SO THIS IS RICHMOND HILL by BOOSTER

The IDEA which we received through the mail this week read thus; Put some bright lights on Yonge Street so that when a person drives in it will look like a real town."

Now folks that's an idea worth while.

Most centres need more and better street lighting. Richmond Hill does need better lights on Yonge Street.

Good street lighting is essential for better business as well as for safety.

Good street lighting means protection for pedestrians and for traffic.

Well lighted streets advertise a town and shows it at once to be progressive.

The proper lighting of all streets is a public necessity. For any municipality to cut down on street lighting on a theory of economy is penny wise and pound foolish.

PROPER LIGHTING OF STREETS PAYS DIVIDENDS IN SAFETY, AND GUARDS LIVES AND PROPERTY AND INCREASES BUSINESS.

A town well lighted is a town well liked.

It is a fact that some wait for prosperity, others go ahead and in others KNOCKITIS is prevalent.

Let every citizen get on the band wagon and BOOST for Richmond Hill.

It's up to you and I to make it either a funeral or a parade. Get busy and BOOST hard and make it a parade.

No town should drift along with no thought of the future.

If it drifted it is because it has TOO MANY citizens who are afflicted with KNOCKITIS or lack ambition.

If all drifters would stop drifting and take an active interest in civic affairs we might get somewhere.

AND JUST BEFORE WE CLOSE: IF SOME OF THE KNOCKERS WOULD LOOK AROUND AND GET ACQUAINTED WITH THE HOME TOWN AND TRY TO DO SOMETHING TO MAKE IT BETTER THEY MIGHT LIKE IT AND QUIT KNOCKING. If you hear someone knocking things in general, just ask him what he is doing to make it better.

Just before going to press we have received another IDEA. Thanks readers for the co-operation, but we will have to save this one for next week. Send along any idea you have for BOOSTING Richmond Hill to THE BOOSTER in care of THE LIBERAL OFFICE, Richmond Hill.

J. J. BENNETT, ADVERTISING MANAGER OF THE SAN FRANCISCO BULLETIN, SAYS:—

THAT this is the age of ideas. An idea is like a gold mine. Lying hidden in the ground it has no value, but worked and put to service it may be worth a great fortune.

Lazy fellows who sit and dream hoping to hit on some bright idea which will make them rich without working, are about as useful as sand in the spinach. Most "inventors" die poor. The patent office is full of bright ideas tied up by patents and gathering dust while some fellow with an idea not quite so bright but coupled with energy and nerve goes out and cleans up.

An empty hole in a piece of candy has made a huge fortune for two young fellows. But they did not invent the hole. It was already in the candy when they got it. They furnished the power and put it to work by working day and night themselves.

WONDERFUL IDEAS WILL NOT BUILD UP YOUR BUSINESS. GOOD IDEAS, EVEN ORDINARY ONES, IF PUT TO WORK, AND IF YOU LET THEM PUT YOU TO WORK, WILL SURELY MAKE YOUR BUSINESS STEP OUT.

The same thing applies to a town. Let's get our ideas working.
