Richmond Hill Board of Health Discusses Many Timely Topics

Water Supply and Milk Supply Reported as O.K.—Will Consider Further The Purchase of Chlorination Equipment.

The Richmond Hill Board of Health met in the Secretary's office on Tuesday afternoon at 2 p.m. with Reeve Lunau chairman of the Board, Dr. Wilson M. O. H. and the Secretary present. Dr. Wilson reported that several firms had been interviewed in regard to the purchase of a chlorination plant for the Waterworks and that a representative of one of the firms had visited the plant with a view to ascertaining the requirements of the system. Mr. B. H. Lasher waterworks engineer who was present was asked his opinion on the matter and stated that he had not yet determined just what type of machine the system required. He described the process of chlorination and expressed the opinion that a manual-operated machine would give no better service than the system now in use and that an automatic machine by which the supply of chlorine would be regulated by the flow of water would be the only satisfactory equipment. He pointed out that at present there was no means of measuring the flow of water on

account of the lack of proper meters for this purpose.

A resolution was carried instructing Mr. Lasher to investigate the matter and procure all possible information and data with the view of determining the best type of machine to suit local requirements.

Dr. Wilson reported that an analysis of the local water supply dated March 26 showed the water to be good, free from colon bacilli and that well waters which were under suspicion were of fair quality.

In regards to the local milk supply the M O H stated that the supply of the local dairyman was of good quality and the members commented very favorably on the efforts of the dairy in installing new equipment and trying in every possible way to ensure a good milk supply for the village. The recent tests showed the milk to be of much higher test than the requirement and the milk was satisfactory in every way.

Dr. Wilson suggested the advisability of treating the children of the Public School to immunize them from Diphtheria. This will be commenced next week and consent cards will be distributed to the children this week. Parents are also invited to bring children of pre-school age to receive this treatment.

MORE FUNDS ARE NEEDED TO LAND INDUSTRY HERE

EVERYONE MUST ASSIST IF
OBJECTIVE IS TO BE
REACHED

An enthusiastic meeting of the Richmond Hill Ratepayers Association was held in the council chamber on Monday night when the proposed offer to an industrial concern with the view of having it locate here was fully discussed. F. J. Mansbridge made a very capable presiding officer in the absence of the president of the association. Despite the unfavorable weather over fifty ratepayers were present and every one was a booster for the project.

A resolution by Dr. Wilson and Mr. W. A. Wright that the Association make an offer of the land to the Company was carried unanimously without a dissenting voice and will be carried out by the committee just as soon as sufficient funds are promised to warrant the undertaking. The reports of the canvassing committee were again very encouraging but there is still a substantial balance to be subscribed. The sooner that the money can be raised the better are the chances of securing the industry and any citizens who have not yet subscribed and are interested in the success of the proposition should not withhold their decision but should give the committee some definite assurance of the amount they will give. Any subscriptions however large or small will be welcomed by the committee.

We have not heard one substantial argument against the proposition and the general feeling of the citizens of this district apparently is that this represents a chance of a life-time for Richmond Hill. The committee of ratepayers are working hard but a few cannot do it all. THE SUCCESS OR FAILURE OF THE PROJECT RESTS IN THE HANDS OF THE PEOPLE OF RICHMOND HILL. If by their subscriptions they show in a practical way that they appreciate the possibilities for progress, prosperity and development as a result of the location of a factory employing two hundred and fifty hands then the chances of securing the industry are the very best. If the whole matter is left to a few men and the rest sit back and say "I hope they get it" but let it stop there, then there is little chance of success. To talk favorably of a project but do nothing to ensure its success is like putting the cart before the horse, it gets you nowhere. Every citizen of Richmond Hill should be a personal missionary for the success of this industrial opportunity and should, from now until the objective is reached devote every effort in that direction. The committee would be glad if anyone wishing to make a subscription, or anyone willing to assist in the canvass would get in touch with the chairman of the committee T. H. Trench, phone 12-J, or the secretary, telephone 9. Only a few days remain to either "go over the top" with the objective or fall down, as the options which have been secured are for a very limited period. Co-operation spells success. Let everyone have a part in this great community undertaking.

