A Soldier Builds Ships

Joe spends a good deal of time making "model ships." Ah, an old-timer, you say. Wrong. Joe was a soldier, and he isn't very old at all—about 30. But there is something rather serious the matter with him. When he was at the front he was wounded twice, seriously too. "Often a fellow seems to get over a wound, but later on in life it seems to come back on him," says Joe. His experience was that when he took a job he became too weak to hold it, seemed to get worse and had pains in the chest. After a while the doctor said it was consumption. Joe is now at the Toronto Hospital for Consumption, where the kindly doctors and nurses are doing their best to patch up the worn frame and put new life in the wasted lungs. They may succeed, too, for Joe is worth saving, and a big fight is being waged to save him. Would you like to help in such work? A subscription from you would be much appreciated. Such may be sent to Hon. W. A. Charlton or A. E. Ames, 223 College Street, Toronto 2, Ontario.

HEALTH SERVICE

OF THE

CANADIAN MEDICAL ASSOCIATION

CRIPPLED CHILDREN

There is nothing that touches the heart of humanity, as much as the sight of crippled children. There is always a willingness to do what is possible to lighten the burden of their affliction and to brighten their lives. This is a commendable spirit as it gives evidence of man's regard for those who are not so fortunate as he is himself. There is also behind it the feeling that every child should have a chance in this world.

It is unfortunate that, to the majority of people, a crippled child is one who is deformed physically or who has lost part of a limb. These make up only part of the group. The child who has a damaged heart or whose organs are deficient in any way is just as much a cripple as is the child whose bones are twisted.

It is right and just that suitable and extra attention should be provided for these crippled children. Because of their handicap, they need special care and guidance in their education.

While this is true, our chief concern should be to prevent any child from becoming crippled and, as a result, handicapped in life's venture. It is a fact that the condition of many of these children could have been prevented by care and proper treatment at the right time.

Many damaged hearts result from diseased tonsils and teeth which are not properly and promptly treated. Much permanent damage results from such diseases as scarlet-fever and measles.

If we wish to protect our Canadian children, then it is our responsibility to support the work of health departments and health organizations which seek to prevent the conditions that cripple children; which bring to the attention of parents the need for early and proper treatment; and which seek to spread knowledge concerning prevention.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

ROGERS
BATTERYLESS RADIO

"Four-Twenty" Table Model
The standard model by which all other electric sets are judged. A development of the famous Rogers Model "Two-Twenty". Single Tuning Knob operates Illuminated Drum Dial. Automatic Voltage Control, Rogers Output Filter, Phonograph "Plug-in" Jack. Genuine Walnut Cabinet by Malcolim.

Are You A Hockey Fan?

... then the price of this Rogers-Batteryless will admit you to every Hockey Match this year, next year and just as long as you want to keep this Set. And, of course, every other Sporting Event is no farther away than your den, if you own a Rogers-Batteryless.

The famous Model "Two-Twenty" that preceded this model, sold for \$225 last year. Yet this set, with all the new 1929 improvements added costs only \$165 complete (except Loud Speaker), \$60 less than last year! That's why we say without any "if's", "and's" or "but's" that this particular Rogers Model is the one best "buy" in the whole field of electric radio.

... but don't take our word for it

Come in or telephone and ask to have a "Four-Twenty" installed in your home without obligation. That's the way to find out for yourself what the Rogers-Batteryless will do. Terms to suit your convenience.
