WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

God knew that some would never look inside a book to know his will. And so, he threw a varied hue o'er vale and hill

He knew that men would read words wrong

And so, he gave the birds their song. He put the gold in the sunset sky to teach us that a day may die,

With a greater glory than it is born, And so may we serve and blest pass to our West.

Summerfeldt in 1903 since then she has been a resident of Unionville and the vicinity. The funeral service was held in the Lutheran Church on Saturday at 2.30 p.m. Rev. E. Heimerich officiating and following the service interment in the Lutheran cemetery. First, the capacity house, which testified of the popularity of the young minstrels, 24 in number, who presented a program bustling with clean humor and clever local hits. The "Olde Tyme Quartette" consisting of Mrs. J. Muirhead, Miss Jean Grant, Messrs T. A. Patterson and Bert Kennedy, in several numbers were decidedly popular. Special mention should also be made of the Tumbling team, under the leadership of Mr. Gibson. In fact dull moments were conspicuous by their absence throughout the whole show. The minstrels who in real life are members of the Boys Club of Knox Presbyterian church, Eglinton, are to be congratulated on the success of the evening.

Santa Claus must be establishing a stable somewhere in this country as it is reported that a consignment of 300 live Swedish Reindeer was recently shipped to Canada. It was the largest shipment of these animals ever to be made.

The recent announcement that a new Dominion Atlantic Railway hotel is to be built at Kentville has been received with enthusiasm, not only among commercial men but the general travelling public as well in Nova Scotia. At the same time the Dominion Atlantic Railway is the object of a good deal of favorable comment in the part it is playing in developing Nova Scotia as a tourist ground and the Annapolis Valley.

A taxidermist must be a skilled sculptor and a student of anatomy, said Mr. G. L. Pap, well known western taxidermist and sportsman who visited Montreal recently.

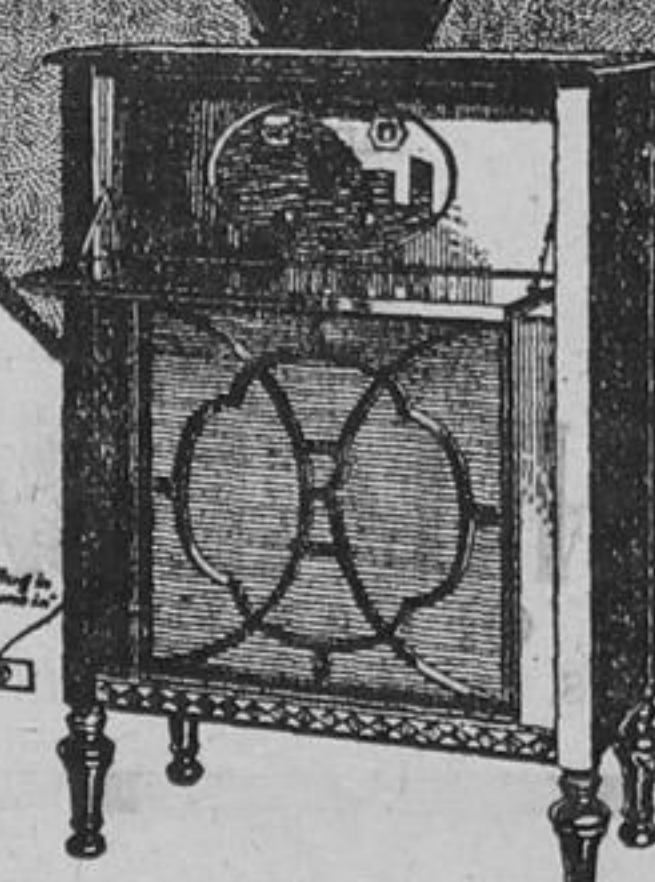

To give a true and life-like appearance to specimens a full-sized clay model is first constructed. From this a plaster cast is made and a papier-mache model formed in turn from this. The final shell over which the skin of the animal is carefully glued shows every feature and conformation of the animal's body.
