GENERAL NEWS AND VIEWS

A penny isn't much; hardly worth picking up on the street, yet there are fortunes in penny sales. Last year one company operating penny slot machines vending chewing gum and candy took in three and a half billion pennies—\$35,000,000—over \$10,000,000 of which represented profit.

John R. Ragland, of Washington, is in trouble because he harbored a vicious goose. Mrs. Amelia Facticeau is suing him for injuries received when this "webfooted fowl of the goose species, with a mischievous, vicious, excitable and violent disposition and propensity" attacked her while she was returning home from church. She asks \$10,000 damages.

When old John Wanamaker was a young man he promised a pious friend that he would never sell playing cards. To this day playing cards can not be bought in a Wanamaker store. But they sell poker chips and dice in any quantity.

John Magee, a New York capitalist, discovered that three false front teeth were missing when he sat down to breakfast. While searching for them he began to have sharp pains in his stomach. An X-ray photograph revealed that he had swallowed them, possibly in sleep.

Testimony of eye-witnesses to a crime has again been found unreliable. James Sweeney of New York, was convicted and sentenced to life imprisonment for complicity in a double murder and mail robbery, when two witnesses "identified" him as being one of the men they saw commit the crime. He has proved they were honestly mistaken and has been freed.

About \$7,000,000 is spent each year by the Canadian government for the promotion of the agricultural industry.

Canada's trade in farm products for the fiscal year ended March 31, 1928, had a value of \$827,654,586 as compared with \$818,212,187 in 1926-27 an increase of \$9,442,399 or 1.2 per cent. The great bulk of this trade is done with the United States and the British Isles, the two combined accounted for 76 per cent. of the total in the year under review.

Canada is the third largest producer of platinum among the countries of the world, Russia and Colombia, South America, holding first and second place respectively. Last year Canada produced 11,228 fine ounces of platinum valued at \$717,613.

The value of building contracts awarded in Canada during the first half of 1928 was \$256,000,000, while during the first half of 1927 it was \$191,000,000.

The output of dairy factories in Canada in 1927 had a total value of \$133,927,256, an increase of about \$500,000 over the preceding year.

The output of gold from mines in the province of Ontario for the first six months of this year had a total value of \$15,977,980, an increase of \$224,368 in value over the corresponding six months in 1927.

Eleven plants in Canada made in 1927 over 19,000,000 pounds of macaroni and vermicelli, the value of which was \$1,547,359. Canada also imported last year over 2,000,000 pounds of these products.

There are 581,000 acres planted to potatoes in the nine provinces of Canada this year.

It has been estimated that visitors to Canada from the United States and other countries spent about \$275,000,000 in the Dominion last year. This year the number of tourists coming to Canada promises to break all previous records.

Some men are known by their deeds others by their mortgages.

When a telephone company proposed to change the name of a telephone exchange at Braddock, near Pittsburgh, dry residents of the community entered a vigorous protest. The new name proposed was Brandywine.

An automobile 125 feet long, 25 feet wide and 45 feet high and with wheels 40 feet in diameter has been designed by a German engineer for desert travel.

The New York telephone company has resumed telling the correct time when subscribers inquire, but now a nickle must be paid for the information. The first week the new system was in operation there were 77,160 requests for the time, for which \$3,858 was paid. There should be a fine market in New York for a good, cheap watch.

Odd McIntyre tells a new stenographer story: A stenographer in a large New York office was missing and a search failed to find her. The bright office boy inquired: "Has anyone thought of looking on the boss's knee?"

An alarm clock for the deaf has been made by a Bavarian carpenter. At the hour fixed, the clock bounces a rubber ball on the sleeper.

The telex, the electrical automaton, is so sensitive that it will fire a cannon at the command of a voice over the telephone.

By means of ultra-violet rays, photographs can now be taken in total darkness.

To expedite the delivery of news pictures, motion picture films and photographs are now developed and printed in a flying laboratory while enroute.

A new glass said to admit health giving ultra-violet rays is being molded into hats for women.

START TODAY

To economize on the time spent in complaining.

To mix a little more charity with your judgments.

To spend more time getting the other fellow's viewpoint.

To depend more upon yourself and less upon others.

To look for the good in the most unpromising people.

To do these things and see how soon life grows sweeter.

THE EDITOR

A school boy's composition on "The Editor," ran as follows: "The editor is one of the happiest beggars in the world. He can go to the circus in the afternoon and evening without paying a farthing, also inquests and hangings. He has free tickets to the theatres, gets wedding cake (?) sent to him and sometimes gets licked, but not often, as he can take it back in the next issue, which he generally does. While other folks have to go to bed early, the editor can sit up every night and see all that is going on."

A VALUABLE COW

The sum of \$11,100, the highest price paid for a Holstein cow in the United States since 1920, secured Triune Papoose Piebe, for the famous Holstein Farm of T. B. Macaulay, President of the Sun Life Insurance Company, at Hudson Heights, Quebec, at the National sale at Minneapolis. Stockmen agree that this Holstein heifer is one of the greatest Holsteins ever produced, and that she will win the highest honors at the National Dairy Show. The animal represents 30 years of breeding from some of the greatest stock in the country, and her coming to Canada is hailed with delight by live stock breeders, for it is recognized she will have a great influence on the breed in the Dominion.

SMOOTHER
with New Refinements..
and enhanced in Style and Beauty

DURING its thirty months before the public, the Pontiac Six has earned a world wide reputation for combining six-cylinder smoothness and high-speed endurance like no other car in its field. Now, because of recent engineering advancements, to-day's Pontiac Six offers even greater smoothness and more satisfying performance than ever before.

To Pontiac's thoroughly proved design—to its Lovejoy Shock Absorbers, its 186 cu. in. engine and generously over-sized vital units—to its numerous engineering advancements, such as the G.M.R. cylinder head—Pontiac has added new Marvel carburetor, improved manifold and new distributor.

Now this lowest priced General Motors Six provides a combination of quality features never before offered in a car of comparable price. In addition, the outstanding beauty of Pontiac's "body by Fisher" has been enhanced by new, smaller wheels and larger tires.

Newly refined and improved—today's Pontiac Six is more clearly than ever the value leader of its field. Drive it—and discover this truth for yourself!

Ask your dealer about the G.M.A.C. Deferred Payment Plan which makes buying easy.
