### Proper BARN VENTILATION with Preston Ventilators

To our knowledge, not a single Preston Ventilated Barn has ever been burned because of spontaneous combustion. Warm, moist air in an improperly ventilated barn produces conditions conducive to spontaneous ignition. Preston Ventilators for the roof, adjustable side-wall windows and spacious doors protect the barn from fire dangers by keeping the air in constant circulation. They are built to keep the elements out. Write for full particulars.

**PRESTON GALVANIZED BARN DOOR HARDWARE**  
Preston hot-galvanized four-wheel Hangers and Bird-proof Barn Door Track are the best hardware made for heavy barn doors. The Hanger is adjustable up and down, and in and out. This makes erection so easy that hundreds of builders will use no other type.

## WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT

### THE PATH TO HOME

There's the mother at the door-way, and the children at the gate, And the little parlor windows with the curtains white and straight, There are shaggy asters blooming in the bed that lines the fence, And the simplest of the blossoms seems of mighty consequence. Oh, there isn't any mansion underneath God's stary dome That can rest his weary pilgrim like the little place called home. Men have sought for gold and silver; Men have dreamed at night of fame; In the heat of youth they've struggled for achievements honored name; But the selfish crowns are tinsel, and their shining jewels past, And the unit of pomp and glory, soon grows bitter to the taste. For there's never any laughter, howsoever far you roam, Like the laughter of the loved ones in the happiness of home. So where'er a man may wander and what ever be his care, You'll find his soul still stretching to the home he left somewhere, You'll find his dreams all tangled up with holly hocks in blooms, And the feet of little children that go racing through a room, With the happy mother smiling as she watches them at play— These are all in life that matter, when you've stripped the sham away.
