The Profits Lies in the Finish

IT PAYS to market cattle with the proper degree of finish. A quality product always commands a premium and is readily saleable at a profitable price. If you have stock which needs a little more time for finishing, and the feed is scarce, see the local manager of the Standard Bank. It is a simple matter to arrange a loan to carry the stock until a favorable market warrants a profitable sale.

Eye Strain ?

Home school work means night work for the average student, because early evening hours usually are taken up with any number of other duties.

Therefore, parents should make sure their child is not subjecting eyes to severe strain or overtaxing which in later years will collect a heavy toll. Great care should be taken by all parents to prevent injury to eyes of their children during school months.

It isn't enough to think your child's eyes are all right. You should KNOW. The way to know is to have eyes examined by someone qualified to tell you the truth. We have always specialized on children's eyes examination. And we never recommend glasses unless it be for health's sake.
