Hawkes, Donald McKenzie, Murray Blanchard, Mildred Heworth, Herbert Elliott, Dick Patrick, May Ross, Marjorie Brillinger, Hilda Stephenson.

October 9th to October 15th Is Fire Prevention Week

SAFETY RULES FOR MATCHES

1. Use "Safety" matches which strike only on the box.
2. Do not buy matches which break, lose their heads or glow after being put out.
3. Never throw away a match until every spark is out.
4. If matches are spilled, pick up every one.
5. Do not carry matches loose; children do not need to carry them at all.
6. Matches should be kept out of the reach of little children.
7. Keep them in covered boxes away from the heat of stoves or stove-pipes.
8. Strike matches away from you. If striking on a box, first close the box. Strike downward on the box.

SAFETY RULES FOR LIGHTS

1. Candles should never be taken into closets where they may ignite inflammable materials.
2. Use metal oil lamps, not glass ones.
3. Use only the best quality of oil.
4. Have lamps with solid, heavy bases.
5. Be sure that the wick fits snugly.
6. Keep the burner clean; boil it occasionally with soda, lye, or a strong soap solution.
7. Keep the wick trimmed evenly.
8. Fill the lamp by daylight only.
9. Be sure that the burner is tightly screwed into place.
10. Wipe the reservoir clean.
11. Do not set the lamp near the edge of a table or in any place where it may overturn.
12. Do not set it too close to curtains or anything that will take fire easily.
13. Do not leave a burning lamp too long unwatched.
14. Do not leave the house without extinguishing it.
15. Have no gas flames without globes.
16. If you have a gas mantle burner, be sure that pieces of the mantle cannot fall out.
17. Never use paper lighters.

Safety Rules for Stoves and Furnaces

1. Place stoves, furnaces and pipes far enough from walls and woodwork to avoid overheating.

2. Cover the nearest wooden surfaces with sheet asbestos, sheet iron or tin; if iron or tin is used, leave an air space behind it.

3. Where stovepipes or heating pipes pass through walls, enclose the pipes in galvanized iron, doublewalled ventilated thimbles at least twelve inches wider than the diameter of the pipes.

4. Protect the floor beneath the stove with sheet metal, and have it extend forward at least twelve inches directly beneath the door of ashpit.

5. Surround the base of the furnace with brick, stone or concrete.

6. Make sure that all pipes are free from rust, and that all joints and connections are sound and tight.

7. Fix a guard about the pipe in the attic so that nothing may be stored against it.

8. Never pour coal oil into a coal or wood stove, even when the fire is out.

9. Never put ashes into wooden boxes or barrels, have a strong metal can.

10. Study the drafts and dampers.

11. Do not let the stove or pipes become red hot.

12. Keep stoves, furnaces flues and chimneys clean.

13. Inspect the chimneys and flues to be sure that they are sound.

14. Do not dry wood in an oven.

15. Do not hang wet clothing too near to a stove.

16. Keep curtains away from stoves and pipes.

Safety Rules for Open Fires

1. Don't build bonfires for fun.

2. If you must build outdoor fires, be sure that they are cold before you leave them.

3. Don't set dead trees afire. Sometimes they will burn for days.

4. Before lighting an open fire be sure that it is completely enclosed in a stout wire screen.

5. Keep children from playing too near the fire, screen or no screen.

6. Don't throw large pieces of loose paper upon an open fire.

7. Make absolutely certain that the fire is out before going to bed at night.

8. Don't say, "I guess it's all right."

9. Thaw frozen pipes with hot water, not with flame.

Safety Rules For Coal Oil

1. Study the Rules for lights.

2. Be sure that oil heaters and cookers do not leak and that they will not overturn.

3. Keep the burners clean and do not turn the flames too high.

4. Keep the oil can outside of the house, if possible.

5. Do not let the floor beneath the can become oil-soaked.

6. Make sure that the can does not leak nor drip.

7. Fill by daylight only any receptacle in which oil is to be burned.

8. Never start a coal or wood fire with oil.

Safety Rules for Electricity

1. Remember that the human body is a conductor; do not touch wires, or anything else which may be charged with electricity.

