Here and There

(259) Although Canadians have been styled strong "silent" men there seems little to support the reputation in the recent announcement that they are the world's greatest telephone conversationalists. There are 1,259,987 telephones in Canada, recently published statistics disclose, allowing for a 'phone for every eight persons. If all the conversations that took place during the past year were placed end to end they would be heard in Mars, for every citizen held on an average of 221 conversations during 1928. Presumably this does not include wrong numbers.

One of Montreal's first big buildings that was demolished to make room for one of the latest skyscrapers downtown has appeared on an entirely new site, to the amazement of the citizens. So carefully was the building taken down that scarce a score of new stones were required to complete its reconstruction on its new lot.

Up to December 31, 1928 the Canadian Pacific had spent in colonization and Canadian development work, land settlement, etc., nearly \$85,000,000 of its own money.

Sir Charles Gordon, G.B.E., president of the Bank of Montreal, has been appointed to the board of directors of the Canadian Pacific Railway to fill the vacancy caused by the resignation of Mr. J. K. L. Ross. Senator the Hon. F. L. Beique, also, has been appointed a member of the executive committee of the board.

Dean Sinclair Laird of Macdonald College, Ste. Anne de Bellevue is better known as an educationist than a philanthropist, but he is really both. Some years ago he made a tour of the Canadian west. His time was more or less limited and in planning his itinerary he was obliged to miss several points he considered worth while and to spend more time than he thought necessary in places less interesting. While he made up his mind that this condition should not obtain if he made the trip again, he was greatly thrilled by the beauty of the Canadian west and impressed him and he re-

turned, as he says, with a more sympathetic understanding of the western people and problems and more thoroughly convinced that the education of a Canadian can not begin until he has seen his own country.

It was his idea that if a tour could be organized at reasonable cost, to cover all the important cities and resorts west of Toronto, and the participants were assured of relief from all the worries of travel arrangements, enough might be interested to warrant the running of a special train.

Thus the first "Dean Laird Special" came into existence and

this year, for the sixth time, and in conjunction with the Canadian Pacific Railway the Dean is again organizing a de luxe all-expense tour which for a stated sum, affords the maximum of enjoyment and variety of scene and recreation that can be provided in three summer weeks.

Dean Laird devotes a great deal of time and energy to his tour and each year goes over much of the same ground, but he now knows the high spots in western travel, and by carrying on year after year he feels that he is making his contribution towards a greater and more united Canada. Altogether, Mr. Laird has piloted some fifteen

hundred people through the great cities and scenes which lie between Montreal and Victoria—Banff, Lake Louise, Winnipeg, Edmonton, Vancouver—over a diversified route. He has found that, while the travellers appreciate having a special train as a home and base, they appreciate the Great Lakes and optional motor runs, so that the steamships and the motor cars are very generously used by him.

The Dean is doing a great work and the only qualifications he demands from applicants for membership in his tour are companionship and the capacity for enjoyment.
