Call For United Action Against The Weed Menace

(Special article written for Richmond Hill Liberal) By Professor J. E. Howitt Ontario Agricultural College, Guelph

The weed menace in Ontario has markedly increased during the past few years. It is not an exaggeration to say that in certain parts of the Province certain weeds like the Perennial Sow Thistle are driving men off their farms. The tax levied by weeds on the agriculture of the Province has been mounting yearly. One of the chief reasons why the weed menace has increased with each succeeding year is the undeniable fact that in the past vast quantities of weeds have been allowed to ripen seeds on roadsides, in school-yards, on waste and vacant lands, along our lanes and head lands and in our fence corners and odd spots here and there on the farm.

The following are the number of seeds produced by single plants of average size in one season: Canada Thistle, 3,500; curled or yellow dock, 17,000; Common Ragweed, 5,000; Chicory, 3,000; Perennial Sow Thistle, 2,000; Wild Lettuce, 8,000; Stinkweed, 20,000. Every weed that is allowed to mature produces at least 1,000 seeds and most of them ripen several thousand seeds. In the past weeds by the millions have been allowed to mature in this province and scatter their billions of seeds far and wide. Is it any wonder that the weed menace has increased in Ontario?

Are we going to tolerate this state of affairs any longer in Ontario? No. The farmers of the province have raised their voices in protest. An Act has been passed by the Legislature to enable them to meet the situation. United action is what is required now. Every municipality, every farmer, every land owner in town or country must unite in the war against weeds and see that they are cut early and often enough to prevent them from seeding. When the weed inspectors send out notice that it is time to cut weeds let no one lag behind or neglect his duty.

Promptness is necessary to prevent all weeds from seeding. Many weeds if cut after they have passed full bloom, will mature their seeds. In order, therefore, to secure the greatest results from the time and labour expended, everyone concerned should see that weeds are cut just as soon as possible after the inspector gives notice.

United action is required so that no weeds be left uncut on roadsides, vacant lands, railway tracks, school-yards or waste places. Every patch of weeds that is left uncut is a menace to the farms and gardens in the neighbourhood, an eyesore and a costly monument of neglect, signifying that some one has failed to do his duty to his municipality and to his neighbours.

Community pride and regard for the rights of others should serve as incentives to prompt and united action on the part of all concerned. When such is secured the weed menace will be much decreased, our farms will be cleaner and more profitable and our highways and byways will become attractive beauty spots, indicating individual and municipal pride and prosperity.

SURELY NOT A PRINTER

"Hello Brown—I see you landed that big job last week. Did you get it at a fixed price?"

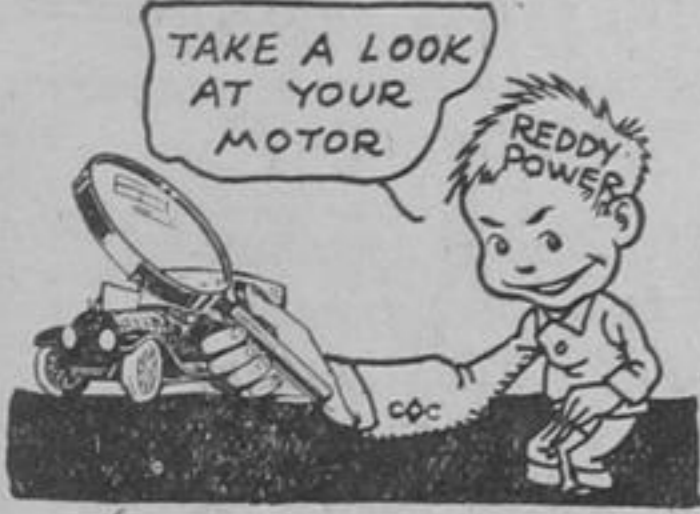

"Oh yes, the price was fixed alright, but I didn't do the fixing."—Ex.

A young man and his bride on their honeymoon arrived at Monte Carlo. Upon their first night they strolled down to the beach in the moonlight and sat there gazing out over the water.

Presently the man quoted: "Roll on, thou dark and deep blue ocean, roll!" Whereupon the young bride grasped her husband's arm and exclaimed: "Oh, Richard, dear, look—how wonderful you are—it's doing it!"

Most of our ills are due to the fact that a child with too many toys always wishes for something to do.

Somehow or other, "love, honor and cherish" seems to promise something better than peanut butter sandwiches.

Heartily Endorse This BUY-AT-HOME CAMPAIGN SUPPORT LOCAL MERCHANTS AND HELP OUR TOWN GROW

**SUPPORT YOUR LOCAL MERCHANT**  
Confidence in your community is a great thing. Support of Richmond Hill merchants by the residents of the town will make their business boom, result in an era of business prosperity and make itself felt in all local activities here. Taxes will become lower, industrial plants will locate here, better working conditions and more employment will prevail and the lot of the people will be made infinitely better. Richmond Hill will grow, its residents will become more happy and prosperous and good times will result.

Hold to your community and your success is assured. Do not be led to other cities by misrepresentations. Your merchant is honest. He knows you and will do his best to serve you faithfully because he wants your trade. The merchant in other cities does not care a thing about you, except to get money. You are no friend of his, and he is not the man to give anything away. If you pay him less you get an inferior article. And the next time you will pay him more. He wants only your money, your home merchant also needs your friendship. Support him. You both will benefit greatly.
