

Ratepayers Will Meet Friday To Discuss Curbs and Gutters

A meeting of the Ratepayers of Richmond Hill will be held in the council chamber on Friday evening at 8 p.m. for the purpose of discussing the proposed petitions for curbs and gutters and any other subjects of interest at the present time. The petitions which have been circulated have met so far with only partial success due largely to a difference of opinion as to what is the best width to construct the pavement and to a misunderstanding concerning certain points of the project. It is understood that the petition for an additional five feet of pavement with curbs and gutters has been sufficiently signed in that section of Yonge Street from Eden's store northwards to the village limits. The thirty four foot pavement has apparently been quite satisfactory to residents in that section the majority of whom strongly favor the construction of the curbs. In the business section many of the property owners have signed the petition but there is a feeling prevalent that the street should be made thirty nine or forty feet wide. It is argued that the additional cost would not be serious and that it would be in every sense of the word a complete job whereas a thirty-four foot road with a curb would make the road so narrow as to be out of the question altogether. At present it appears that a thirty-four foot road with curbs is not acceptable to the business section. Warren Paving Co.

representatives will be present at the meeting on Friday night and will give figures and all details in regards the construction of a forty foot roadway through the business section and the ratepayers will have the opportunity of gaining full information on the entire project. As this is a matter of vital interest to the town and a matter in which immediate action is necessary it is hoped that there will be a large attendance. Everyone is welcome at the meeting and it is expected that the hall will be filled. Councillors Baldock, Herrington and Sloan have declared themselves as favorable to the construction of curbs and gutters and it is understood that they are still of the same opinion provided that the pavement is of sufficient width in the business section. Councillor McLean was not present at the council meeting when the matter was discussed and it cannot be stated where he stands on the subject. Reeve Lunau stated to the Liberal that he would never sanction a thirty four foot pavement with a curb because it was too narrow but he was not opposed to curbs on a forty foot road if the people wanted it. If curbs are not built he stated that the sides could be built with cinders and tar and that when well rolled would make a very satisfactory job. The Reeve and councillors will be invited to be in attendance at the ratepayers meeting on Friday night.

Construction Work Progressing Favorably

The Warren Paving Company are progressing very favorably with the construction of the T.T.C. tracks through the town. Work commenced on Monday of laying the concrete slab which will be the foundation of the tracks and it is expected that this work will be completed this week. Workmen commenced laying the ties this morning and when this is completed and the steel laid the top coat of cement will be poured. It is not expected that this will be completed before the twelfth of the month. As soon as this is finished work will start at once on the construction of the roadway on either side of the tracks. A large gang of men are at work and the very latest in construction machinery is being used. Everything possible will be done to speed up the work but at the best the road cannot be used for at least another month.

Newtonbrook

The Harvest Home services of the Newtonbrook United church this year were a great success. Two large audiences filled the church morning and evening on Sunday. In the morning Rev. A. E. Black, of the Metropolitan church Toronto, gave a fine practical sermon on Stewardship and in the evening Rev. Dr. Gunn told of the great work that is being done by the United Church in many lands, especially in India, which he had recently visited. Splendid music was rendered by the choir under the leadership of Miss Bertha Smith. In the evening a delightful quartette was rendered by Mesdames Hicks and Shaw, Messrs J. and V. Pike. The thank-offering amounted to \$509.

On Monday another large audience attended the Harvest Home Supper and entertainment of the Ladies Aid. After a sumptuous supper, a most delightful entertainment was given by Miss Laura Thompson, Miss Slaght and Mr. Alex. Park, the Ladies Aid contributing a special an much appreciated chorus.

Next Sunday, October 2nd, there will be a Sunday School Rally Service, followed by the administration of the Sacrament. In the evening the Pastor, Rev. E. R. Young will speak on "Casual Virtue, No. 3: Self Mastery."

WHAT THE CURBS WILL COST

Interviewed by the Liberal this morning officials of the Warren Paving Company stated that they have figured out the cost of paving the extra width of pavement and the construction of curbs and gutters for both a thirty-four foot and a forty foot roadway. The cost of a thirty-four foot road with curbs and gutters would be \$3 per lineal foot which figures out to be 9 cents per foot frontage per year, for a period of fifteen years; the cost of a forty foot road with curbs would be \$5 per lineal foot or 15 cents per foot frontage over a period of fifteen years.

Weather too Dry For Fall Wheat

Corn cutting is the order of business on the farm this week. The crop stands up well, is not very heavy and is not matured enough to make the best ensilage. The fact that the ground is so hard and dry should make it the task of cutting it an easy one for the binder.

Mr. K. Prentice of Milliken informs us that many of the corn binders in the township have needed repairs after handling last seasons heavy crop under very adverse conditions.

A large acreage of fall wheat was seeded but owing to the extremely dry weather conditions much of the seed has not germinated.

Many from here attended the funeral of the late Thos. Klinck at Stouffville on Sunday afternoon.

In the near future Mr. Walter Scott intends selling his stock and implements by public auction. We regret very much to have Mr. Scott and family leave our community.

Rally Services

Rally services were held in our church on Sunday afternoon. The attendance was unusually small owing to the older part of the usual attendants paying their last respects to a highly respected citizen of our township.

The young men of the school, twenty-two in number occupied the choir and performed their services very acceptably.

On Sunday evening at the Young People's Society a contest on Bible Characters and their service to mankind was won by the Young men. They scored thirty eight points, the ladies thirteen.

Miss Ella Dennie and Miss Vera Nichols are attending Toronto Normal School. Miss Viola Avison and Miss M. Dennie are taking a course at Business College in Toronto.

Mr. Walter Smith is now sporting a new sedan car.

Mr. Richard Cropper, of Bolton paid his friends a visit on Saturday night.

Late Mrs. Harry Klinck

The whole community extend their deepest sympathy to Mr. Harry Klinck who lost his wife on Monday morning. The late Mrs. Klinck was up and taking an active part in life during the early days of last week. She took ill on Thursday morning and despite the united efforts of doctors, nurses and friends she never rallied. She leaves one daughter, Phyllis five years old, one son, Kenneth three years old, and a step daughter Agnes ten years of age. The funeral was held at Stouffville cemetery. The many floral tributes bore testimony of the high esteem she held among her friends.

Miss B. Moynihan is spending the week with friends and parents here.

Mrs. Inez and Muriel Freeland spent the week-end in Orangeville.

Ratepayers Favor Active Effort To Induce Industries to Locate in The Township

That every possible effort should be made to interest industries in locating in North York Township was the decision of the centre North York Ratepayers Association which met on Monday evening at the home of A. H. Scotts Yonge Street. President H. A. Bywater occupied the chair and there was a very interesting discussion on this timely subject.

It was decided to appoint a committee which will investigate the advisability of encouraging industries in the township. This committee will report and its findings are to be taken before the council.

The matter of providing a constable to escort the children across Yonge street at school hours in Lansing, also that of providing "drive slow" signs at the Willowdale and Lansing schools has been placed before the council. The next meeting will be held with Finch's Corners Ratepayers Association.
