

**WEEKLY NEWS NOTES FROM THE UNIONVILLE DISTRICT**

God takes our yesterdays, dim, dine and old,  
Touched with sorrow and sinning,  
And gives to us with a grace untold,  
The new to-morrow, with dawn of gold  
Gives us the fresh beginning.  
—Jean Blewett

As it was reported at the first of the season that all games would be played at the Unionville Arena, the Richmond Hill club was granted permission to have their home games played at the Richmond Hill Arena. But all other games will be played at Unionville. There will be two games each night and some real fast hockey is promised.

Owing to the January thaw the first two games of the schedule were called off on account of soft ice, but will be played at a later date.

The Hockey season will open in Richmond Hill on Friday evening, January 17th, when the Agincourt lads will visit the Richmond Hill "shrimps" at 8.15. This will be a good game and a large crowd is expected.

**SHOOTING MATCH AT VICTORIA SQUARE**

Fourteen fine geese were the drawing card to the shooting match held by Ken Duncan on the fifth line, the Tuesday preceding Christmas Day. If any of the eight contestants wanted goose for Christmas they had a chance, but they had to shoot and shoot well for that chance. Nearly all were successful in winning a bird. Jack Frisby swept away many a fine chance and gathered in six out of the fourteen. The other four successful ones, C. Boyington 3; Clark Young 1; G. Francey 1; Wm. Clark 3. The targets revealed such good marksmanship that we give the scores, C. Boyington and J. Frisby 138; Cark Young 137; F. Carruthers and Wm. Young 132; Wm. Clark 134; Garnet Francey 131; Ross Middleton 123.

**HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION**

**POWER**

Power is a word which we frequently use. Mechanical or electrical power is now constantly in use, so much so, in fact, that we do not give much thought to the conveniences and comforts brought to us by application of power. Certain individuals are admired, envied, or feared because of their power, and, among them, are those who properly use such power and, unfortunately, those who abuse it. In many ways, personal power represents success, because the individual who has gone ahead and reached the peak in his particular line of work has generally attained to power in that field.

In any and every type of work, we are helped to success if we possess physical and mental health. No individual is able to do his best work unless he has health. He may do good work, his achievements may be well above the average, he may even excel, but unless he has health, he cannot attain his full measure of success. If he has not health, he has not developed his capacities to the full, and, unless these capacities are fully developed, he has not reached the peak of efficiency.

Work, play, rest and sleep in moderation are all necessary. Overwork to the point of fatigue, overplay resulting in undue strain, lack of rest and sleep which the body requires in order to regain and store up energy—any one or all of these may result in stress and strain which lower physical and mental efficiency and so decrease personal power. The individual who is apparently defying the law of moderation with impunity suffers in loss of personal power, although this may not be immediately apparent, and the day will come when he must pay the penalty in an obvious way.

In order to do our best work, in order to enjoy our play, in order to live happy lives, we should not lose sight of the fact that work, play and rest all have their time and place, and that they should all be taken in moderation. The long grind is a mistake. Better work results if its progress is broken by periods of relaxation either at play or at rest.

Question concerning Health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered personally by letter.

**Here and There**

Thirteen first prizes in apples, one first in pears and four seconds in apples were awarded to Canadian exhibitors at the Imperial Fruit Show recently held at Bingley Hall, Birmingham, England. Eight of the first prizes were won by Nova Scotia growers, five of them by Chas. A. Bentley, of Berwick, N. S.

Four hunters from New York State saw 153 moose during the ten days of October they spent hunting in Albert County, New Brunswick, with headquarters at the camps owned and operated by Guide Charles C. Dixon, of Alma, according to a report made by R. D. Stowell, of Alden, N. Y., who headed the party, to the New Brunswick Government Bureau of Information and Tourist Travel.

Contract for building a 5,500,000 bushel grain elevator at Prescott, Ontario, on the St. Lawrence has recently been let by the Canadian Government. Its cost will be about \$3,100,000 and construction must be completed by August 1, 1930. It is hoped it will be ready before the Welland Canal, built at a cost of \$120,000,000 is opened before next year's grain harvest in Western Canada begins.

Official report on employment in Canada states that in October of this year conditions were exceptionally satisfactory. Reports from 7027 employers with staffs totaling 1,089,583 persons, showed employment at 125, based on the average for the calendar year as 100. This is the highest on record for the time of year and compares with 118.8 for October 1, 1928.

World-wide interest is being attracted by the Canadian Pacific plans to include Honolulu as a port of call on westbound voyages of its White Empress fleet, commencing in December, Grant Hall, vice-president of the Railway, stated at Vancouver recently. Though taking these ships a little out of their course to Yokohama, it will still leave them their supremacy as making the fastest run between this continent and the Orient, he added.
