CANADA IS NO MEAL TICKET

The fuss kicked up by a small group of agitators among the British miner group of immigrants is thankfully not typical of the group. Any immigrant who expects Canada is a country of free meals and no work would be well advised to stay away. Canada does not need such people and they are bound to be bitterly disappointed. Hon. George P. Graham in speaking at the Canadian National Exhibition on Press Day, summed up the whole problem when he said this country is in need of virile men who are willing to take their coats off and go to work, the same as the pioneers of Canada had done. The leader of one of the British harvester groups is reported as saying, when confronted with his criminal record, "Oh you can send me back to the Old Country. In can always get free meals there." Canada is no country of free meals. One group of harvesters were offered \$5.00 a day, according to report, and only one of the group of 40 went to work. There is work aplenty and opportunity galore in Canada for the men who are willing to grasp it, but only the worker can succeed. The magic lamp of Canada has to be rubbed before its magic can be seen. The men who are looking for free meals are not wanted here any more than they are where they came from. Each country has within itself sufficient of that type of individuals.

RADIO MAIL LISTS

Many radio fans are wondering what has caused such a great increase in their circular mail, according to a business men's magazine which goes on to explain the matter.

Some announcers make lists of radio listeners who write in to their stations with requests for certain pieces to be played, or send for booklets, souvenirs or advertising matter. These lists are then sold to dealers in radio equipment and parts, who are thus able to get in touch with these prospective customers.

As radio owners are generally of a class able to buy liberally, these lists are resold to dealers in all manner of merchandise as likely customers for their wares also. So the radio fan's name goes on and on. Finally graces many a "sucker list."

RUNNING THE TOWN

There are always a few people in every village or city who complain that a certain set of men want to "run the town." But those who kick most are usually those who do nothing to assist in the civic work of their communities.

Many who never attend a public meeting, nor even take the trouble to vote, will stand on street corners and criticize their more active and patriotic neighbors who do try to get necessary things done.

Running the town is not such a delightful pastime as some imagine and the leaders in every community are men who sacrifice their time and contribute their money to assist movements for the public welfare.

The motor license reduction and gasoline tax increase predicted for next year will help get a closer touch on the motorist who uses the roads most.

An active mind in an active body is a great aid to longevity, particularly for pedestrians.

It seems fitting that a barber is the inventor of a new radio instrument, which has been named the gasophone.

The average age of convicts is younger than formerly, which is perhaps due to the superior advantages enjoyed by the present generation.

Do you watch the pressure of your balloons?

THEY are designed for low pressure. That's the reason why the pressure of balloons should not drop even three pounds.

Under inflation means premature trouble — excessive wear on side walls — bruises and breaks in the cord fabric that lead to blow-outs — treads worn out before their time.

Drop in at a Dominion Tire Depot once a week and have your tires inspected. Ten minutes service by an expert will add miles to the life of your tires.

When the village council met the members present, Reeve Savage, Councillors, Glass, Innes and Paulin and M. Teefy, clerk.

When the following headed their forms at the Richmond Hill High School:—Form III Lorne Perkins; Form II Georgie Brown; Form I Jessie Rogers.

CATTLE MARKET PROSPECTS GOOD

"A continuation of satisfactory market outlets for our cattle surplus for the balance of 1928 and for 1929," is the prediction of the Dominion Department of Agriculture through its Markets Intelligence Service.

Stock Yards are the most strategic points from which to view the possible trend of the market, and the statement quoted is based upon an analysis of the reports made by officers of the Dominion Live Stock Branch located at the central stock yards in the different provinces.

Last year autumn trading was in the seller's favour, in spite of the mediocre stock offered, much of which was not of butcher quality. Prices at the moment are two to three cents higher than a year ago, but it looks as though there will be a repetition of last year's market conditions. It is regrettable that there is a wide shortage of good beef cattle. Producers are short on supply particularly of good weights Ontario's cattle of butcher quality have already been closely marketed. Domestic buyers are combing the country for finished cattle and meeting strong competition from Buffalo buyers. Offcasts from dairy herds will be fairly heavy during the next three months owing to the attractive prices.

The West is not likely to put out a normal autumn run. Early spring and early grass brought cattle along fast, and this with high values has made for heavy runs during the past six weeks. This is expected to continue through September and October. Present runs include a large volume of light stockers, with heavy feeders in light supply.

Demand for store cattle is strong in the West, and is likely to be keener. Feed is plentiful. The Ontario demand for Western stores is keen, this with United States competition, and the prospects for a strong enquiry

from western farmers, will make unparalleled competition for anything of fair feeding quality, thus precluding any chance of weakness late in the year in the market on eligible cattle.

FUNNY BREAKS

Some of the funniest things in print are not those produced by writers who try to be humorous, but are the result of accident, through careless writing and proof-reading.

The following paragraphs are samples, all of which actually appeared in various American newspapers and magazines:

"Drury and John Lacey wish to announce that the Lacey caught at Lida is no relation of theirs. They claim none of their folks has ever been caught."

"Dozens of hens gave their all to satisfy the appetites of the town people."

"The family was made ill by pantomime poisoning."

"To trade, \$60 lady's plush coat; also girls for load of hay."

"Farmer boy, aged 40, wants position on small, slender window's ranch."

"Preaching by Rev. Ewing has been very forceful and cutting. The subject Friday night is 'Breaking Through.'"

"Mrs. Mary C. Davis and Mrs. C. H. Powell have treated themselves to nice tombstones in memory of their husbands."

"Found, fountain pen by woman half full of blue ink."

"Why kill your wife? Let electricity do it. We'll help. Electric Supply and Fixture Company."

"I am afraid, doctor," said a woman to her physician, "that my husband has some terrible mental affliction. Sometimes I talk to him for hours and then discover that he literally hasn't heard a word I said."
"That isn't an affliction," was the reply; "that's a divine gift."
