I pray Almighty God that the words I write in this house may be pure and honest—that they be dictated by no personal spite, unworthy motive or unjust greed for gain; that they may tell the truth as far as I know it—and tend to promote love and peace—amongst men.

CO-OPERATION

Modern civilization knows of only one game which all may play and in which all players are winners. That game is co-operation. In an era where the many are working for self the exceptional who work for others may deprive self. Nobody is deprived who works with others.

Hornets work together. So do bees. A bee hive is a wonderful testimonial to what working together—each for all and all for each—can accomplish. Ants are also co-operators and every ant-hill testifies to the result-getting powers of co-operation. A wise man once asked which is the most important—Labor, Capital or Management. He answered with a twinkle. Which is the most important leg of a three-legged stool?

Co-operation is the key word in business. It is the one direct road to prosperity, both for individuals and large groups. If a man is to be a leader, he first learns how to be a good co-operator—a worker with others; not a worker against nor for, but WITH.

KNOW YOUR OWN COUNTY

"See Canada First" is a slogan which has gained considerable momentum in recent years. "Know your own Country first" was an outgrowth from the original and now we commend to you the advisability of the slogan "Know Your Own Municipality and County." For instance how many could tell the assessed population of the municipality in which they live, the population of York County, or even the assessed acreage or the land value of their own municipality or County? Elsewhere in this issue we publish interesting statistics of York County municipalities for the year 1926 compiled by the Ontario Government which we commend for your careful perusal.

The somewhat alarming increase in the claims against townships for sheep killed by dogs creates a situation which if it continues will have to be met by some drastic action or amending of the law. A more careful check of the dogs in every municipality seems to be the logical first step for it is a remarkable fact that when a dog is found worrying sheep in very few cases has the offending canine an owner.

The bouquets which will now be tossed to Richmond Hill as a result of the fine new pavement on Yonge Street which is nearing completion will in some measure recompense for the brick-bats hurled this way in past years.

Nelson, "the strangler," travelled up and down some of the southern States for a couple of years and killed over twenty people. He came to Canada, began the same fiendish pastime, was caught, put behind the bars without any ceremony, promptly given a fair trial, found guilty and sentenced to die in January. There wasn't any unseemly haste about it, neither was there any delay. Had the arrest taken place in Chicago they wouldn't yet have a jury impanelled.

"If you are in business you are either busy or not busy. If you are busy there's no need to worry. If you are not busy either you will get busy or you will go broke. If you get busy there is no need to worry. If you go broke, either someone will leave you a fortune or you will go to the workhouse. If someone leaves you a fortune, there is no need to worry. If you go to the workhouse, either you will live to a ripe old age or you will die. If you live to a ripe old age, there is no need to worry. If you die, you can't worry. So why worry?" The "Relay Recorder."
