I pray Almighty God that the words I write in this house may be pure and honest-that they be dictated by no personal spite, unworthy motive or unjust greed for gain; that they may tell the truth as far as I know it- and tend to promote love and peace- amongst

THURSDAY, NOVEMBER 8th, 1928

LEST WE FORGET

Sunday, November 11th is the anniversary of the day on which cannons were stilled and arms laid aside after the most stirring, most widespread and most terrible conflict in modern history.

Those of us who have lived through it with a consciousness of its woeful disasters, who have perhaps lost some of our nearest and dearest, are dedicated to the continuance of the blessed peace that now covers the land with well-being and prosperity. In counting the advantages and joys we have today, we must not forget what those on the battlefields suffered, nor to pay a deep tribute in our own hearts, and publicly, to those who gave their lives for their country.

Our thoughts should also dwell on the movement for peace the world over, that is gaining momentum with each succeeding day let us pray for the success of this high, ideal objective that will usher in a new era of brotherly love to the world.

WE CHERISH THE MEMORY OF OUR BRAVE SOLDIERS

They died on Flanders Fields in the bitterest battle of history, that we might live.

Their brave deeds and unselfish devotion to the cause are an in-

spiration to men forever. Let us pause in our work on November 11th and devote our time to thoughts of the living and dead soldiers who were vindicated on that day in the year nineteen hundred and eighteen.

A REASONABLE PROPOSITION

"A tempest in a tea-pot" was the phrase used by one councillor to describe the rumpus staged at the Richmond Hill council meeting on Monday night relative to the proposal to enter into an agreement with the School Board for the use of the old high school. A careful thoughtful and unpredjudiced review of the agreement which is printed elsewhere in this issue bears out the truth of the statement.

The building was originally built and used as a high school. When the new high school was built it was no longer needed for High school purposes but was needed for a class room for the public school and accordingly it was transferred to the Public School section and to-day is public school property. This transaction was undertaken by the Board of Education after securing the best of advice and with the full

sanction of the Ontario Department of Education. The Board of Education have unamiously agreed to enter into an agreement with the town whereby the municipality may have the use of space in this building which is not used for school purposes. The agreement also provides that when such time arrives as it is necessary by virtue of increase in population to secure school accommodation in addition to what is available, that the council will finance the construction of two new rooms on the present public school and that the village secure for the sum of one dollar a deed to the old high school

property. It is obvious that when the increase in population referred to in the agreement comes about, that the town would have no alternative but to finance the construction of additional rooms. THE TIME WHEN NEW ROOMS WILL HAVE TO BE ADDED TO THE PUB-LIC SCHOOL WILL COME NO SOONER AND NO LATER BY ANY CLAUSE IN THIS AGREEMENT. The Board of Education will have exactly the same room available for Public School classes that they have to-day and the town will have a suitable court room and magistrates office which if not secured here will have to be rented somewhere else and paid for with the taxpayers money.

RICHMOND HILL NEEDS A MUNICIPAL BUILDING

It is generally admitted that Richmond Hill needs a municipal building. The administrative offices, the public library, council chamber, court room and court offices housed under one roof & owned by the municipality is admittedly a worthy ideal. Unfortunately the financial position of the town does not permit the carrying out of such a proposition at the present time, desirable though it may be. Therefore a commendable policy on the part of the present council is to look forward towards this goal and do all in their power to pave the way for such accomplishment in the future. That is exactly what the Richmond Hill council is doing in entering into an agreement with the Board of Education concerning the old high school property.

The signing of the agreement does not mean any increase in the debenture debt. No debentures will be issued until new school rooms are built and new rooms will be built only when an increase in population warrants the action. If the council does not enter into this agreement, when an increase in population demands it additional school rooms will have to be built but the village WILL NOT secure a deed for the old high school. If the council does enter into the agreement with the Board of Education, when an increase in population demands it additional rooms will have to be built but the municipality WILL receive a deed for the old high school property.

PUBLIC BODIES AIM ONLY TO BEST SERVE THE PEOPLE

Even the most confirmed critics of the present or past councils do not contend that municipal legislators are inveterate spendthrifts anxious to willfully spend the people's money needlessly or unnecessarily load the municipality with a debenture debt.

The present members of the Richmond Hill Council may have to their credit many sins of ommission or commission and many may disagree with their record and with their actions but it cannot be denied that as public servants elected to positions of trust and honor in the municipality that they are trying their best to serve their fellow citizens and have a high conception of their duty to the community.

The charge that such a body of men would scheme to railroad through an agreement which would burden the municipality with debt is hard to understand. We are confident that every member of the council is inspired with no other motive but service to the municipality when they propose to enter into the agreement with the Board of Education. We are equally confident that the School Board has no ulterior motives in becoming a party to the agreement. Both are bodies composed of intelligent, worthy and competent men who are deeply interested in this community, and enjoy the confidence of the electorate.

The proposal and agreement from start to finish is a plain business proposition for the ratepayers of Richmond Hill. The council has taken commendable action in looking to the future needs of the municipality and the Board of Education has evidenced a splendid spirit of co-operation in the interests of the community.
