## Canadian Fruit Crop Making Favorable Progress

Cherry and Plum Crop will be light—Strawberries were disappointing but Raspberries give promise to good yield.

Weather conditions throughout the fruit growing provinces during the first half of June were generally cool with abundant and in some instances excessive moisture, resulting in a general backward season. During the latter part of the month, however, conditions for the most part improved and all crops are making good growth.

There have been some changes in the apple situation since last month, and at this date it is difficult to arrive at a reasonably fair estimate of the total commercial crop, owing to the late set throughout the Dominion, and particularly in Nova Scotia. Indications, however, point to some increase over the five year average. Other fruits remain fair to good.

**CHERRIES:**—The situation has not materially changed since the last report. Sour cherries are estimated at about 60% of last year with early Richmonds showing superior promise to Montmorency's. Sweet Cherries are generally a light crop estimated at 50% of 1926. The total crop is estimated at 60,500 bushels.

**PLUMS:**—While, practically all trees carried a heavy bloom the results are very disappointing. The set was poor and a heavy drop has occurred resulting in a greatly lowered estimate which is now considered to be approximately 50% of last season or about 86,000 bushels.

**GRAPES:**—Vines now in flower stage with a general indication of about 80% of crop of 1926 or approximately 14,000 tons. Hamilton to Jordan the crop is estimated at 80% and from Jordan to Niagara at 70%. East of Hamilton the fruit buds were injured and a crop of only 25% is expected. Vineyards generally in good state of cultivation with vines making excellent growth.

**STRAWBERRIES:**—Due to wet and cool weather at blossom time followed by a very hot dry spell the crop

is not realizing the first expectations and it is now estimated at 90% of last year. The 1926 acreage was estimated at 1590 acres yielding approximately 3,992,000 quarts. Early varieties in the Burlington Aldershot district have been harvested and show a total yield about 75% of the 1926 crop.

**RASPBERRIES:**—The canes are mostly in excellent condition and maintain the June estimate of a crop equal to if not slightly better than last year.

**TOMATOES:**—For some time after the crop was planted conditions were not conducive to good growth and the plants remained practically stationary. They have since recovered and good growth is reported with the expectation of a crop equal to that of last year.

**Potatoes**  
Reports show an increased acreage particularly in Eastern Canada. The season has been generally backward but growing conditions are now favourable in practically all the commercial districts and with continued good weather an increased total tonnage is to be expected over that of 1926 which amounted to 48,682,000 cwt. of which it is estimated that 39,646,000 cwt. was merchantable.

Early potatoes are doing well in most parts of the province. Cold wet weather at the beginning of the month retarded the crop somewhat but the crops responded to later warmer weather. Harvesting of the crop in the Niagara district became general about July 12th. The acreage of early potatoes is estimated to be 5,000 acres. The acreage of later potatoes is expected to be about the same as last year which is estimated at 153,468 acres, but in some districts the planting has been much delayed and the crop on the whole is somewhat backward. The total yield for the province in 1926 was 9,898,000 cwt., or an average of 64.5 cwt. per acre.

## Richmond Hill Fair Board Held Meeting

Financially the 1927 Fair Broke About Even—Directors Well Satisfied—Recommend that Fancy Work and Poultry Be Omitted Next Year—No Crop Competition This Year

A meeting of the officers and directors of the Richmond Hill Agricultural Society was held at the office of the president W. H. Legge on Friday evening when the business of the year was cleared up. The financial statement presented by Secretary R. S. Cooper showed the 1927 exhibition to have been a fair success financially with the receipts showing a balance over the expenditure for this year. In view of the fact that the fair had to be postponed from May 24 on account of the rain this was the source of much satisfaction to the officers and directors who expressed themselves as well pleased with the 1927 fair and the standing of the finances of the Society.

There was considerable discussion regarding ways and means of bettering the fair in the years to come. It is a safe wager that sports will continue to be a major attraction as the directors were highly pleased with the success of the softball tournament this year. The live stock however will not be neglected and an effort will be made to make the showing more attractive and the judging especially of the cattle more easy of access to the public. A recommendation was passed on to the 1928 board of directors that the women's fancy work and poultry be omitted from the 1928 prize list. It was felt that the women's work display did not bring out any appreciable amount of local competition and that the society was merely paying out good money in prizes to "professional exhibitors" who came year after year with the same work. As there was very little competition in the poultry class and in view of the fact that the so-

ciety has no proper building to house the exhibits it was thought wise to discontinue the poultry show. There was some discussion as to the advisability of changing the day of the fair on account of the many attractions on that day but the board was too evenly divided to make any recommendation.

The field crop competition of which has been a feature of the societies program for a number of years is dropped for this year as there were not sufficient entries to carry it on.

Those present at the meeting were: President W. H. Legge, H. A. Nichols, J. Lunau, F. Graham, G. H. Duncan, R. Agar, W. H. Pugsley, James McLean, F. A. Clark, Robt Thompson and Secretary R. S. Cooper.

PROF. F. E. BUCK  
Of the University of British Columbia, who was elected president of the Town Planning Institute of Canada at the annual convention held at Vancouver. Professor Buck is the town planning adviser to the municipality of Point Grey, Vancouver, and is a keen student of modern movements.

## Will Your Brakes Pass Police Inspection?

Bad brakes are dangerous.  
Drive in and have them inspected and adjusted. FREE SERVICE.

## RICHMOND HILL MOTORS

J. E. WIGMORE, Prop.  
Chrysler Dealers. Tires, Accessories, Marconi and U.S.L. Radio, Livery, Battery Charging, General repairs on all makes of cars.
