DONALD TENNYSON STRUCK BY CAR MAKES FAVORABLE PROGRESS

Donald Tennyson who is in the Toronto General hospital suffering from injuries sustained when he was struck by a motor car on Tuesday night is reported this morning to be making very favorable progress to recovery. Donald who is engaged at the Richmond Hill Dairy was walking along Yonge Street on his way to work shortly after twelve o'clock. Dr. L. R. Bell whose car struck the unfortunate young man was driving north and a car was going south, the headlights of which apparently interfered with a clear vision of the intervening stretch of roadway. Tennyson was thrown several feet and sustained severe head injuries. He was taken to the office of Dr. J. P. Wilson and later removed to the General Hospital. The injuries are not as serious as it was at first thought and his recovery without any permanent disability is looked for.

LADIES SOFTBALL TEAM IS KNOCKED ON THE HEAD

The rumor that was reported in last week's issue regarding the "All-Star" girls softball team, with girls from Aurora, Maple and Richmond Hill was true enough at the time, and after the four girls coming all the way down from Aurora and the three girls from Maple for a practice with the Richmond Hill girls three times last week and twice this week failed to find any girls from Richmond Hill at the High School diamond and so turned back to their respective towns. This was a severe "knock on the head" to a girls team here this summer and the fans will most likely have to either go to Thornhill and Lansing to see the girls perform. The manager of this "All-Star" team has announced that he will give the girls one more chance to get together for a practice on Tuesday night at the High School diamond at 7.30 daylight saving time. All girls of the village are asked to attend this practice.

NO MEN'S TEAM IN RICHMOND HILL THIS SUMMER

A former pastor of the congregation who will address the United Church Sunday School Rally and Reunion on Sunday afternoon next at 2.45 o'clock.

Daylight saving now presents still another vexed question. Will those from a daylight saving town who attend a dance on the evening of the 24th of May be encroaching on the Lord's Day if they dance until one o'clock (their time) on Sunday morning in a town that is not on daylight saving time? Should the manager of a dance hall in a town that maintains standard time pick out the ones who are in attendance from a daylight saving town and tell them they must stop dancing at eleven o'clock.
