

Running Water for Every Purpose

with this **TORONTO** Pumping Outfit

THINK of the time and labor saved in having running water in the house, barns and wherever you want it. A "Toronto" 2 H.P. Pumping Engine, connected direct to pump, gives you this wonderful convenience at low cost.

The "Toronto" Engine, with direct geared jack, is much superior to belted type of engine on which the belt slips and loses power. May be adjusted to any height of pump. An independent pulley on crankshaft makes power available for operating churn, separators, root pulpers, fanning mill, etc. Sturdy, smooth-running — the cost of operating is exceedingly low.

I will gladly demonstrate this serviceable engine and outfit. Interesting free booklet on request.

Here and There

(319) The biggest shipment of live muskrats ever to be shipped from Canada, a thousand in number, were carried by Canadian Pacific Express Company from Oak Lake, Manitoba to Hamburg, Germany, recently. They were trapped in the breeding grounds on the Manitoba rat farm and shipped in boxes, each box holding twelve pairs. They were shipped on C. P. Freighter Beaverford from Montreal and the muskrats were in good condition with a minimum of casualties when they reached destination.

The Royal York Hotel, Toronto, largest hostelry and highest building in the British Empire, will be opened by His Excellency the Governor-General, June 11. The following day will be reception day for guests and the hotel is booked to capacity. The whole water front of Toronto is rapidly resembling that of New York with the building of immense structures of which this is the outstanding.

On the authority of an official report recently issued it appears that the bicycle is gaining in popularity in Canada. In 1928 production of bicycles in Canada reached a new record with the selling value of products 52 per cent higher than in 1927. Last year 27,999 wheels were sold valued at \$899,480.

Within the next few weeks the largest re-forestation venture so far made by the Ontario Government will be under way in the planting of 1,200,000 trees in the Thessalon district near the Soo. This is to be largely experimental and as a guide to schemes under contemplation for the future in different parts of Ontario.

W. E. Wilford will assume the title of purchasing agent, Canadian Pacific Railway, Toronto, according to an announcement recently given out by B. W. Roberts, general purchasing agent of the railway. Mr. Wilford will have most of the work in connection with the Royal York Hotel purchases. He joined the company as a clerk in the purchasing department in 1908.

Fourteen cases of orchids were carried from England to Japan recently under the auspices of the Canadian Pacific Express Company to the order of the Emperor of Japan, the Empress and members of the Imperial Court. They are sent out from England about three times a year and are highly prized by the Japanese Royal Family and Court.

A new wheat, known as R-49, may be the long awaited rust-resistant wheat. Canadian Government plant breeders have long been experimenting in an effort to develop a variety of wheat that will resist rust and at the same time be of high grade milling quality. Emmer, which is a rough, large, rather poor-yielding grain of the wheat family, which has seemed to be rust-resistant, has been crossed with Marquis wheat and the progeny again crossed with Marquis, resulting in a grain which is three-quarters Marquis stock. The plant breeders have carried on their experiments at the Manitoba Agricultural College and from as many as 86 strains developed, R-49 seems so far to be the most promising.

Mrs. Beacock, of Toronto, is visiting her daughter, Mrs. A. W. Stephenson. Mr. A. W. Galbraith spent Sunday at Shanty Bay.

Mr. Gifford Summers is spending his holidays in Rochester, N. Y.

Mr. and Mrs. J. L. Cains have returned from their motor trip through the West.

A very pleasant social event took place at the home of Mr. and Mrs. Vernon Pike last Tuesday evening. Members of the Zion United Church and other neighbors gathered at their home. Rev. E. R. Young read an address, commending the good work done in the church by Mr. Vernon Pike, especially in the service of song, congratulated the young people upon their marriage and welcomed Mrs. Vernon Pike to the community. Miss Evelyn Trimble, the President of the Zion's Woman's Association, on behalf of the friends gathered and represented, presented the young people with a beautiful quilt. Though taken completely by surprise, both Mr. and Mrs. Pike made suitable replies, after which a pleasant social hour was spent.

On Saturday afternoon, the members of the Pollyanna Club and their friends gathered at Hanlan's Point for their annual picnic. A most delightful afternoon and evening was enjoyed.

Mr. A. W. Galbraith spent Sunday at Shanty Bay with Mrs. Galbraith and Gordon.

Mr. Joseph Soden spent the week at Hillsdale.

Mr. and Mrs. H. B. Schmidt took part in the reunion of the Ratz family at Waterloo last Saturday.

When a young couple from Calgary drifted back to the station at Winnipeg 10 minutes after the "Imperial" had left for the east, Canadian Pacific officials were given the choice the other day of feeding and otherwise caring for a nine-months-old baby for two days or holding the train for thirty-five minutes at North Transcona. They chose the latter, much to the relief of the porter and conductor, who are not family men. The reunited family sailed on the "Montrose" to spend Christmas in the old country.

Car Load of Live Muskrats Take Long Trip

1—Freight car that carried the consignment. 2—Large cage on board S. S. Beaverford where the rats had more space and liberty. 3—Specimen of muskrat enjoying a carrot.

There were a thousand of them, all alive and hungry, shipped by Canadian Pacific Express Company from Oak Lake, Manitoba to Hamburg Germany, via Canadian Pacific freighter Beaverford. Fluffy and friendly they went through the long trip away from their native marshes in good shape and were never so tired that they couldn't put away their carrot rations. It took fifty men several weeks to capture the requisite number without damage and by the use of special traps.

Two attendants in charge of the rodents were kept moving twelve hours a day each feeding and watering them. They travelled overland in specially constructed galvanized iron crates netted with wire and with an enclosed trough in each from which fresh water was available. On board the Beaverford, large cages were built as shown above in which the rats had more space to move around. This shipment which was made recently constitutes a record for movement of muskrats or any other fur-bearing animal out of Canada overseas.
