Interest Revived In Board of Trade

RICHMOND HILL WILL BE
"ON THE AIR"

Interest in the local Board of Trade was revived when about twenty interested citizens met in the council chamber on Wednesday evening. Mr. W. H. Murphy president of the Board presided and plans for an active program for the coming winter months were discussed. It was decided that the regular meetings of the organization should be held on the second Monday of each month. The first regular meeting will be next MONDAY EVENING, October 8th and it is hoped that there will be a large attendance of business men and citizens.

Prospects of industrial opportunities were discussed and it is planned to carry on an active campaign during the coming months. A committee was appointed to investigate one proposition and their report will be received at the next meeting on Monday night.

The Board will co-operate with the Jones Lumber Co. for the purpose of putting Richmond Hill "on the air" some night in the near future. Through the courtesy of this firm in conjunction with the Satin Finish Hardwood Flooring Co. there will be a broadcast about Richmond Hill on some evening in the near future. The date will be announced in ample time so that local radio fans will have the opportunity of tuning in on the program.

The executive will have a tentative program to present to the meeting on Monday night and it is therefore very important that there should be a large attendance of citizens. Everyone who is anxious to promote the industrial, business and civic welfare of the town is welcome.

Among those present at the meeting were: W. H. Murphy, T.H. Trench A. A. Eden, J. G. Routley, J. Sheardown, J. A. Greene, J. H. Naughton, J. R. Herrington, G. H. Duncan, R. S. Cooper, S. Barraclough, W. J. Taylor, William Davies, W. H. Pugsley, Robt. Edean, Norman Batty, H. Austin.

Christie St. Hospital Veterans Entertained

Friday, September 29th about fifty of the Boys from Christie St. Hospital were entertained at the home of Major and Mrs. Morrison. Mrs. Morrison was assisted by the Thornhill and Richmond Hill branches of the Women's Institute. The guests, who were conveyed by motor, by some of our generous citizens, arrived at 2 o'clock. Games were arranged on the grounds and in the house, so all of the men found something of interest, for those who choose to just visit, there was a glowing fire in the living room and comfy chairs. Supper was served at 6, during which the Thornhill orchestra favored the company with splendid music.

The evenings entertainment consisted of community singing, vocal solos by Mr. Edwards, Toronto, humorous sketches by the well known Mr. Taylor Toronto, and a reading by Miss Marion Forrester, Lansing. The boys, who were very enthusiastic in their words of appreciation, voiced their feelings by giving three rousing cheers and a tiger for the Host and Hostess singing "For He's a Jolly Good Fellow". Major Morrison in his response said, it was not only a pleasure but a privilege to have had the men as guests. That his home was always open to returned men as he felt he belonged to Christie Street. He paid great tribute to the women of this community for the red cross work done during the past and for the work they are still carrying on.

Rev. Baker, of the United church, Thornhill, in a few closing remarks, thanked the artists and all who had assisted Mrs. Morrison in this very happy event.

Interesting Trip To Gyproc Plant

On Thursday last Mr. F. N. Hopper representing the Jones Lumber Company, Richmond Hill, enjoyed a very delightful trip through the Gyproc plant at Caledonia. The party left Toronto at nine o'clock in the morning and drove by chartered bus along the Lake-shore road via Hamilton to Caledonia. On arrival the party was taken to the mine which is about eighty-five feet below the surface. There they found the very hard grey rock which is mined and manufactured into Gyproc and other products. The mine is cut about six feet deep and about twenty feet wide and is carried by rail sometimes as far as one mile.

The rock first goes through a crusher and is ground to a fine powder and from this is taken such products as plaster paris plaster and gypsum. The gypsum is then taken to the different machines and thoroughly mixed before it is put in the paper and press. The whole process is a very interesting one and it is marvellous to witness the many steps leading to the large piles when it is ready for shipment.

Following the inspection of the mine and plant the seventy-five members of the party were taken to the dining room and treated to a sumptuous repast by the Ontario Gypsum Company.
