York Market

The warm weather had its effect Tuesday night on the North Toronto Market, which was more crowded than ever, buyers and sellers feeling the pressing need for larger quarters. Many commodities made their first appearance on the market. In the fruit section the arrival of raspberries, cherries and red currants had no effects on the demand for strawberries, which were of good quality and sold readily.

Vegetables are abundant. There was a large consignment of new potatoes in from Thistleton and they sold readily at 50c. for a 6-quart basket. Green peas at 50c for 6 quarts were a glut on the market. The price of tomatoes keeps up at 35c a box. Butter beans were another newcomer. Quarts of green or yellow varieties sold at 15c. The green ones could be bought also at 65c for a 6-quart basket.

Small white turnips, young carrots or beets were 5c a bunch or 6 for 25c. Asparagus is still on the market and of good quality, selling at 2 bunches for 25c. Spinach was 20c a peck and Swiss chard 25c pk. Cucumbers were 10c each and head lettuce 5c and 10c. Cabbage was 10c a head and cauliflower 15c and 20c, according to quality.

Fruit presented a choice to the shopper. Raspberries, the first of the season, brought 25c pt.; cherries sold at 15c and 20c qt. or 90c for 6 quarts. Red currants, another newcomer, were 20c or \$1 for 6 quarts. Gooseberries could be had at 15c quart or 75c for a 6 quart basket. In spite of competition, strawberries were still popular and sold at 20c quart or \$5 for a crate of 27 boxes.

Whipping cream off the ice brought 40c pint, butter 40c lb. Eggs were about the same, 38 to 45c a dozen being asked. Spring chicken is on the decline and sold at 45c lb. Young ducks could be had at 40c lb.

Orange or chocolate cakes were popular at 35c each. The usual tasty array of buns, bread and cookies was on hand. Salad dressing was offered at 20c a jar.

HEAVY TRAFFIC OVER WEEK-END

With Old Sol beating down with scorching rays and the thermometer hovering around the 90 degrees mark, York County was treated to the hottest weather of the year over the week-end. Traffic on all the highways was exceptionally heavy and it looked as if everyone in the city was taking to the country to escape the intense heat. Motors by the thousand made a continual stream of traffic on Yonge Street all day and practically all night. All kinds of vehicles were put into use, including the family motor truck. Many of the latter equipped with benches, carrying large numbers, landed out in some shady spot where the Sunday meals were enjoyed. Despite the heavy traffic, no accidents of a serious nature were reported.

AT JASPER PARK LODGE

Jasper National Park which will be visited this year by members of the Canadian Weekly Newspapers Association is noted as one of the great show places of the world. With its area of 5,300 square miles, not only is it the largest game sanctuary in the world but it contains the greatest number of mountain peaks. Few of these are below 8,000 feet and Mount Edith Cavell, Canada's mountain memorial to the memory of the British Red Cross Nurse, is 11,033 feet in height.

Set almost in the shadow of the lofty Rocky Mountain peaks and facing Lac Beauvert, which reflects in its glistening water the towering peaks encircling it, is Jasper Park Lodge and adjoining rustic bungalows. Although situated amid scenery noted for its wild and rugged beauty, the Lodge, and adjoining bungalows which are operated by the Canadian National Railways, offer every convenience to the tourist. To those who love the beauties of nature and the great out-doors there is no place in the world which can surpass Jasper National Park.

Trails and roads, winding amid spruce and pine through valleys, along rivers and lakes and ascending the slopes of mountains within the park have an aggregate length of several hundred miles—and they are being steadily extended. Some of them were blazed over a century ago by Indians, fur traders and explorers who traversed the Athabasca Valley on their way to and from the Pacific. These, in particular, are historical, almost sacred for many of the men who trod them in early pioneer days have left their imprint on Canadian history. But most of the trails and roads have been constructed by the Dominion Government in order to provide pathways by which tourists may have access, with the minimum of effort, to mountains, valleys, lakes, rivers and other points of interest within the Park.

Lakes—turquoise, sapphire, emerald, amethyst, according to the character of their environment, and mirroring adjacent mountain peaks on their placid surface—are scattered like jewels everywhere. Glaciers, great and small, abound while the Columbia ice field, just outside the park boundaries, out-rials in vastness and in beauty those found in any other part of the continent, with the possible exception of the Mount Elias ice field in Alaska.
