**WEDDING**

**WATSON - NATRESS**

Elder's Church, Vaughan, lovely with ferns and roses, was the scene of a charming wedding, when Meta Muriel, elder daughter of Mr. Chas. Nattress and the late Mrs. Nattress, became the bride of Mr. Leo. Watson, younger son of Mr. and Mrs. George Watson, Woodbridge. The bride, who was given in marriage by her father, wore a period frock of kitten's ear satin and tulle. Her veil of tulle and lace was caught in a cap effect with orange blossoms. She carried a shower bouquet of orchids, Ophelia roses and lily of the valley and was attended by her sister, Miss Beatrice Nattress, dressed in a becoming gown of pale pink taffeta and lace with a picture hat of powder blue, carrying a bouquet of Butterfly roses. Mr. Roderick McCutcheon was best man and Master Norman Farr, cousin of the bride, was ringbearer. The wedding march was played by Miss Jean Laurie of Elder, and during the signing of the register Miss Queenie Dumpleton, of Woodbridge sang. The ushers were Mr. Bill Laurie of Elder and Mr. Frank Watson, of Hamilton. A reception was held at the home of the brides father, at which the mother of the groom received with the bridal couple. Later, the happy couple left for a motor trip to Montreal and from there by boat up the Gatineau, the bride travelling in a Pennsylvania blue georgette and lace ensemble with gray hat, shoes and bag to match. Upon their return they will reside in Woodbridge.

**COUNTY ROADS MUST BE UNIFORM WIDTH**

A 66-foot right of way for county roads has been called for in regulations for years, it is pointed out at the Department of Highways, in connection with a notification recently sent out advising County Councils that this width must be enforced if the Government road grant is to be paid. A despatch from Woodstock describes the edict as creating a "serious problem" in Oxford, but all that is required in any county, officials state, is a survey to establish the proper road allowance and place fences of property owners where they ought to be.

A common practice, it is said, is for farmers building new fences to erect them outside the old fenceline, retaining the protection of the old line in the meantime. This results in encroachment on the road allowance and municipal officials fail to check up on it. Then of course, there are a number of old roads or trails taken over by counties, with less than the prescribed width. In Carleton for instance it is reported, county roads run from 35 to 50 feet.
