

Unique Celebration Planned At Lake Marie, King City

Free Admission to Annual Event this year—Monster Celebration made possible by generosity of Sir Henry Pellatt.

Huge Bonfire on Height of Land 1000 Feet Above Sea Level Will Be Lit.

The annual field day to be held at Lake Marie is this year somewhat unique in so far that all admissions are absolutely free of charge. Owing to it being Canada's Diamond Jubilee the Lake Marie and King Athletic Association under whose auspices these field days are held, decided to show their appreciation for the patronage they have in other years enjoyed, and to make it possible for everyone to enjoy the Jubilee celebration, to make all admissions to grounds, entertainment, dance and entries to all sports free of any charge.

This was made possible through the generosity of the Honorary President, Sir Henry M. Pellatt on whose beautiful grounds the celebration will be held. Sir Henry offered to put up dollar for dollar with the Association toward the expenses of the day. The citizens of the community have most generously contributed and ample funds are assured to make the celebration one of the best ever held at Lake Marie. Commencing at 1 o'clock standard time a full program of sports including men's and girl's soft ball tournaments, football, foot races pony races, etc., will be run off. Starting at 7 o'clock there will be 1 hour of community singing led by a massed choir, music for which will be furnished by the Thornton band who will also play during the afternoon; special song sheets are being prepared by the association and will be distributed for use.

Following the sing song an open air dance will be held. Music for the dance will be furnished by a first class orchestra. Should the night be unfavorable for open air dancing a barn

dance will be held in the large brick barn. For those who do not care to dance there will be two hours of beautiful moving pictures showing scenes through Canada and etc.

The National Committee in charge of the Celebration at Ottawa has asked for 10,000 bonfires to be lit from coast to coast. Following that suggestion a huge Bonfire is being prepared and will be lit at dark. As Lake Marie is situated on the height of land between Lake Ontario and the Georgian Bay and has an elevation of over 1000 feet above sea level the bonfire will be visible for miles around. Ample provision is being made for a first class up-to-date booth where all manner of refreshments may be purchased. Free parking space will be provided for all autos and everyone will be made most heartily welcome.

Mrs. Knowles and daughter, Barbara Jane, of Providence, R. I. are spending the summer with her mother Mrs. McDonald. Mrs. Knowles admits she brought an American product into Canada without paying duty and didn't smuggle it in either.

Mr. Edgar Wall of Richmond Hill conducted the services very acceptably in the United Church last Sunday. From authoritative sources it is reported that the deer which King George and Queen Mary presented to Sir Henry and Lady Pellatt will not arrive until the early fall at Lake Marie, their summer residence at King.

It was stated at the office of Sir Henry that no word had been received of the shipping of the deer, as it was explained that the deer are probably running wild and will have to be netted and shipped at a certain time of the year. At the present time there is quite a large herd of deer at Sir Henry's estate but none from the grounds of a king.

Making GOODYEAR Tubes Leak-Proof

EVERY Goodyear Tube gets an under water stretch before it leaves the factory.

The Tube is inflated, placed in a tank of water, then stretched mechanically to a point far in excess of what it will get in the severest of wear.

This test exaggerates and reveals any possible pores. The slightest leakage means rejection. That's why Goodyear Tubes deliver such universal satisfaction.

Goodyears don't cost any more than ordinary Tubes. We've got your size. Get our prices.
