ACTION DEFERRED ON EXTENSION TO THE WATERWORKS SYSTEM

Village Council After Letting Contract Decides To Wait Further Action Pending Settlement of Appeal.

The proposed extension to the waterworks system which is claimed to be the remedy to the existing undesirable features of the supply during the summer months and which has been under consideration for about a year was given another hoist at the regular meeting on Monday night, when it was decided to take no action in regard to proceeding with the work until the appeal against the award of the arbitrators in the expropriation proceedings has been finally settled.

At a special meeting of the council held on May 11 the contract for laying the wooden pipe which were purchased last year for a consideration of about \$1100. was let to a Toronto firm for \$2400. The contractor has been ready to commence the work for some days now and has some of his equipment on the ground ready to start this week. This was the culmination of over a year's deliberations and it has always been the expressed intention of the council to have the work done this year before the starting of the period when the water supply becomes objectionable.

Councillor Hill introduced the question at Monday night's meeting by asking if the members of the council felt safe in going ahead with the work until the appeal which had been entered had been disposed of by the courts. He said he was absolutely against spending one dollar in this proposed work until the council was sure or had some reasonable guarantee that the municipality would not have to pay more money for the land.

Councillor Sloan—This is a fine time to bring this up just a few days before the contractor is going to start work.

Councillor Hill said that he did not feel like going ahead with such a proposition when an appeal was pending. If the appeal is won, he said and this town would have to pay \$10,000 for the land we would drive all the people out of town.

Councillor Sloan—Well for supposition let's say the appeal court says the town must pay \$50,000—and that would be sure to scare them all out—what are you going to do? As I understand it we decided to go ahead with this extension after securing the very best advice on the matter that we could get and that as we could not come to what we termed a reasonable bargain for the land we took expropriation proceedings. These proceedings have been carried out and we now have an order of possession—the land is ours. The three arbitrators fixed the price to be paid at \$520, and that award has been appealed. All that remains to be settled is whether the award of the arbitrators will be upheld or the court of appeal may I believe fix the amount which we must pay. As I see it the appeal pending does not effect this work at all if you intend to do it. We have expropriated the land and we can't back down. You've chosen your tune and you must pay the piper. I am most certainly in favor of proceeding with the work at once.

Councillor Hill said he didn't have much faith in the undertaking anyway.

Councillor Chapman—I haven't much faith in it either but if we're going to do it I don't see any reason for putting off the work. If we could back out of the deal it would be a different matter.

Reeve Lunau said that he had always been satisfied that the municipality had the right of possession of the land and he thought that if there was any objections of this kind they should have been brought up long ago.

Councillor Hill moved that all work on the proposed waterworks extension be held up until the appeal against the award of the arbitrators now pending was disposed of. Councillor James McLean seconded the motion.

Councillors Sloan and Chapman voted against it thus creating a tie. Reeve Lunau voted for the motion and declared it carried as he said it might be just as well to let it wait over for a few days until the appeal is settled.

Considered Revision of Assessment

At nomination time the subject of a revision and equalization of assessment was mooted. It was considered at a special meeting of the council held on May 21 when the reeve was instructed to see three local men with the view of having one of them undertake the work in conjunction with the present assessor. Reeve Lunau reported Monday night that he had not been successful in securing anyone to do the work. No further action was taken at the meeting.

Councillor McLean wanted to know when the roads would be oiled. He suggested that the roads be dragged before this work was done.

Reeve Lunau said that this was the intention and that the oiling would be done about June 15.

Councillor Hill and councillor Chapman complained of the dust nuisance on Yonge Street. Mr. Chapman suggested that the firehose be used to flush the street once a week during the summer.

The report of the building inspector showed permits issued so far this year to the amount of \$18,000.

A communication was received from the Department advising the council of certain legislation regarding the control of weeds and the appointment of a weed inspector. Mr. G. Moodie applied for the position of weed inspector. Councillor Hill thought that the town had plenty of employees right now and moved that G. Smith be appointed on the understanding that if he did not have time to do the work he could hire a man to do a part for him.

A request was received from the Horticultural Society for the usual grant from the municipality. On motion it was decided to give the customary grant of \$25. After the motion was carried Councillor Hill took exception to the grant as he said he thought the reeve had said a grant to the Agricultural Society. He asked if the council always gave a grant to the Horticultural Society. "What benefit are they to the town?" he asked. "They were supposed to do a lot with flower beds at the public school in front of the war memorial but I haven't seen any results". Councillor Hill however waived any objection to the motion as passed since it had always been a usual grant.

As no grant had previously been made to the Agricultural Society Councillor Sloan moved and Councillor Hill seconded that the usual grant of \$25 be made. Motion carried.

Caterpillars A Nuisance

The attention of council was drawn to the prevalence this year of caterpillars in orchards in the village. The reeve said he had instructed the town foreman to destroy all on the streets and he would urge that private citizens take immediate steps to have any on their property destroyed.

Reeve Lunau asked what the members wanted to do with the municipal scales. At present they were on property not belonging to the town and had been condemned as well. An estimate for their repair had been received and the price would be \$200. If the town wanted to sell them he had a party enquiring for them. He was authorized to sell the scales and make the best bargain possible.

Engineer B.H. Lasher was instructed to proceed with the work of constructing four valve chambers in connection with the water mains on Yonge Street at once. Councillor Chapman asked why this had not been done when the paving company was doing the work and the explanation was that it had been overlooked.

NEW MAILMAN FOR RURAL ROUTE

Official word has been received of the appointment of A. W. Harris, of Markham township as mail carrier for Rural Route I, Richmond Hill. Mr. Harris will commence his new duties on July 1st. There were thirty applications for the position.

IN NEW BUILDING

Little Bros. local Ford dealers have moved into their fine new garage on North Yonge Street. The building is now completed except a few finishing touches and the announcement of the official opening will be made shortly.

York and Peel W.C.T.U. Held Annual Meeting

The annual meeting of the York and Peel W.C.T.U. was held at Newmarket on Tuesday and Wednesday of this week. It was a most enthusiastic meeting and was featured by a large attendance of members and an excellent program. There are fifteen unions in the county and fourteen were represented at the annual meeting. On Tuesday afternoon Miss K. R. Duff, field secretary, of the organization was the speaker and dealt with the work in the outlying districts. In the evening the members were favored with an inspiring address by Rev. Ben Spence. On Wednesday Mrs. T. T. George, of Toronto gave a very educational talk to the children of the public school from Miss McCorkindales chart.

The election of officers for the year resulted as follows: Honorary Presidents, Mrs. H. H. McMahon, Toronto, and Mrs. E. Western, Newmarket; President, Mrs. T. R. White, Aurora; Vice-President, for York, Mrs. A. E. Plewman, Richmond Hill; Vice-President for Peel, Mrs. Lorne Davidson, Meadowdale, corresponding secretary, Mrs. J. C. Irvin, Weston; recording secretary, Mrs. O. L. Wright, Richmond Hill; Treasurer, Miss Toole, Newmarket; L. T. L. Secretary Mrs.
