Did You Ever Stop To Think?

THAT advertising is the best selling force in existence.

THAT advertising means honest telling of honest goods or service.

THAT advertising brings a business before the public.

THAT advertising is necessary for the success of any business.

THAT a business is an established place where something is kept that people need and will want to buy.

THAT it is necessary for the business to have quality in goods or service and to sell at a reasonable price.

THAT next, it is necessary to advertise what they have for sale by TRUTHFUL advertising and to continue that method as long as that business exists.

THAT newspaper advertising helps to meet outside competition more effectively and to get more trade that rightfully belongs to the home city.

THAT progressive business men today know that it pays to maintain quality and that it pays to advertise and tell the public about it.

THAT the success of every business depends upon the reputation it has in the community in which it is located.

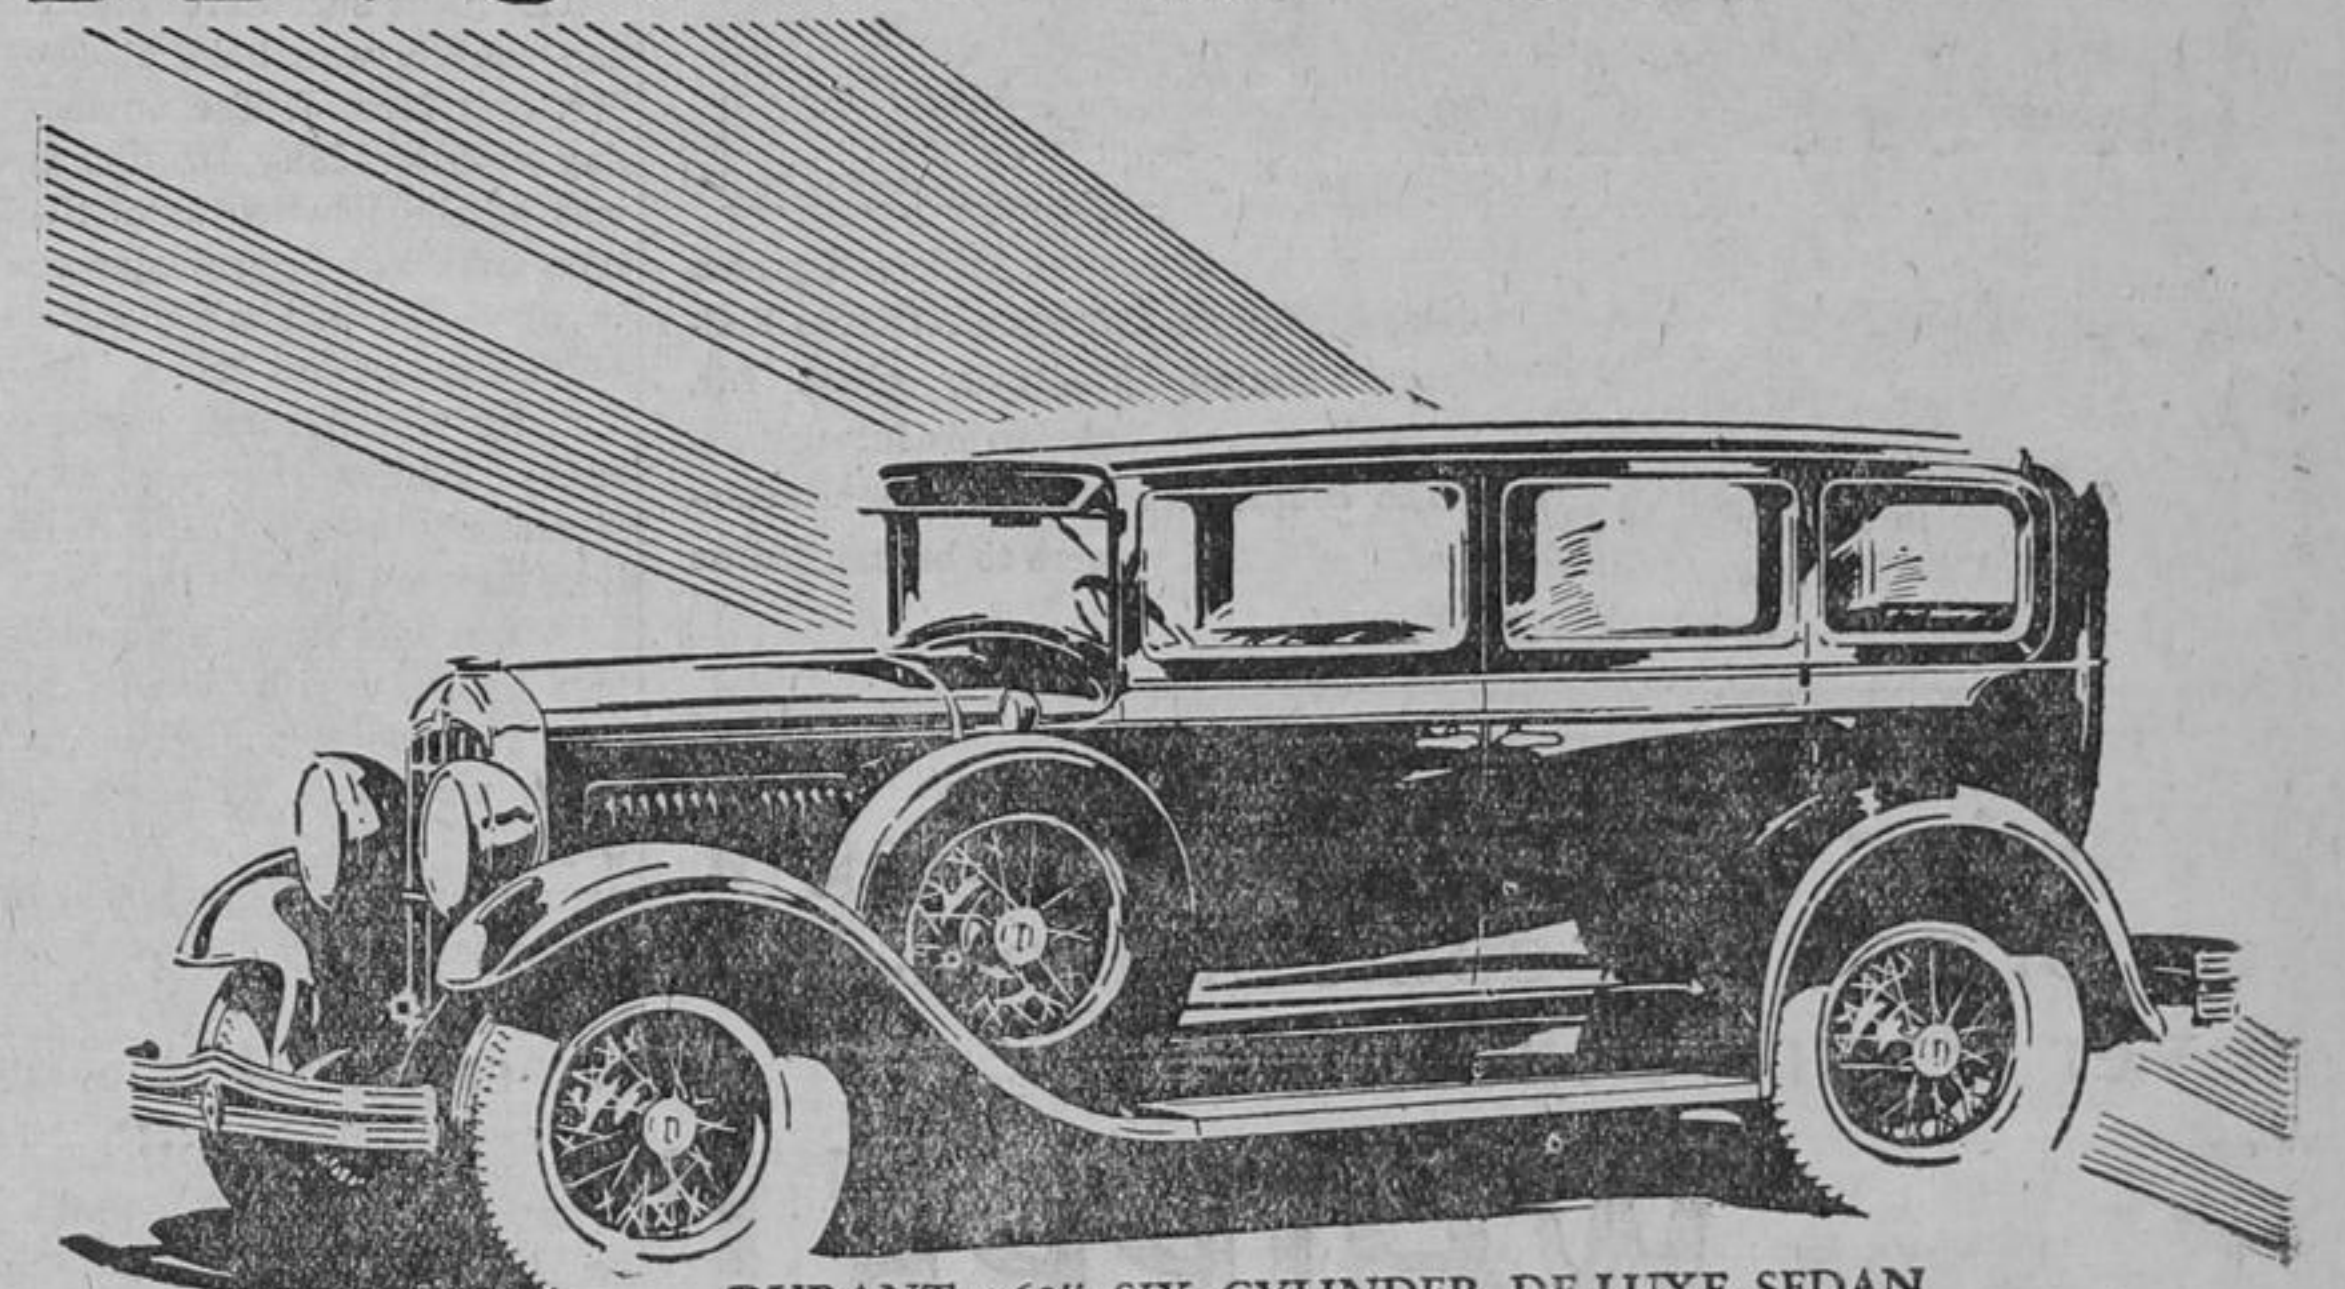

THE REPUTATION NEEDED CAN BE ACQUIRED ONLY BY QUALITY, SERVICE AND ADVERTISING.
