DIVIDENDS FROM THE FARM

A GOOD farm, representing invested years of effort tilling the soil, should pay dividends. And it will—to the farmer who is a keen business man.

The dividend is the earnings over and above wages for the farmer's work. Too many farms fail to earn even these wages.

The right Banking connection will prove invaluable to the farmer who plans for dividends. He should discuss his business freely with the Bank Manager.

The Manager at any Branch of the Bank will give you painstaking advice and dependable service.
