As we understand some writers, it's an investment when your stock goes up, and gambling when it goes down.

A heathen country is one in which the payroll can be transported without an armored car.

Happy thought. Maybe Heinie would pay cheerfully if taxpayers were offered an iron cross for each thousand marks.

Young men who are getting married

should insure with the National Life

The happy day will be happier still if the future is provided for. The possession of a National Life policy at this time, either endowment or life, should be considered just as important as the marriage license

Our nearest agent will gladly give you full particulars of the policy best suited to your needs

National Life Policies are as "Permanent as the Pyramids" Every dollar received by The National Life from policyholders is invested in Government and Municipal Bonds. These securities are as safe as the country itself and guarantee the prompt payment of both interest and claims

Heartily Endorse This BUY-AT-HOME CAMPAIGN SUPPORT LOCAL MERCHANTS AND HELP OUR TOWN GROW

YOUR DUTY—BUY AT HOME
This is the first of a series of twenty-six editorials which will appear in The Liberal on Community Buying. These articles are designed to impress upon the residents of Richmond Hill the obligation which they owe to the community to purchase their needs from local merchants, a duty which they owe, not only to themselves, but also to every organization in the town.

The Liberal is an advocate of community buying because it believes that in the theory of buying at home and supporting home industries depends the success and advancement of this town. The merchant is responsible for the position which we hold in the province today. Through his efforts our schools, churches and public institutions have been established as well as all civic rights which we enjoy. He has shown his confidence in the town and in you by establishing himself in business here, assuming the greater burden of taxation and community responsibilities.

The Buy-at-Home campaign seeks to point the way to a greater and better interest. This series of editorials is designed to benefit the merchant by securing for him your confidence and support, and by so doing enable him to render you a more efficient service. If this task is accomplished, much will have been done to place Richmond Hill well up in the list of prosperous Ontario towns.
