

### A Good Banking Connection

MARKETS fluctuate and conditions change, but the hazards of farming are less when the farmer is also a business man.

However, as the farmer has not every opportunity of keeping in touch with the Business World, a good Banking connection is especially necessary to him—the Bank Manager provides a ready contact with business affairs.

Our country Managers command the knowledge and experience of the whole Bank, and every local Manager is devoted to furthering the interests of the community in which he resides.

*Any Branch of the Bank will give you painstaking advice and dependable service.*