2. Do not have wiring done by any one but an expert and careful electrician.

3. Never leave an electric device, even for a moment without making sure that the current is turned off.

Safety Rules for Gasoline

1. Remember that you must take no chances with gasoline; it is one of the most dangerous explosives in common use.

2. It must always be kept in tightly fastened cans; never in glass bottles.

3. It should never be uncovered within the house nor at any point where its fumes can travel to an open flame, a live coal, or a spark.

4. Do not use it for cleaning, if you can get a safe cleaning operation.

5. Gasoline in quantity should be kept in underground tanks?

6. No one should be allowed to smoke in an automobile while its gasoline tank is being filled.

8. Do not use water upon a gasoline or coal-oil fire; use a chemical extinguisher, or else throw earth or sand upon it.

Safety Rules in Smoking

1. Watch the careless smoker; notice where he throws matches, cigars and cigarettes when he has finished with them; stamp out any sparks you may see.

2. Tell your friends that smoking is harmful to children as well as dangerous to those about them.

Safety Rules for Holidays

1. Do not take foolish risks.
2. Try to have a good time without burning gunpowder, but if there must be fireworks let them be handled only by grown people.

3. Do not use lighted candles on Christmas trees. If you desire lights use only electric lamps, carefully wired.

- 1 Farm scale, cap. 1200 lb
- 1 1/2 ton Ford truck
- 1 Hay rack

- 1 Binder Deering, 7 foot cut
- 2 Mowers, Deering, 5 foot cut
- 2 Sulky rakes, Deering, 9 foot
- 1 Grain Drill, Massey Harris, 13 hoes
- 1 Stiff tooth cultivator, I.H.C.
- 1 Spring tooth cultivator, I.H.C.
- 1 Corn cultivator
- 1 Speight wagon
- 2 Top buggies
- 1 Cutter
- 1 Wheel plow, 21, Fleury
- 1 Plow 21, Fleury
- 1 No. 3, I.X.L. Wilkinson
- 2 Sets harrows, 4 sections
- 1 Root scuffer
- 1 Fanning Mill, Chatham
- 1 Root pulper

- 1 Buckeye chick brooder, coal burner
- 1 Melotte cream separator, in good order
- 1 Wheel barrow
- 1 Large coal oil tank
- 1 Ladder
- 1 Extension ladder, 32 feet

Save Yourself at our expense

Don't try to do the heavy parts of the family wash. Let us help you. This new plant was designed and equipped for that very purpose and can give you as much or little help as you desire by means of five different kinds of laundry service—all moderately priced. We use only soft water and pure soaps, etc. No marking, no starching, and each wash done separately.

We Call In Richmond Hill District WEDNESDAY AND SATURDAY

If you will have laundry ready when driver calls, you will assist us in giving good service. If you only have driver call when phoned for, Call up as early as convenient to insure prompt attention.

Phone Orders for Our Driver, Parcels may be left at Liberal Office, Telephone 9, Richmond Hill

SEMI-FINISHED TORONTO WET WASH LAUNDRY CO. LTD.

Lakeside 5280 175 Ossington Avenue, Toronto.

Ontario's Highways beckon in the Autumn

See the Province in its Panorama of Color

Nature is kind to Ontario in the autumn. She splashes reds and yellows and browns and greens over the landscape in a truly extravagant manner. Mile after mile, on hill and in valley, the spectacle is a constant delight.

Get out into the Province this fall. Use the good roads to go where Nature exhibits her most artistic handiwork.

But when you go out on the road, whether on business or pleasure, remember you owe it to yourself and to others to exercise courtesy and common sense in driving.

