S. A. Barraclough,

Richmond Hill, Ont.

Our Representative in this District

Save yourself at our expense

Don't try to do the heavy parts of the family wash. Let us help you. This new plant was designed and equipped for that very purpose and can give you as much or little help as you desire by means of five different kinds of laundry service—all moderately priced. We use only soft water and pure soaps, etc. No marking, no starching, and each wash done separately.

We Call In Richmond Hill District

TUESDAYS and FRIDAYS

If you will have laundry ready when driver calls, you will assist us in giving good service. If you only have driver call when phoned for, Call up as early as convenient to insure prompt attention.

Phone Orders for Our Driver, Parcels may be left at Liberal Office, Telephone 9, Richmond Hill

Lakeside 5280

175 Ossington Avenue, Toronto.

N. YORK VETERANS HELD MEETING

The executive of the Veterans of the Federal Riding of North York met in Aurora this week at the Armouries. There was a large turnout of ex-service men from all parts of the Riding. Distress among the Veterans appeared to be more prevalent than usual. Several cases of very great necessity were brought up and grants of relief arranged for. The Treasurer, W. H. Wallace, reported that already a large part of the funds on hand for the relief of distress for the current year had been disposed of, and that only the most necessitous cases where the hardship was especially great could now be attended to.

Secretary A. G. Condie reported a communication from Rt. Hon. Sir William Mulock thanking the Association for its remembrance of him on his 82nd birthday and assuring it of his continued support and co-operation in their activities.

Mr. Wesley W. Brooks, an applicant for the position of Postmaster at Newmarket, appeared and asked for the endorsement of the Association. After considerable discussion there was a unanimous vote in his favor. Mr. Brooks is a native son, a resident of Newmarket, with a fine record as a soldier and in civilian life. Under the Civil Service Act the position must be filled by an ex-service man, where one who is qualified applies.

Regret was expressed at the untimely passing of Comrade Walter Starkey, an ex-President of the Aurora Veterans, who had at all times worked hard in the interests of the disabled and suffering and who had always held to high ideals of loyalty and patriotism.

Among those present were Dr. S. S. Ball, J. A. Knowles, Ben Cox, Albert Kelly, Dr. C. R. Boulding, Geo. Stone, James Muston, H. M. Gladman, Harry Thompson, S. H. Frost, Dr. W. L. Carruthers, Gilbert Whitney, Lionel Middleton. President, Hal Breuls presided.

CARRVILLE

Mr. and Mrs. Drumm, of Toronto, spent Sunday with Mr. and Mrs. D. Middleton.

Mrs. J. Barton and baby are spending this week with friends in Toronto. Mr. S. Lonie had tea with Mr. and Mrs. Woodcott on Sunday.

The Y.P.S. will meet at the home of Mr. and Mrs. Vanderburgh on Friday night. Mr. Stuart Wark and Miss Olive Bovair will have charge of the program.

The annual congregational meeting of the church will be held in the church next Monday night, February 18th. All members are requested to be present.

The Women's Association met at the home of Mrs. Vanderburgh last Wednesday. As this was visitors day, there was a large attendance, and membership increased.

The Box Social held last Friday evening, under the auspices of the Y. P. S. was a decided success. A few games were indulged in before auctioning the boxes. Mr. Potter acted as auctioneer and sold every box for a good figure. In all over thirty-seven dollars was realized.

Dr. Caldwell gave a very instructive address to our Sunday school last Sunday, it being the Temperance lesson on Tobacco.

Mr. Vito Acciolla, of Thorold, visited Mr. and Mrs. Delbrocco last week.

Mr. John Chapman, of Weston, visited at Mr. D. Middleton's on Sunday.

THE NOTORIOUS WOOD BEE

It was a grand old winter's day, January 31st in the morn, When a dozen wood-men started away At the sound of a Chevrolet horn.

With the Chevrolet coach and Over-

land too, With axes, saws and men, The time we had, now I'll tell you May never be equalled again.

The road was steep and also rough O'er the hills, so called Honeyopt. And although those hills are bad enough

They were worse, through the fields, to the lot.