Y.W.A. MEETING

The Y.W.A. of the United Church, Richmond Hill will meet at the home of Mrs. W. Mortson on Tuesday evening, April 3rd., at 8 p.m. An interesting programme has been arranged. A cordial invitation is given to all the young ladies of the church to attend.

STOP THE PRESS NEWS

Yes folks, spring is here but the handsomely painted sign which was intended to tell all who pass this way that this is "Richmond Hill, Toronto's Highest and Healthiest Suburb", which was removed last summer to make way for paving operations is still standing hid behind a rail fence at the south end of the village. Further report next week.

ORATORICAL CONTEST AT HIGH SCHOOL

The annual oratorical contest for students of the Richmond Hill High School sponsored by the Home and School Club was held in the gymnasium on Tuesday night. There was a good attendance of citizens and students and the speeches of the ten contestants were well delivered and were of exceptionally good quality. It was freely commented upon that the contestants each year are showing marked improvement and the plan of holding the event annually is apparently having a noticeable effect in improving the art of public speaking among the students. Miss Nellie Collins was awarded the first prize in the senior contest for a very original and timely oration on the subject "Spring". The winner is possessed of a delightful platform manner which captivated her audience and the spice of original humor which was evident added much to her oration. Mr. Donald Hick was awarded the second prize for a well delivered address of "Canada's Future". Other speakers were Miss Mary Hickey "The Greatness of our Heritage", Miss Margaret Plewman "The Invention and Progress of the Aeroplane", Mr. Walter Steckley "The Scientific Age".

Miss Olive Wilson won the junior contest, taking as her subject "Agriculture in Canada", and Miss Irene Routley was given second place with the subject "The Natural Resources of Canada". Other contestants were John Wilson "The Story of Canadian Literature", Miss Winnie Gillings, "Ontario", Miss Dorothy Mason "Canada's Immigration Problem". Mr. A. E. Plewman president of the club occupied the chair and Mr. Robert Shaw of North Toronto and Messrs. Robinson and Findlay of St. Andrews College acted as judges.

The program of speeches was interspersed by musical numbers by Arthur Walker and Miss Nora Johns at the piano and a guitar solo by Peter Savage.

It is gratifying that the Home and School Club are doing such splendid work in encouraging the development of the art of public speaking. It is worthy of note however that of the ten contestants of the evening only three were boys. There seems to be a holding back among the boys and a tendency to leave the contests too much to the girls. This is regrettable because training in public speaking is a valuable asset to a young man in any walk of life. We will pass on a suggestion that was made to us after the meeting and would commend it for the consideration of those sponsoring the contest, namely that there be a separate competition for boys and girls.

FARM SALE BROUGHT SOME RECORD PRICES

COLT TEN MONTHS OLD SOLD
FOR \$140

Farm Stock sales continue to bring excellent prices. The sale of Mr. John Thompson, lot 16 concession 7, Vaughan, on what is known as the "gravel road" was held on Tuesday and was largely attended. The proceeds totalled over \$5000 and it is a remarkable feature that three quarters of the total was paid for in cash although 8 months credit was advertised. One purchaser gave a check for \$1100 to cover his day's buying so anyone who says farmers in this district have not got "the goods" please note well. A ten months old percheron colt brought \$140; and the buyer was Charles Crooks of Maple. The mother of the colt was sold for \$200. Grade cows sold as high as \$165 and ten only one of which was fresh, averaged \$134.60. Sheep sold for \$40 each and a young brood sow was sold for \$65. It was a most successful sale and was in charge of J. T. Saigeon, auctioneer, Maple. Mr. Thompson recently sold his farm to Mr. Henry Barker of Thistletown for a handsome figure.
