Women's Institute Regular Meeting

The meeting of the Women's Institute held in the home of Miss E. McLean, September 12th was attended by enthusiastic Institute workers and the address given by Mr. Herbert, assistant inspector of Public Libraries in Ontario was heard with a great deal of interest. Mr. Herbert brought information which will be of great help to the women here as the purpose of the Institute is to work for the erection of a library building. The fact that out of the 600 libraries in Canada 515 of them being in Ontario shows the interest which people generally are taking in this community work.

GALVANIZED ROOF FOR THE RINK

At a special meeting of the Richmond Hill council held on Monday evening, R. W. Atkinson, of Richmond Hill, was awarded the contract to place a new galvanized iron roof on the municipal arena. The complete tender price was \$1568.70 and the work will be proceeded with as soon as possible. This was the lowest of three tenders for a galvanized iron and although prices were obtained on various other roofing materials the council members decided in favor of the galvanized. "The town should have its lesson from the roof which we are now replacing" said councillor Sims.

Government Control Opposed By W.M.S.

PASS STRONG RESOLUTION CON- DEMNING SALE BY GOVERN- MENT LIQUOR STORES

The Sectional Conference of the United Church W. M. S. (northern section) held in King on Wednesday, September 18th, was attended by several of the ladies from the Richmond Hill United Church, who report a very helpful conference. Reports from different departments showed progress in all lines of activity and societies are meeting their allocation.

The following resolution was read and adopted:

"That this Conference of the officers and members of The Women's Missionary Societies of the Northern Section of Toronto Centre Presbyterian of Toronto Conference of the United Church reaffirms its position as being unalterably opposed to the manufacture and sale of intoxicating liquors for beverage purposes.

We deplore the fearful loss in character, life, health and money by the use of intoxicants. We are certain that the system of liquor control operating through Ontario Government liquor stores has enormously increased the use of intoxicants and that still more deplorable results would follow its continuance.

We, therefore, urge upon The Legislature the total prohibition of the traffic in strong drink within our Province. We would call upon all citizens to unite in efforts to destroy the liquor traffic, which is a fearful menace to our homes and to our youth."