The road was crooked, and not too wide

One man said, "Let's take to our legs" If you'd seen another one cling to the side

You'd have thought that he sat upon eggs.

When at last came a halt by the car that had led,

As it, the last hilltop did reach 'Twas then that white faces turned a-

gain red, And to mute tongues, returned power of speech.

The axes and saws we then did take Each wishing to be a winner,

And worked away without a break Till we heard the call for dinner.

With a real old camp fire gleaming Which afforded a generous heat,

Over which a large pail kept steaming We had lots both to drink and to eat.

Then back to our posts again we went To make the task complete

While part of the time was earnestly spent

In trying to keep on our feet. 'Twas finished, and all for our homes

did start, We came along fine till, Alas!

One car and a wheel did suddenly part When the back tried, the front end,

to pass. Then along comes the coach, with nev-

er a grind, The car that is surely, true blue,

For with wheels in front and runners behind

She trails home the wreck, and its crew.

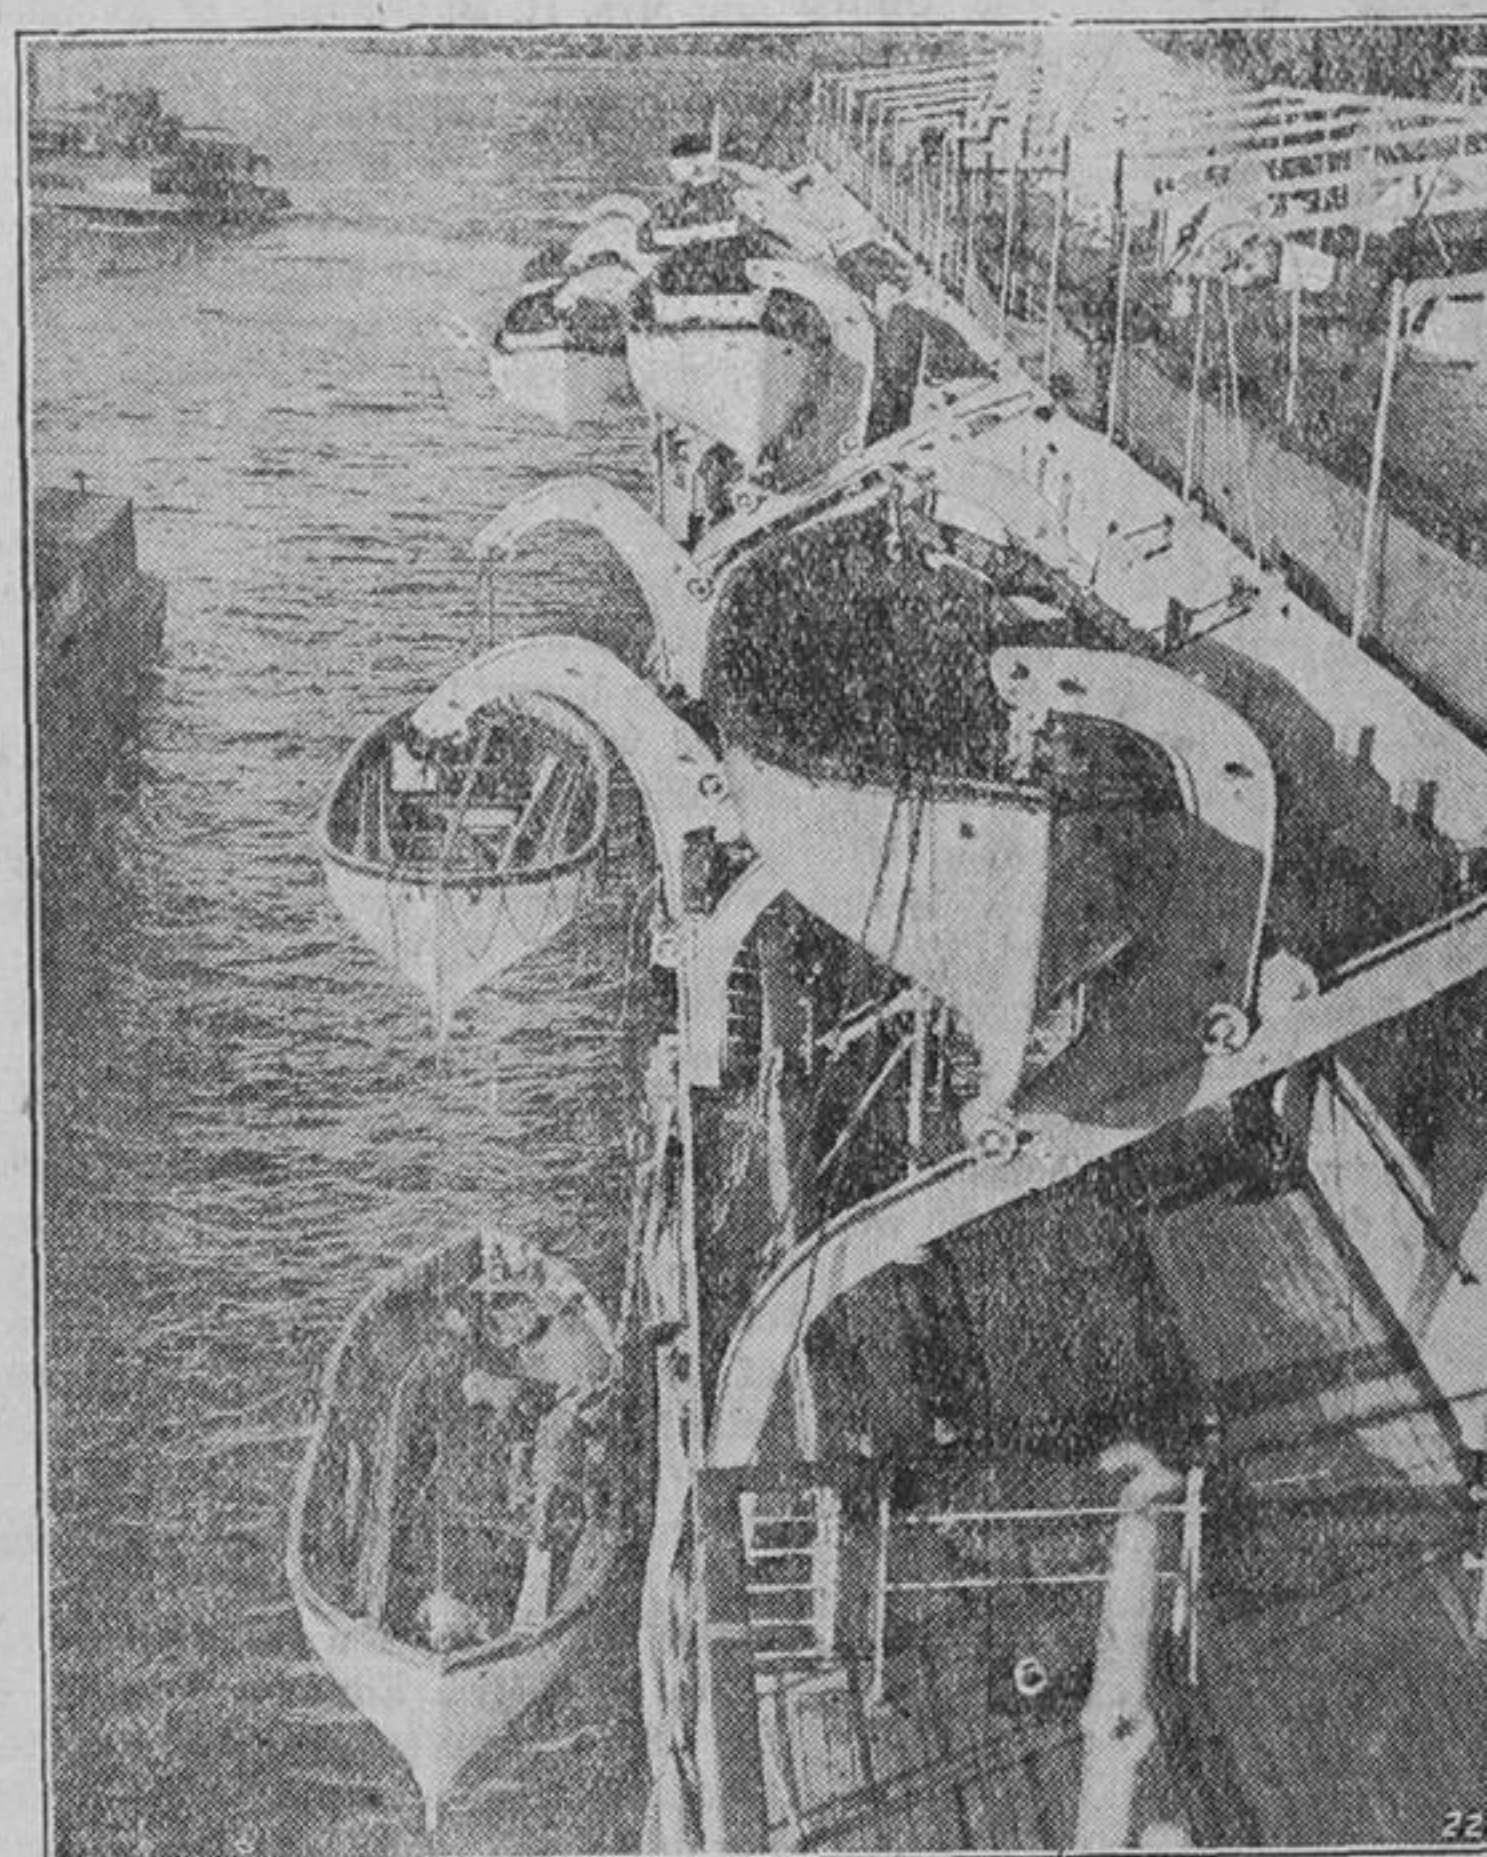

(Signed, ONE OF THE GANG)

MOTORING THROUGH SNOW-DRIFTS

