expended.

The purchase of a Ford truck for township work was considered but was laid over until after an estimate of the work to be done this year is made. It was pointed out that the township spends large sums annually for truck hire and that the purchase of a truck would be an economical step for the municipality. Councillor Honey thought that possibly they could do without the truck this year as so much of the work would probably be on the ditches.

The clerk was instructed to purchase the necessary supplies for the fire engine. Boys who do not belong to the brigade will also be warned against riding on the truck to fires.

The following accounts were paid: L. Middleton, salary and mileage, 181.80; J. L. McDonald and Son, Thornhill supplies to charity, 2.46; C. N. R. Freight on stone \$128.30; J. E. Francis, Thornhill, rent of hall \$5.00; F. H. Echlin, Thornhill, 27.40; Hospital Relief account 149.50; as well as various accounts for road work throughout the township.

Council adjourned to meet in the township hall on Monday, May 9.

Headquarters for House Cleaning Supplies

To Owners of Automobiles and Trucks

Lights, brakes and steering gear must be kept in good condition for the safety of drivers and others on the road.

REGARDING the physical condition of automobiles and trucks, The Highways Traffic Act makes certain provisions which motorists would do well to understand and observe.

It is increasingly necessary that these provisions should be stringently maintained in view of the great increase in tourist traffic on our highways, the increase last year of 40,000 cars in Ontario and the more extended use of country roads by our own people. The new speed limit recently authorized by the Legislature adds to this necessity.

Car and truck owners are urged to check their machines frequently and to renew parts which are worn or broken.

Headlights should be adjusted regularly. Glaring lights are against the law and a menace to traffic. Simple instructions for the adjustment of headlights and a list of lenses approved by the department, may be obtained free by writing the Motor Vehicles Branch, Department of Highways, Toronto.

If your lenses are not among those mentioned on the list, it would be well to have them changed at once if you wish to avoid accident on the road and penalty in court.

Brakes and steering gear should be in perfect condition so that when called upon each part will respond to the will of the driver.

The law provides that license numbers must be clean and so placed as to be easily read. A fundamental in the control of motor traffic is that each machine shall be quickly identified.

It is the intention of the Department of Highways to take note of the condition of automobiles using the roads. To avoid inconvenience to motorists, attention is drawn to the necessity for rigid obedience of the law, and the penalties for neglect.
