HOUSEHOLD HINTS

Griddle cakes, we loved as kids and then grew tired of, come these days in a fascinating and delicious variety:

Sweet Milk Griddle Cakes
For sweet milk cakes mix and sift together 3 cups of flour, 2 tablespoons of salt, 1½ tablespoons of baking powder, then add gradually 2 cups of milk, beating constantly to make a smooth batter. Beat well 1 egg and add to the mixture; also 1 tablespoon of melted butter or butter substitute, and bake on a hot griddle.

Rice Griddle Cakes
Rice griddle cakes are delicious and they are easily and quickly made. Pour 1 cup of milk over 1 cup of warmed boiled rice, then beat the yolks of 2 eggs until thick and lemon colored and add to mixture, with 1 tablespoon of melted butter, 7-8 cups of flour and, lastly, fold in the stiffly whipped egg whites. Bake on a hot greased griddle and when full of bubbles and cooked on the edges, turn on the other side.

Buckwheat Cakes
Two cups milk, 1½ cups buckwheat flour, ¼ cup flour, ½ yeast cake, ½ teaspoon salt, 1 tablespoon sugar, 1 egg, 2 tablespoons butter or shortening (melted.) Mix ingredients and beat well.

HEADS INDIAN COMMISSION
Sir John Simon, former British Secretary of State for Home Affairs, who has been appointed Chairman of the Commission to investigate as to how the reforms have worked out in the Indian Government since the natives were given a greater share in the responsibility for their own government in 1919.

Farm Notes

Greater care should be exercised on most farms to keep the milk supply free from contamination. Milkers are too careless as to cleanliness of clothes and hands. If the cow's flank and udder are covered with manure it is next to impossible to keep the milk clean.

Almost any kind of a cow with an udder brings a fair price, but it is the type, big square-rumped cow with capacity for feed, prominent veining and large udder that is in demand. Dairymen are well advised to retain the heaviest producers and highest steers on which to build up the home herd.

A man in charge of a small but expensive herd does not believe in keeping the calves going ahead. In all sincerity he said, "An animal has to have a set back at some time in its life, and I would rather this happen early." This is rather poor philosophy and if practiced will relargest daily gains at a cost of 6.6 set back of any kind at any time.

Alfalfa and clover hay supply some of the necessary protein, and more than that they are the most dependable source of minerals so essential to growing stock and milking cows. No dairy farmer should be without clover or alfalfa.

Cleanliness should be the motto in every stable and farm dairy. Consumers of milk and dairy products are getting more fussy all the time, and dairy men should realize that, step by step the trade will demand cleaner and cleaner milk.

It always pays to feed a little home-grown grains, especially to protein-rich concentrates with our home-grown grains, especially to milking cows; and when there is no succulent fodder the winter ration is improved by the addition of bran.

It is a mighty good dairy herd that cannot be raised 500 pounds per year in the herd average. Plenty of them should be raised 1,000 to 1,500 pounds or else loaded on to the next train to the stock yards.

**RAVAGES OF DOGS
COSTLY TO TOWNSHIP**

Markham Township Has Paid Out
\$1700 for Sheep Killed This
Year

The claims for damages for sheep killed by dogs in Markham Township have come in such large numbers this year that the Council are concerned over the mounting costs. At the regular November meeting claims amounting to \$356 were paid and the opinion was expressed that if in future any exorbitant claims or valuations were presented the council would avail itself of its privilege of appealing to the government valuat-ors. It was pointed out that the total sheep claims paid this year amounted to over \$1700, which amount is greatly in excess to the revenue from dog taxes. The following claims were paid at the November meeting:—

Claims for sheep killed and injured by dogs as valued by the township sheep valuator were C. J. Brodie 1 killed, \$60 and 1 injured, \$10, on Sept. 6; Cline Burr, 1 killed on Oct. 5, \$20; I. H. Weldon, 2 killed, \$80, and 4 injured, \$60, flock damage \$50, on Oct. 8; C. J. Martin, 1 killed, \$20 and one injured, \$10, Oct. 11, and 1 killed, Nov. 7, \$20; Geo. Hunt, 2 killed Oct. 13, \$26. Total claims \$356.

**Judgment Reserved
On Sutton Railway**

The board of railway commissioners reserved judgment on the application of the Canadian National Railway for permission to abandon that portion of the Sutton subdivision of its railway, between Stouffville Junction and Mount Albert, where it crosses the Bala subdivision. The applicant's case as presented by Mr. Fraser, counsel for the Canadian National Railway, was based mainly on the fact that the railway was losing money on this portion of the road.

Mr. Fraser contended that the district at present served by this line would be sufficiently served by the Bala subdivision.

N. L. Mathews of Newmarket, solicitor for the township of East Gwillimbury, and J. H. Naughton of Toronto, solicitor for the township of Whitchurch, opposed the application on the ground, that the proposed abandonment would be a serious handicap to both of these townships through which the railway passes.

Victoria Square

The Y.P.S. of Victoria Square is having a Chinese Missionary, accompanied by her interpreter, to address the meeting next Sunday evening at 7.30. You are invited to bring your friends and share in this rare and worthwhile treat.

Man of the Family, at Eight

If you were a wee lad, hardly eight, and you hadn't seen your mother or four little brothers and sisters for ever so long, and if you had a pain in your chest all day—well it is doubtful if you would smile as bravely and say "How do you do?" so cheerily as Bert does—stretched out wanly on his little cot in the Queen Mary Hospital for Consumptive Children at Weston. Bert's daddy has been dead for a long time, and his mother goes out washing—and this wee lad used to help look after the others. He caught a bad cold and might have been snuffed out—as many another little human candle has been by the chill wind of consumption—but that he was sent just in time to the Queen Mary Hospital for treatment.

Would you not like to help this work to go on, through a contribution to the hospital?
Contributions may be sent to Hon. W. A. Charlton, President, 223 College Street, Toronto 2, Ontario.