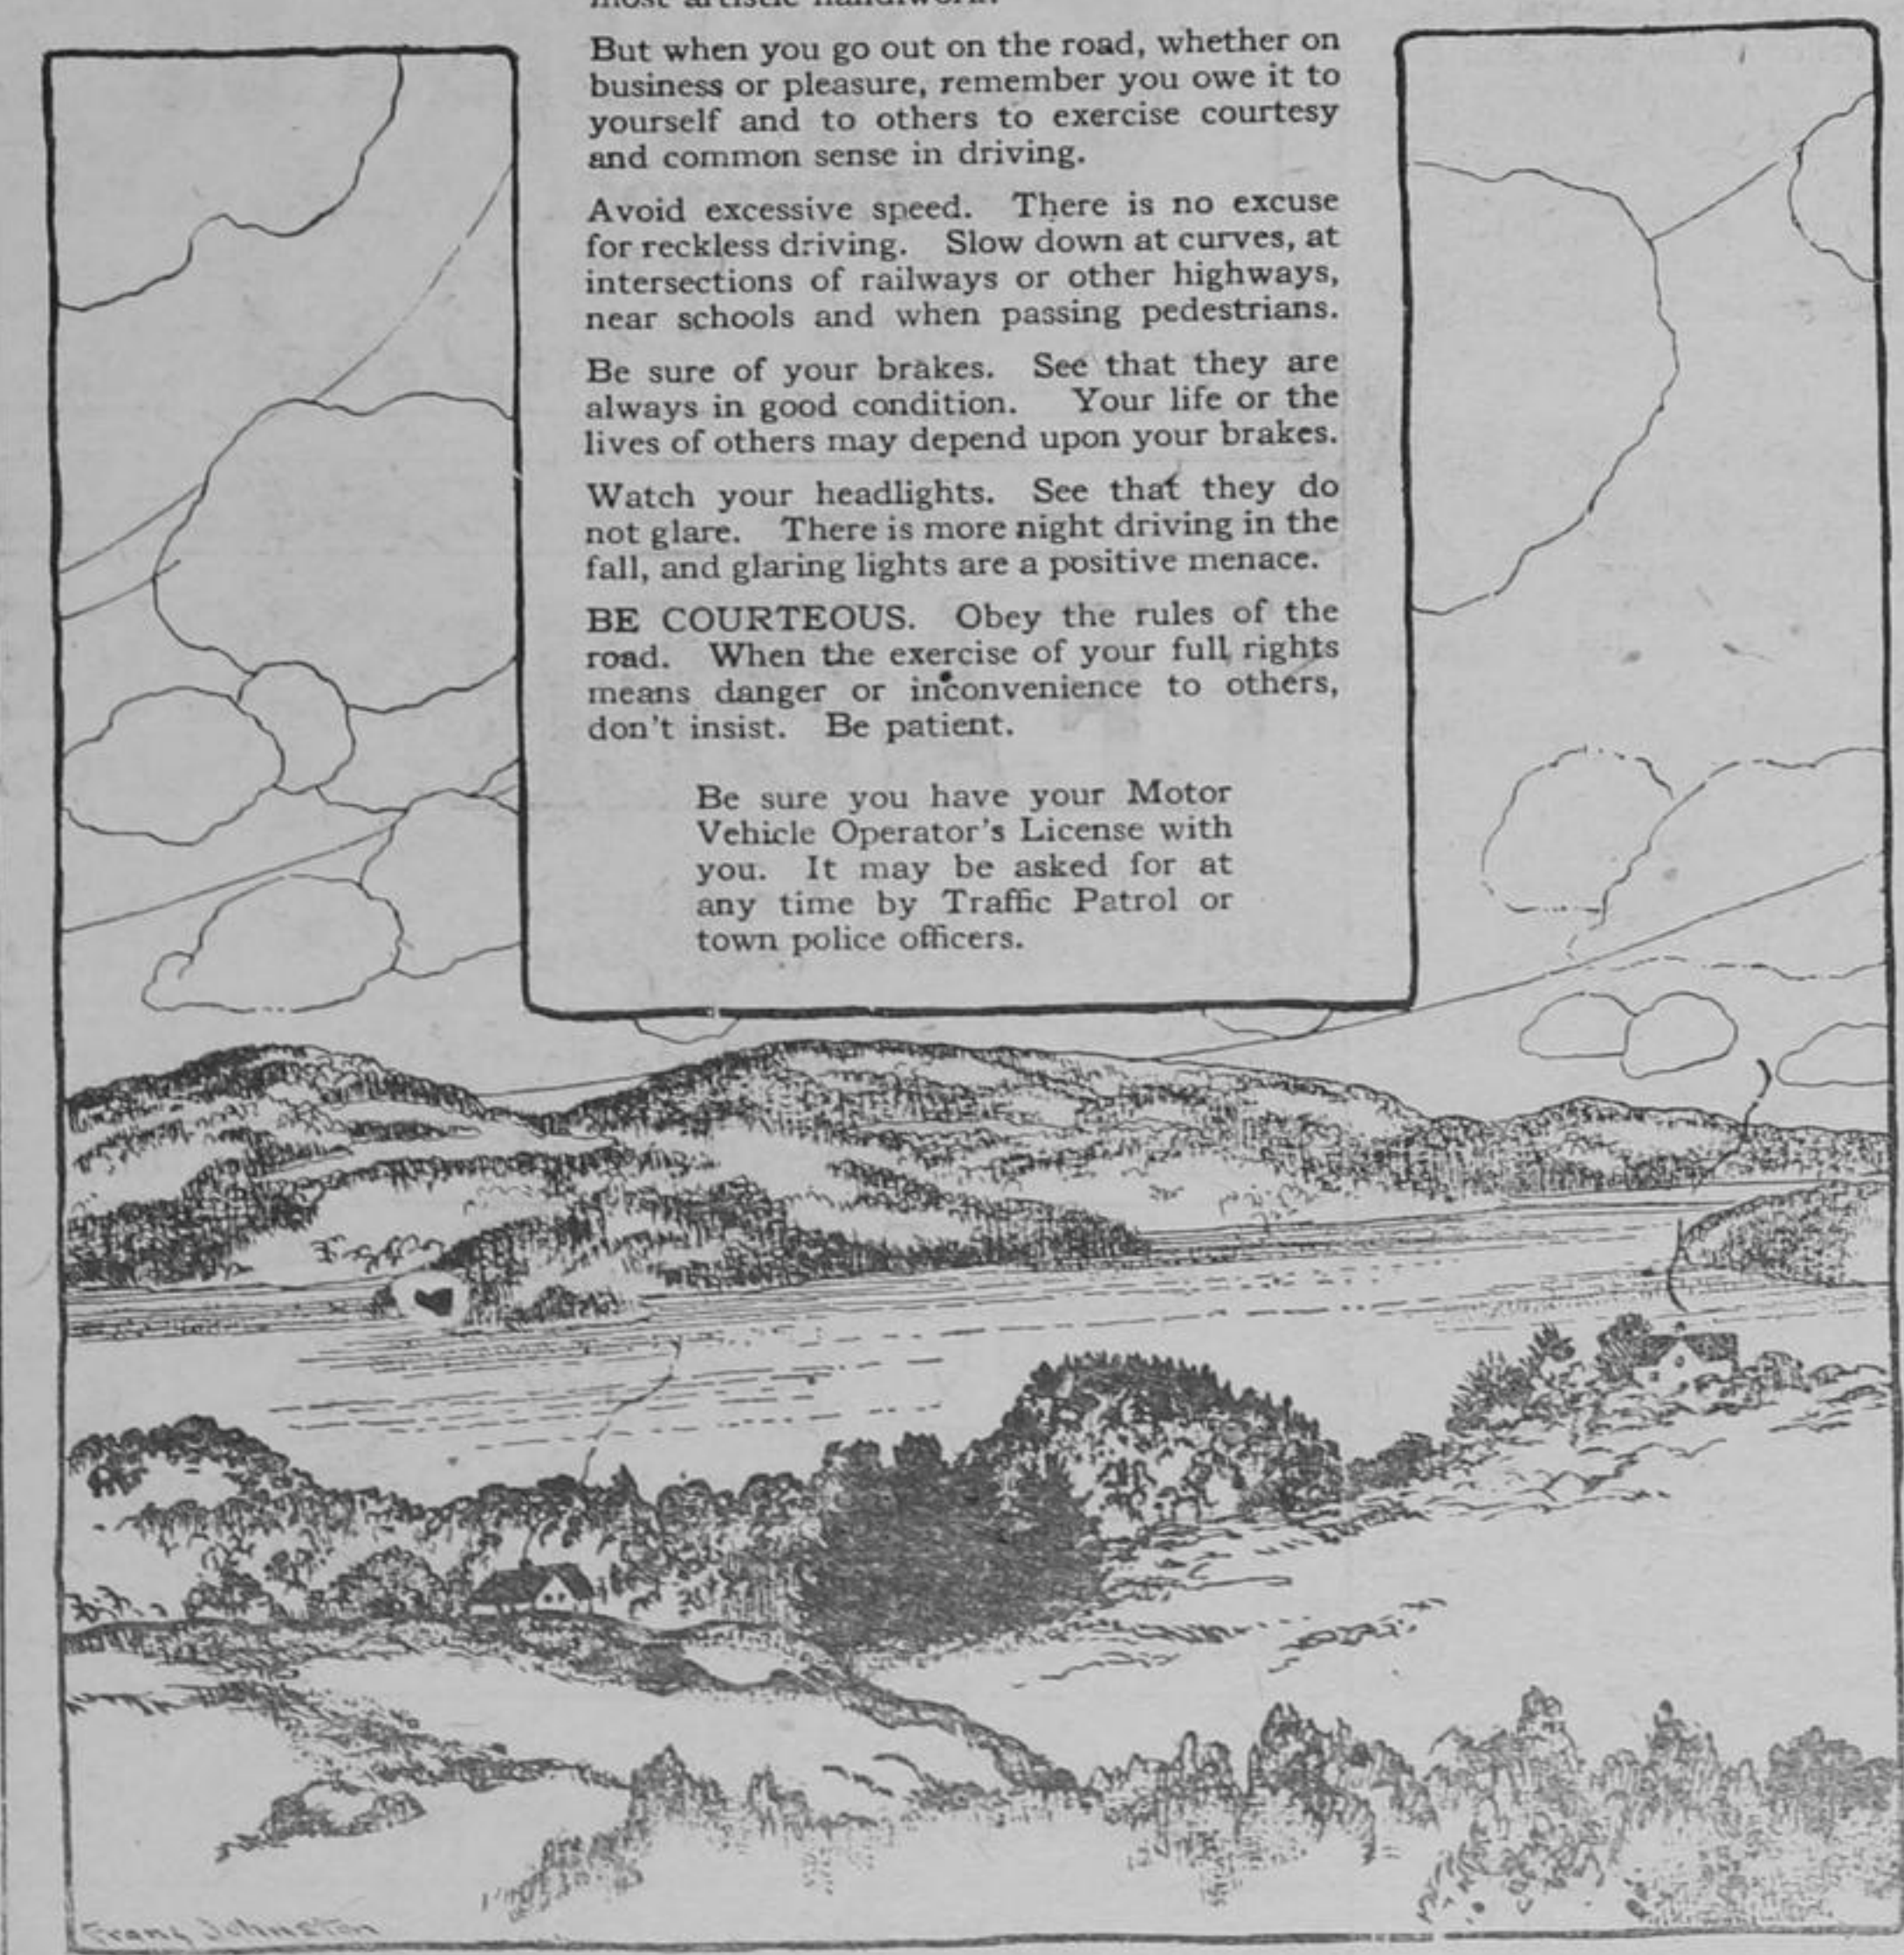

Avoid excessive speed. There is no excuse for reckless driving. Slow down at curves, at intersections of railways or other highways, near schools and when passing pedestrians.

Be sure of your brakes. See that they are always in good condition. Your life or the lives of others may depend upon your brakes.

Watch your headlights. See that they do not glare. There is more night driving in the fall, and glaring lights are a positive menace.

BE COURTEOUS. Obey the rules of the road. When the exercise of your full rights means danger or inconvenience to others, don't insist. Be patient.

Be sure you have your Motor Vehicle Operator's License with you. It may be asked for at any time by Traffic Patrol or town police officers.

Ontario Department of Highways

The Hon. GEO. S. HENRY, Minister.
