### WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

#### THE PACKAGE OF SEEDS

I paid a dime for a package of seeds and the clerk tossed them out with a flip.

We've got 'em assorted for every man's needs

He said with a smile on his lip,  
Pansies and poppies and asters and peas!

Ten cents a package and pick as you please.

Now seeds are just dimes to the man in the store,  
And dimes are the things that he needs;

And I've been to buy them in seasons before,  
But have thought of them merely as seeds;

But it flashed through my mind as I took them this time,  
"You have purchased a miracle here for a dime!"

"You've a dime's worth of power which no man can create

You've a dime's worth of life in your hand!

You've a dime's worth of mystery, destiny fate,  
Which the wisest cannot understand

In this bright little package, now isn't it odd?

You've a dime's worth of something known only to God!"

These are seeds, but the plants and the blossoms are here

With their petals of various kinds: In these little pellets, so dry and so queer,

There is power no chemist can fuse,  
Here is one of God's miracles soon to unfold,

Thus for ten cents an ounce is Divinity sold.

UNTIL you have driven the new Nash "400" with the Twin Ignition motor, you can have no adequate idea of how much pleasure it has added to motoring.

Here are some plain, unvarnished facts and figures which may serve to convince you that you owe yourself a ride in a Twin-Ignition-Motored Nash.

With Twin Ignition instead of single ignition (two spark plugs per cylinder firing simultaneously, instead of one) higher compression is practical, and a much more efficient combustion of the gases is accomplished.

The result is that the identical Nash motor, by actual test, produces 22% more power than with single ignition, 5 miles per hour more speed, and gives you 2 extra miles of travel from every single gallon of gasoline you buy.

In fairness to yourself, don't think of buying any motor car today, until you have seen and driven the brilliant new Twin-Ignition-Motored Nash "400."

## THE NEW NASH "400"