From now until the end of winter, snow is likely to occur at any time—at least, in most sections. A week-end trip, begun in warm weather, may finish in a drifting snowstorm.

Old drivers know how to handle a drift that has formed in the roadway and causes the wheels to spin around and around. New motorists may have had no chance to learn their lesson, and are thus likely to attempt to force their way through the drift without pressing out their clutch.

The clutch will soon burn out completely if this method is practiced. The only way to force your car through the small tantalizing drift (unless you wish to get out and kick the snow away) is to press out the clutch as you strike the drift. If you do not get through, back out in your tracks for ten yards or so, and again charge the drift—pressing out your clutch at the last moment. A few charges of this kind will put you on the home side of the average small drift, with nothing to worry you except the slight delay.

Newest Lifeboat Gear

When the Canadian Pacific liner Duchess of Bedford arrived in New York recently to start a series of cruises to the West Indies, the crew, under the direction of Captain H. Sibbons and his officers, demonstrated the efficiency of her up-to-date lifeboat gear in a fashion that amazed the inspectors.

Shown above is the latest thing in lifeboat lowering equipment, capable of lowering twenty-eight boats in ten minutes. The davits, which are controlled by one man, slide down the rails until the boat is at deck level. It is then lowered by gravity to the water and can be released by trigger, the falls then being hoisted again and attached to another boat which is nested on the same davit.

United States officials stated that this Welin-Maclachlan gear was the most efficient ever seen in New York.

F. W. SILVERSIDES and A. FARMER, Auctioneers

Would You Build A House Without A Roof?

You won't start to build a house unless you know you can finish it. The Bell Telephone Company tries to be equally sensible.

The company does not need all its \$75,000,000 of new capital now but will spread its issue over years to come.

But it does need the assurance that, when equipment is started now for future telephones, money can be obtained to finish the job.

By 1934 Ontario and Quebec will need a million telephones. These telephones cannot be ready unless central exchanges and other equipment are started now.
