

WHEN YOU BUY A RADIO

Look for the Rogers A/C TUBE With the Top Clips

Actual Size of Tube

THIS is your means of positive identification of a Rogers Batteryless Radio, as this tube is found only in the Rogers and is made and controlled in Canada exclusively by Rogers for their Batteryless Receiving Sets.

Thousands upon thousands of these tubes have been in active daily use throughout Canada for years and most of those now in use for the third year are as good as new.

The A/C tube is the heart of any electric set and the Rogers is the only A/C tube in Canada that has proven its ability to give maximum service for years.

Fully Guaranteed

Moreover the Rogers A/C tube is absolutely guaranteed to give satisfactory performance. You take no chance of heavy tube expense!

The phenomenal success of the Rogers Batteryless Radio (it now enjoys the greatest sales of any radio in Canada and more than all other "electric" radios combined!) is based largely on the quality, power, and durability of the Rogers A/C tube.

Yet a Rogers Batteryless Radio costs no more than ordinary electric sets. Prices are as follows:

- \$165 and \$275 for Sets complete, except Speaker.
- \$250 to \$395 for Console Models, Complete.
- Phonograph Combination Highboy, \$325, Complete

Convenient terms arranged.

WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

Armistice Day was appropriately celebrated in all the churches here on Sunday last. At St. Philips Anglican the pastor Rev. J.J. Robbins was in charge and the service was marked with solemnity and dignity fitting for the occasion. The text was chosen from John 6:38—and appropriate hymns including "O God our Help in Ages Past", "For all the Saints who from their Labors Rest," "Nearer My God to Thee," "The National Anthem," etc., were sung. The impressive rendering of "The dead march of Saul" by the organist, Miss Ila Weighill brought this memorable service to a close. Also in the Central United Church an impressive service was conducted by the pastor, Rev. H. H. Eaton, an unique feature was the reading of the treaty of Paris preceding the sermon, the text of which was "Blessed are the peace makers for they shall be called the children of God." Appropriate music in charge of Mrs. E. E. Braithwaite added dignity to this service of remembrance. This thought was carried on to the evening service—when Rev. Eaton chose for his subject, "War or Peace" "Barrabas or Jesus". Similar services were conducted also in the Lutheran church. Rev. E. Heimerick was in charge with Mr. Ewart Stiver presiding at the organ. Thus it was with one accord that our citizens met together and bowed in silent tribute and reverent memory of our "glorious dead" to celebrate not victory—but Peace.

**MAGIC**

THIS MAN is putting up telephone poles. Early in the morning he is out making a way for the wire that is to come. At night when the gang gets back to camp he is tired. But he likes it. There is zest in the work he is doing, for he is in new country. There have never been telephones here before. He is blazing the trail. After him will come families and homes and stores and factories to make another city. Over the wires on the poles he plants there will be voices and laughter, business will hum, all the world will draw closer. He works with magic. The wire transforms time, and distance. Today you can lift the telephone at your elbow and within seven minutes hear the voice of your friend in England say: "Are you there?"

THIS MAGIC in the telephone has not come in a day. It has come with year after year of experiment and improvement. The telephone of today is no more like the first telephone than a machine gun is like a bow-and-arrow. And the telephone of tomorrow will surpass the telephone of today. Tomorrow perhaps, this telephone at your elbow will bring you the face of the person you talk with, will hold new magic we now do not dream of.

THIS IS the urge to improve—to seek and to find something always better—which has been the definite policy of the telephone business since the first crude instrument reproduced the voice of its inventor fifty-odd years ago. By no other policy could the telephone have kept pace with this country or contributed to its progress as it has done in reducing Canada's wide distances and differences of geography. And by no other policy can the telephone now meet the responsibility of serving Canada's future.

CANADA'S FUTURE is at least twenty years of unprecedented growth and prosperity. All the signs and barometers of business point to it. All the shrewdest prophets of business predict it. The signs and the prophets are so sure, and the future is so unmistakable, that within the next five years more money will be needed for extension of the telephone system in Ontario and Quebec than was spent by the business in all its first forty years.

THE MAN pushing poles and wire into new country and the foresight which now is planning over one hundred million dollars of new plant to meet the needs of the next five years come from the same policy and the same purpose—to give Canadians facilities of communication worthy of their country and its future.

Published by The Bell Telephone Company of Canada to tell you something about the telephone business and the people in it.
