HEALTH SERVICE

OF THE

CANADIAN MEDICAL ASSOCIATION

WHY REPORT COMMUNICABLE
DISEASES?

There exist, in all parts of Canada,
laws which require that, when a com-
municable disease occurs, its occur-
ence shall be promptly reported to the
health authorities. It is known that
such reporting is not by any means
complete, as is also the fact that
many law-abiding citizens evade the
law in this respect whenever possible.

The reporting of certain diseases
is required by law for several rea-
sons. In the first place, the health
authorities who are responsible for
the control of communicable diseases
cannot set the control machinery to
work until they know that disease ex-
ists. The control does not consist
merely in placing a placard on the
house and quarantining the inmates.
That is part of the work, but a more
important phase is that of tracing
back and finding the source of the
case. If this is done, the source is
removed and other cases prevented.
If a case is not reported, the source is
not removed and may continue to be
responsible for more cases.

It is the reporting of an unusual
number of cases of typhoid fever
which first directs the attention of
the health authorities to the need for
action to discover the break in the
protective machinery. If the first
knowledge they have is of the deaths
which occur, needless delay in dealing
with the cause results; many more
cases and deaths follow because of
this delay.

The control of communicable dis-
eases is a community problem. Its
success will be largely measured by
the extent to which all citizens co-
operate in the effort. Just as long
as cases are hidden or not being re-
ported in order to evade some personal
inconvenience, even if isolation in
the home is properly carried out, the
health authorities are being hampered
in their work, which, after all, is for
the protection of the very people who
sometimes hinder their efforts.

Questions concerning health, ad-
dressed to the Canadian Medical As-
sociation, 184 College Street, Toronto,
will be answered by letter. Questions
as to diagnosis and treatment will not
be answered.

BY GEORGE!

I wish I'd bought a Rogers myself

WHO are the men in this community who
are saying, "By George! I wish I'd bought
a Rogers myself"? Invariably, they are those
who bought the first electric radio they hap-
pened to see. Without comparison. With-
out investigation.

Later on, such men hear the Rogers-Battery-
less in action in some friend's home. They
learn that it was first in the field; that it is
backed by a four-year record of proven per-
formance; that more Rogers-Batteryless
Radios are sold than all other electric sets
combined! And their regret is unmistakable.

The moral is plain: Don't buy any new electric
radio without first hearing the pioneer
Rogers-Batteryless. We will gladly arrange a
free demonstration in your home any evening
you name. Come in or 'phone us.

BUTTONVILLE

The November meeting of the But-
tonville Junior Institute was held at
the home of Miss Ruth Walker on
Saturday afternoon. There were quite
a number ventured forth in the rain.
At the meeting Miss Drew Kelly was
appointed librarian for the book ex-
change. (Don't forget to bring your
books to the next meeting!) Dele-
gates were appointed to attend the
meeting at Newmarket to discuss
the appointment of a Home
Demonstrator for York County. De-
legates were also appointed to attend
the annual Convention in Toronto. It
was decided to make a donation to the
Sick Children's Hospital and to make
two quilts for the Neighbourhood
Workers. Miss Alice Wilkinson gave
an interesting outline of the current
events of the League of Nations. Miss
Held from the Neighbourhood Work-
ers Association gave a most interest-
ing talk on the good work this Asso-
ciation is doing by relieving many
needy people by giving them clothing,
furniture, food, etc. Lunch was serv-
ed by the hostesses—Mrs. Jas. Cal-
vert, Mrs. Fred Tennyson, Misses
Alice Wilkinson and Ruth Walker.
