RE THE METROPOLITAN

A correspondent of Toronto in The Globe this morning expresses a fine opinion on the Radial question as follows:—

To the Editor of The Globe: Will you kindly permit me, in answer to your remarks concerning elimination of deficits on radial, to offer some suggestions which may prove useful in considering this subject.

1. It does not seem advisable to operate buses in competition with your own radial.

2. Radial deficits could be reduced if bus deficits were not added to them.

3. Gauge alterations which are not operated should not be charged to operating expense.

4. Radial officials should not direct passengers into buses.

5. Advertisements in radial cars on account of Grey Coach Lines should be credited to radial.

6. Operating expenses should be severely curtailed, especially overhead charges which are excessive.

7. Service should be improved by faster cars, advertising of Lake Simcoe, and by bringing service downtown, as intended.

To sum up, the radial requires a management sympathetic to the needs of the service and free from the control of bus interests.
